SUMMARY of CHANGE

AR 623–3
Evaluation Reporting System

This major revision, dated 31 March 2014-

- Changes policy for establishing rating schemes by requiring rating schemes of two-star level commands (or equivalent organizations) and below to be approved by the next higher commander, commandant, or organizational leader (para 2-4).

- Changes policy for when an intermediate rater is authorized, limiting the use to specialty branches, dual supervisory situations, and other limited circumstances (para 2-6).

- Adds policy and procedures for designating a Uniformed Army Advisor to perform supplementary reviews on evaluation reports, when required (para 2-16).

- Changes policy for nominative command sergeants major, mandating reports (para 3-2).

- Includes counseling requirements in support of the Army’s “Operational Energy Policy,” which focuses on improving the Army’s capabilities through better use of energy (para 2-5).

- Includes a new rater’s managed assessment for DA Form 67-10-1 (Company Grade Plate (O1-O3; WO1-CW2) Officer Evaluation Report) and DA Form 67-10-2 (Field Grade Plate (O4-O5; CW3-CW5) Officer Evaluation Report), reinvigorating the importance of the rater to the overall assessment process and reinforcing accountability (para 3-7).

- Includes operational and broadening assignment recommendations on DA Form 67-10-2 (Field Grade Plate (O4-O5; CW3-CW5) Officer Evaluation Report) to assist in talent management (para 3-7).

- Includes strategic assignment recommendations on DA Form 67-10-3 (Strategic Grade Plate (O6) Officer Evaluation Report) to assist in talent management (para 3-7).

- Redefines the senior rater four-box check system and label technique for all grade plate forms (para 3-9).

- Includes a new “Rater Profile Report” to track the rating history of each rater for officers of all components, by rank, for second lieutenant through lieutenant colonel and warrant officer one through chief warrant officer five (para 3-11).

- Updates and clarifies procedures for “interim” DA Form 1059 (Service School Academic Evaluation Report) and DA Form 1059-1 (Civilian Institution Academic Evaluation Report) reports, when required (paras 3-14 and 3-15).
Mandates that enclosures to evaluations must be in either a .pdf, .jpg, or .tiff format for acceptance as an authorized attachment to the completed evaluation (para 3-35).

Clarifies policy for when to use a "code 02 Annual" versus a "code 10 Extended Annual" as reason for submission for evaluation reports (paras 3-41 and 3-42).

Updates policy for establishing appeal priorities (para 4-10).

Updates policy for rating officials of physician assistants when assigned to perform staff level functions which would not require a physician to be within the rating chain (para E-3).

Incorporates new Evaluation Entry Processing System for completing and submitting evaluation reports to Headquarters, Department of the Army (throughout).

Incorporates the policies set forth in Army Directive 2013-20 for assessing rated Soldiers on fostering climates of dignity and respect and adhering to the Sexual Harassment/Assault Response and Prevention Program; including associated goals and objectives on the support form; and ensuring that evaluation reports reflect any substantiated finding, in an Army or Department of Defense investigation or inquiry, that a rated Soldier: committed an act of sexual harassment or sexual assault; failed to respond to a report of sexual harassment or sexual assault; or retaliated against a person making such a report. The provision of Army Directive 2013-20, paragraph 3b, that required assessment of a rated Soldier’s response to a substantiated incident of sexual harassment or sexual assault in his or her unit, is no longer required under Army policy. This major revision incorporates all other terms of Army Directive 2013-20 (throughout).

Incorporates language in support of strengthening rating chain accountability by prohibiting “pooling” of rated populations (throughout).

Includes new DA Form 67-10-1, DA Form 67-10-2, DA Form 67-10-3, DA Form 67-10-4 (Strategic Grade Plate (O7) Officer Evaluation Report), based on grade plates, and linking performance to attributes and competencies outlined in ADRP 6-22 (throughout).

Replaces DA Form 67-9 (Officer Evaluation Report) (throughout).

Includes a new DA Form 67-10-1A (Officer Evaluation Report Support Form), mandated for use by officers in the grade of warrant officer one through colonel, and linking development with attributes and competencies outlined in ADRP 6-22 (throughout).

Replaces DA Form 67-9-1 (Officer Evaluation Report Support Form) and DA Form 67-9-1A (Development Support Form) (throughout).
History. This publication is a major revision.

Summary. This regulation prescribes the policy and tasks for the Army’s Evaluation Reporting System, including officer, noncommissioned officer, and academic evaluation reports focused on the assessment of performance and potential. It includes policy statements, operating tasks, and rules in support of operating tasks. It has been revised to update policy on the use of new grade plate officer evaluation forms, integration of a rater’s profile for rated officers in the grades of O–5 and below, strengthening of rating chain accountability, integration of Army leadership doctrine on officer evaluation reports, use of the officer evaluation support form, and requirements for counseling and assessing rated Soldiers on fostering a climate of dignity and respect and adhering to the Sexual Harassment/Assault Response and Prevention Program.

Proponent and exception authority. The proponent of this regulation is the Deputy Chief of Staff, G–1. The proponent has the authority to approve exceptions or waivers to this regulation that are consistent with controlling law and regulations. Pursuant to AR 25–30, paragraph 3–2, the Deputy Chief of Staff, G–1, has delegated this approval authority to the Commanding General, Human Resources Command, who may further delegate this authority to a division chief, Human Resources Command, in the rank of colonel or the civilian grade equivalent. Human Resources Command is a field operating agency to the proponent agency. Activities may request a waiver to this regulation by providing justification which includes a full analysis of the expected benefits and must include a formal review by the activity’s senior legal officer. All waiver requests will be endorsed by the commander or senior leader of the requesting activity and forwarded through their higher headquarters to the policy proponent. Refer to AR 25–30 for specific guidance.

Army internal control process. This regulation contains internal controls and provides an internal control evaluation for use in evaluating key internal controls (appendix I).

Supplementation. Supplementation of this regulation and establishment of command and local forms are prohibited without prior approval from Deputy Chief of Staff, G–1 (DAPE–ZA), 300 Army Pentagon, Washington, DC 20310–0300.

Suggested improvements. Users are invited to send comments and suggested improvements on DA Form 2028 (Recommended Changes to Publications and Blank Forms) directly to Commander, U.S. Army Human Resources Command (AHRC–PDV–E), 1600 Spearhead Division Avenue, Department 470, Fort Knox, KY 40122–5407.

Distribution. This publication is available in electronic media only and is intended for command levels C, D, and E for the Regular Army, the Army National Guard/Army National Guard of the United States, and the U.S. Army Reserve.

*This regulation supersedes AR 623–3, dated 5 June 2012.

Glossary
Chapter 1
Introduction

Section I
Overview

1–1. Purpose
This regulation prescribes the policy for completing evaluation reports and associated support forms that are the basis for the Army’s Evaluation Reporting System (ERS). This includes Department of the Army (DA) Form 67–10–1 (Company Grade Plate (O1-O3; WO1-CW2) Officer Evaluation Report); DA Form 67–10–2 (Field Grade Plate (O4-O5; CW3-CW5) Officer Evaluation Report); DA Form 67–10–3 (Strategic Grade Plate (O6) Officer Evaluation Report); DA Form 67–10–4 (Strategic Grade Plate (O7) Officer Evaluation Report), hereafter referred to collectively as DA Form 67–10 series (Officer Evaluation Report); DA Form 67–10–1A (Officer Evaluation Report Support Form); DA Form 2166–8 (NCO Evaluation Report); DA Form 2166–8–1 (NCOER Counseling and Support Form); DA Form 1059 (Service School Academic Evaluation Report); and DA Form 1059–1 (Civilian Institution Academic Evaluation Report). It is linked to Army Regulation (AR) 600–8 and provides principles of support, standards of service, and policy governing all work required, including Army evaluations policy and guidance regarding redress programs, which include Commander’s (CDR’s) or Commandant’s Inquiries and appeals. Procedures, tasks, and steps pertaining to the completion of each evaluation report and support form are contained in DA Pamphlet (DA Pam) 623–3. Requests for clarification or exceptions to policy will be sent to the U.S. Army Human Resources Command (AHRC–PDV–E) (address and contact information in app F). Current information on updated applications, policy guidance, and training are available online at https://www.hrc.army.mil/.

Note. DA Form 67-10 series, DA Form 2166-8, DA Form 1059, and DA Form 1059-1 are hereafter referred to collectively as evaluation reports. DA Form 67-10 series is referred to as OER (officer evaluation report); DA Form 2166-8 as NCOER (noncommissioned officer evaluation report); DA Form 1059 and DA Form 1059-1 are referred to collectively as AERs (academic evaluation reports); DA Form 1059 as AER-S (Service) and DA Form 1059-1 as AER-C (civilian). DA Form 67-10-1A and DA Form 2166-8-1 are hereafter referred to collectively as support forms.

1–2. References
Required and related publications and prescribed and referenced forms are listed in appendix A.

1–3. Explanation of abbreviations and terms
Abbreviations and special terms used in this regulation are explained in the glossary.

1–4. Responsibilities
a. The Commanding General (CG), U.S. Army Human Resources Command (HRC) will—
   (1) Act as lead agency for the Secretary of the Army and is responsible for the effective operation of the ERS.
   (2) Exercise final review authority on all evaluation reports received at Headquarters, Department of the Army (HQDA). This includes the following:
      (a) Determining that a report is correct as submitted and needs no further action.
      (b) Correcting, or returning to rating officials for correction, reports that may be in error, may violate provisions of this regulation, or would result in an injustice to a Soldier or a disservice to the Army.
      (c) Directing rating officials to submit addenda to reports needing clarification.
      (d) Collecting information to be attached as addenda to reports when such action is necessary.
      (e) Directing CDRs to investigate apparent errors or violations of this regulation and to submit their findings or recommendations. These will be attached to the report or otherwise disposed of as the CG, HRC deems appropriate.
   (3) Directing the rendering of evaluation reports when circumstances warrant and other provisions of this regulation do not apply.
   (4) Clarifying policy, granting exceptions to policy, or formulating new policy, as the need arises.
   (5) Disposing of CDR’s or commandant’s inquiries conducted in accordance with chapter 4, and chapters governing the subject evaluation, as deemed appropriate.
   (6) Processing evaluation report appeals and updating Soldiers’ Army Military Human Resources Records (AMHRRs) accordingly.
   b. CDRs at all levels will ensure that—
      (1) A copy of this regulation, or the appropriate Web link to this regulation, is available to the rated Soldier and rating officials.
      (2) Rating officials are fully qualified to meet their responsibilities.
      (3) Reports are prepared by the rating officials designated in the published rating scheme.
      (4) Rating chains correspond as nearly as practical to the chain of command or chain of supervision in a timely manner.
Note. Pooling, or elevating the rating chain beyond the senior rater’s ability to have adequate knowledge of each Soldier’s performance and potential, in order to provide an elevated assessment protection for a specific group, runs counter to the intent of the ERS. Rating schemes based on pooling erode Soldiers’ confidence in the fairness and equity of the ERS and in their leaders. Senior raters must evaluate and identify their best Soldiers based on performance and potential, regardless of the particular position they occupy.

(5) Rating schemes show the rated Soldier’s name, indicate the effective date for each designated rating official, and are published within the unit and made accessible, either manually or electronically, to each rated Soldier and each member of the rating chain. Any changes to rating schemes will also be published and distributed. No changes may be retroactive.

Note. In all cases when the term “unit” is used, it encompasses whatever type of military unit, organization, or agency the Soldier served in during the rating period.

(6) For the Army National Guard (ARNG) (not Active Guard Reserve (AGR) or full-time National Guard duty), official rating schemes are published by duty position and posted in the unit so all Soldiers are familiar with their rating chain. The published rating schemes will include the effective date of each of the rating officials in the rating chain. The rating scheme for all ARNG or AGR Soldiers will be by name.

(7) Rating officials give timely counseling to subordinates on professionalism and job performance, encouraging self-improvement, when needed.

(8) Each rating official knows how the subordinates whom they evaluate performed during the rating period.

(9) Rating officials provide candid assessments of rated Soldiers.

(10) Each senior rater (and reviewer or supplementary reviewer, if any) understands that he or she will examine the entries on the evaluation reports to ensure that objectivity and fairness have been maintained. When doing so, he or she will keep in mind the interests of both the Army and the rated Soldier. The senior rater will also understand that if he or she notes any errors or omissions on evaluation reports, corrections must be made prior to completion and submission to HQDA (or the State enlisted personnel manager (EPM) for ARNG NCOERs).

(11) Each rated Soldier is provided a copy of his or her rater’s and senior rater’s support forms (or equivalent) at the beginning of the rating period and his or her completed evaluation report at the end of the rating period.

(12) Referred evaluation reports (OERs and AERs only) are provided to the rated Soldier for acknowledgment or comment before being sent to HQDA. This also applies to OER or AER addenda containing unfavorable information and submitted under the provisions of paragraph 3–38. In such instances, CDRs will ensure that the rated officer understands that his or her comments do not constitute an appeal or a request for CDR’s or commandant’s inquiry.

(13) Soldiers receive assistance, if requested, in preparing and submitting appeals.

(14) Local submission procedures support senior raters’ responsibility to ensure that completed evaluation reports arrive at HQDA no later than 90 days after the “THRU” date of the evaluation report, or as stipulated in a military personnel (MILPER) message announcing an HQDA-level selection board. The importance of the evaluation report, as with many personnel actions within a Soldier’s military career, especially those involving HQDA selection boards, requires that this suspense be met.

(15) Duties pertaining to the Evaluation Report Redress Program, described in chapter 4, are performed when an evaluation report rendered by a subordinate appears to be illegal, unjust, or otherwise in violation of this regulation.

(16) Requests for clarification of policy, exceptions to policy, and new policy are forwarded to the CG, HRC. CDR’s will ensure that the CG, HRC, is informed of situations that—
   (a) Are not clearly and adequately covered by this regulation.
   (b) Would result in an injustice to a Soldier or a disservice to the Army if new policy is not made or an exception is not granted.

1–5. Manpower resources

The evaluation function is the responsibility of rating officials, rated Soldiers, battalion (BN) and brigade (BDE) adjutants (S1), or unit personnel administration office, and HQDA. Manpower officials will use the workload factors (obtained in Manpower Staffing Standards Systems) to determine the manpower authorizations.

1–6. Levels of work

a. The focus of this regulation is on the rating chain’s adherence to ERS requirements at every unit supported by an S1/HR Specialist, or personnel administration manager.

b. Senior raters of OERs and NCOERs, or the senior rater’s representative, regardless of component (Regular Army, U.S. Army Reserve (USAR), or ARNG), are required to ensure compliance with standards of preparing and forwarding evaluation reports prescribed by this regulation and/or DA Pam 623–3.

c. The appropriate authenticating official, commandant, or civilian academic institution official is required to ensure compliance with standards of preparing and forwarding AERs as prescribed by this regulation or DA Pam 623–3.
Section II
Principles and Standards

1–7. Principles of support
The ERS will—

a. Evaluate the performance and potential of officers, in the grades of warrant officer one (WO1) through brigadier general (BG), in peacetime and wartime.

b. Evaluate the performance and potential of noncommissioned officers (NCOs), in the grades of sergeant (SGT) through command sergeant major (CSM), in peacetime and wartime.

c. Evaluate the performance of Soldiers during Department of Defense (DOD), civilian educational, medical, or industrial institution programs.

d. Support the Army’s personnel life cycle function.

1–8. Standards of service

a. Evaluation Reporting System overview.

(1) The ERS encompasses the means and methods needed for developing people and leaders. An effective ERS involves the execution of leadership, the establishment of a rating relationship with personal interaction, the conduct of developmental counseling and reviews, and the determination of critical assessments. The Army routinely reviews the ERS to ensure that it remains relevant and in support of its goals.

(2) The ERS identifies Soldiers who are best qualified for promotion and assignment to positions of greater responsibility. The ERS also identifies Soldiers who will be kept on active duty, retained in grade, or eliminated from military service.

(3) The ERS combines major elements of counseling, assessment, documentation, and integration with other personnel functions to meet the needs of the Army, rating officials, and rated Soldiers in their current environments. Its basic foundation—to evaluate today’s Soldiers to select and develop tomorrow’s leaders—will remain consistent.

   (a) Rating officials assess a Soldier’s performance and potential against standards—the Army Leadership Requirements Model containing attributes and competencies (see ADRP 6-22, chapter 1), the organization’s mission, and a particular set of duties, responsibilities, tasks, and objectives using a series of box checks, narratives, bullet comments, and evaluation report rating techniques. The intent of the ERS should be to drive rated Soldiers to meet or exceed the standards. While standards or techniques may change, the ERS will continue to be the most accurate and effective assessment tool and development system possible. It will accomplish its mission of developing people and leaders.

   (b) It is easy to speak of “getting an OER” or “giving an NCOER” but it is hard work, requiring all members of the rating chain, to include the rated Soldier, executing the leadership, the involvement, the developmental counseling, and the personal relationships necessary for an effective ERS.

(4) Under the ERS, a Soldier is evaluated on his or her performance and potential. The ERS consists of two categories of evaluation reports:

   (a) Performance evaluations. The applicable evaluation report forms are the DA Form 67–10 series and DA Form 2166–8. These evaluations focus on a Soldier’s duty performance, or how well a Soldier performs his or her assigned tasks as related to the Army Leadership Requirements Model. They also focus on potential assessments to include judgments about a Soldier’s ability to perform at the current and higher grade or rank, whether or not a Soldier will be given greater responsibility at the present rank, or retained for further military service. Performance and potential assessments by rating officials are extremely important factors when determining a leader’s potential compared to their peers.

   (b) School evaluations. The applicable evaluation report forms are DA Form 1059 (for military institutions) or DA Form 1059–1 (for civilian institutions). These evaluations focus exclusively on the Soldier’s performance and accomplishments while attending a school or course.

Note. The time period covered by AERs is counted as nonrated time on OERs and NCOERs covering the same period.

   (c) Selection boards and personnel management systems will be used to evaluate a Soldier’s entire career and his or her personnel file. Evaluation reports are single time-and-place evaluations, all of which are considered when preparing evaluations. When preparing assessments, keep in mind the Soldier’s leadership potential compared with his or her peers; the Army’s ever-changing requirements for Soldiers with certain backgrounds, experiences, and expertise; and the Soldier’s qualifications as a leader based on demonstrated skills, specialized training, military and civilian schooling, and/or other unique skills required by the Army. The size of the Army and its leader corps is limited by law in terms of strength by grade, and the Army limits the number of selections and assignments that can be made.

b. Evaluation Reporting System principles.

(1) The ERS assesses the quality of Soldiers and determines the selection of future Army leaders and the course of their individual careers. It supports many current Army and Joint personnel management programs. The ERS places emphasis on the senior and/or subordinate communication process; the characteristics of evaluation reports ensure that
leaders’ specialties are considered along with the specialty requirements of their duty positions when they are evaluated.

(2) The ERS is a multifunctional system that allows the rater to give shape and direction to the rated Soldier’s daily performance; provides a chain of command or chain of supervision assessment of an individual Soldier’s performance and potential for promotion, schooling, and successive assignments; and permits the entire evaluation reporting process to be reviewed.

c. Evaluation Reporting System functions.

(1) The primary function of the ERS is to provide information to HQDA for use in making personnel management decisions. Components of this information include the following:

(a) Evaluation reports, which must be thoughtful and fair appraisals of Soldiers’ abilities, based on observed performance and potential. Each evaluation report must be accurate and complete to ensure that sound personnel management decisions can be made and that a rated Soldier’s potential can be fully developed. Evaluation reports that are incomplete or fail to provide a realistic and objective evaluation make personnel management decisions increasingly difficult.

(b) Indoctrination of the Army Leadership Requirements Model and basic Soldier responsibilities to strengthen the Army’s ability to meet future professional challenges. The continued use of the Army Leadership Requirements Model and Soldier responsibilities as evaluation criteria will provide and reinforce a professional focus for rating officials’ evaluation of performance.

(c) An appraisal philosophy that recognizes a single evaluation report will not normally, by itself, determine a Soldier’s Army career (“whole file” concept) and emphasizes continuous professional development and growth that will best serve the Army and the rated Soldier.

(d) Rating chains’ views of performance and/or potential for use in centralized selection, assignment, and other personnel management. The information in evaluation reports, the Army’s needs, and the individual Soldier’s qualifications will be used together as a basis for such personnel actions as school selection, promotion, assignment, military occupational specialty (MOS) classification, SGM/CSM designation, and overall qualitative management.

(2) The secondary function of the ERS is to encourage leader professional development, and enhance mission accomplishment, through sound senior and/or subordinate relationships that stress the importance of setting standards and giving direction to subordinate officer and NCO leaders. Properly used, the ERS can be a powerful leadership and management tool for the rating chain.

(a) Senior and/or subordinate communication through performance counseling is necessary to maintain high professional standards and is the key to an effective ERS. Such communication contributes greatly to Armywide improved performance and professional development.

(b) Use of the required counseling and support forms by rating officials provides the basis for performance counseling. Evaluation reports give the rated Soldier formal recognition for his or her duty performance; calibrate a measurement of his or her professional values and personal traits; and assess their potential for promotion, specialized schooling, command, and/or positions of greater responsibility.

c. Evaluation Reporting System process.

(1) Officers and their rating officials will use the DA Form 67–10 series, DA Form 67–10–1A, and the electronically generated rater and senior rater profile reports, as applicable.

Note. The term “officer” refers to both commissioned officers and warrant officers, unless otherwise specified. However, rating chains will recognize the basic differences between commissioned and warrant officers when evaluating performance and potential. Appendix B describes these differences and gives the policies and instruction unique to warrant officer evaluations.

(2) NCOs and appropriate rating officials use DA Form 2166–8 and DA Form 2166–8–1.

Note. For corporals (CPLs) only the DA Form 2166–8–1 will be used; no evaluation report will be prepared.

(3) During the rating period, support forms and counseling sessions will aid the preparation of a final evaluation report.

(a) The evaluation process actually starts before the rating period, when the rated Soldier’s rating chain is established by the CDR, commandant, or leader of an organization, and approved by the next higher CDR, commandant, or leader of an organization for two-star level commands (or equivalent organizations) and below. The AER rating chains will be established by the commandant or dean of the appropriate school or unit administration office with oversight to ensure adequate evaluation of a rated Soldier and/or student.

(b) The rater will ensure that the rated officer or rated NCO receives a copy of the rater’s and senior rater’s support forms. These documents will provide the rated Soldier essential rating chain direction and focus to aid in developing his or her support form. A face-to-face discussion of duties, responsibilities, and objectives between the rater and the rated Soldier assists in drafting the initial support form(s).

e. Counseling. Initial counseling will be conducted within 30 days after the beginning of the rating period, and quarterly thereafter, for NCOs, WO1s, chief warrant officers two (CW2s), lieutenants (LTs) (includes first lieutenants (1LTS) and second lieutenants (2LTS)), and captains (CPTs). Counseling for all other grades will be on an as-needed basis. It aids in developing a duty description for the Soldier and identifying major performance objectives to
accomplish during the rating period. Counseling will also be used to guide the rated Soldier’s performance during the early part of the rating period. Use of the appropriate support form for grades WO1 through colonel (COL) and NCOs is mandatory and required in conjunction with counseling.

f. Rating chain and form processing. Support and/or counseling forms and evaluation reports will reflect the rating officials published in the official rating scheme (see para 2–3). DA Pam 623–3 explains what information is required for each form and how rating officials can accomplish the process from the initial performance counseling to the submission of a complete and accurate evaluation report to HQDA.

Section III
Special Circumstances

1–9. Performance and potential evaluations

a. Army evaluation reports are independent assessments of how well the rated Soldier met duty requirements and adhered to the professional standards of the Army’s Officer Corps or NCO Corps within the period covered by the report. Performance will be evaluated by observing actions, demonstrated behavior, and results from the point of view of the Army Leadership Requirements Model, and responsibilities identified on evaluation reports and counseling support forms. These will be documented as explained in DA Pam 623–3. The following circumstances will be considered:

(1) The relative experience of the rated officer or NCO.
(2) The efforts made by the rated official or NCO.
(3) The results that could be reasonably expected given the time and resources available.

b. Potential evaluations will be performance-based assessments of rated officers’ or NCOs’ ability to perform in positions of greater responsibility and/or higher grades compared to others of the same grade. These assessments will apply to all officers and NCOs, regardless of their opportunity to be selected for higher positions or grades, and will ignore such factors as impending retirement or release from active duty; potential evaluations continually change and are ultimately reserved for HQDA.

1–10. Changes to an evaluation report

a. Except to comply with this regulation and DA Pam 623–3, no person may require changes be made to an evaluation report. Members of the rating chain, the BN/BDE S1 and/or servicing administrative office, or HQDA will point out obvious inconsistencies or administrative errors to the appropriate rating officials.

b. After necessary corrections are made, the original evaluation reports, with authenticated signatures, will be submitted to the appropriate agency as indicated in appendix F.

c. HQDA review may result in necessary corrections to an evaluation report after coordination with the appropriate rating officials, whenever possible.

1–11. Commander’s or commandant’s inquiry

When a CDR or commandant discovers that an evaluation report rendered by a subordinate or a subordinate command may be illegal, unjust, or otherwise in violation of this regulation, he or she will conduct an inquiry into the matter. The CDR’s or commandant’s inquiry will be confined to matters related to the clarity of the evaluation report, the facts contained in the evaluation report, the compliance of the evaluation with policy and procedures established by HQDA, and the conduct of the rated Soldier and members of the rating chain. The official does not have the authority to direct that an evaluation report be changed; command influence may not be used to alter the honest evaluation of a rated Soldier by a rating official. The procedures used by the CDR or commandant to process such an inquiry are described in chapter 4.

1–12. Access to evaluation reports

a. Access to Army evaluation reports at HQDA is limited to the rating officials on the evaluation report, the rated Soldier, the BN or BDE S1 or administrative office servicing the unit responsible for preparing and processing the evaluation report, and/or those authorized to use evaluation reports for personnel management purposes. Requests to access evaluation reports prepared by another unit or rating chain officials cannot be granted.

b. Selection board members and career managers will not have access to officers’ masked LT OERs in the AMHRR once they are promoted to CPT, or warrant officers’ masked WO1 OERs once promoted to chief warrant officer three (CW3).

c. Selection board members and career managers will not have access to NCOERs in an NCO’s AMHRR, once they are commissioned as an officer or appointed as a warrant officer.

d. Individual copies of completed evaluation reports are available to rated Soldiers in their AMHRRs. However, as classified evaluation reports are not maintained in an open online system, individual personal copies of completed classified evaluation reports are prohibited. Official copies of completed classified evaluation reports are maintained with the Soldier’s official file for use in making career management decisions and for review by selection boards.
Local units should maintain copies of submitted classified evaluation reports in accordance with AR 380–5 and as discussed in paragraph 3–22.

e. Safeguarding of evaluation reports is essential as the information they contain is personal in nature.

Note. Policy concerning filing of evaluation reports is available in AR 600-8-104.

1–13. Mobilization

Definitions of the categories of mobilization are found in Joint Publication 1–02. Policy changes and resulting changes in implementing instructions based on different stages of mobilization or deployments will be released by HQDA as part of the Personnel Policy Guidance.

1–14. Privacy Act statement

a. Authority. The authority for the Privacy Act for evaluation reports can be found in Title 5, United States Code, Sections 301 (5 USC 301) and 10 USC 3013.

b. Purpose. Evaluation reports will serve as the primary source of information for officer and NCO personnel management decisions and will serve as a guide for the Soldier’s performance and development, enhance the accomplishment of the organization’s mission, and provide additional information to the rating chain.

c. Routine use. Evaluations will be maintained in the rated Soldier’s OMPF. A copy will be given directly to the rated Soldier or sent to a forwarding address.

d. Disclosure. Disclosure of a full nine-digit social security number (SSN) for the rated Soldier, the rater, and senior rater is voluntary. However, failure to provide verified SSNs will result in a delayed or erroneous processing of the evaluation report.

Note. Completed forms contain personnel identifiable information and require special handling.

Chapter 2

The Rating Chain

Section I

Managing the Rating Chain

2–1. Overview

This chapter governs the purpose and development of rating chains based on qualifications and special evaluation report requirements.

2–2. Fundamentals

CDRs, commandants, and organization leaders will establish rating chains and publish rating schemes within their units or organizations in accordance with locally developed procedures and ARs. Rating schemes for two-star level commands (or equivalent organizations) and below will be approved by the next higher CDR, commandant, or organizational leader. Established rating chains will correspond as nearly as practicable to the chain of command or supervision within a unit or organization, regardless of component or geographical location. Rating schemes will identify the name of the rated Soldier and the effective date for each of the rating officials (date on which the rating official assumed his or her role as the rating official for the rated Soldier). Rating schemes will be published and made accessible, either manually or electronically, to each rated Soldier and each member of the rating chain. Any changes to a rating scheme will be published and distributed, as required. No changes may be retroactive.

Note. Pooling, or elevating the rating chain beyond the senior rater’s ability to have adequate knowledge of each Soldier’s performance and potential, in order to provide an elevated assessment protection for a specific group, runs counter to the intent of the ERS. Rating schemes based on pooling erode Soldiers’ confidence in the fairness of the ERS and in their leaders. CDRs at all levels must ensure rating chains correspond as nearly as practical to the chain of command or supervision within an organization. Senior raters must evaluate and identify their best Soldiers based on performance and potential, regardless of the particular position they occupy.

2–3. Rating chain information

a. A rating chain is established by the CDR, commandant, or leader of an organization and approved by the next higher CDR, commandant, or leader of an organization for two-star level commands (or equivalent organizations). Once established and approved, rating chains are maintained by rating officials to provide the best evaluation of an individual Soldier’s performance and potential. A rating chain also ties the rated Soldier’s performance to a specific senior or subordinate relationship. This allows for proper counseling to develop the rated Soldier and accomplish the mission. These functions are normally best achieved within an organization’s chain of command or supervision.

b. In the absence of a comprehensive published unit rating scheme, the support and/or counseling form can serve as a means to notify individual Soldiers of their rating officials.
c. Generally, the evaluation of Soldiers by persons not involved in the chain of command or chain of supervision is inappropriate.

d. Special rules for designating rating officials are outlined to cover the death, missing status, relief, incapacitation, or suspension of a rating official (see para 2–19).

e. Special rules governing the rating officials for officers under dual supervision; officers serving in the Chaplain’s Corps, the Judge Advocate General’s Corps (JAGC), or the Army Medical Department (AMEDD); and professors of military science are addressed in paragraphs 2–21, 2–22, and 2–23.

f. Specific rules by report include the following:

1. Officer evaluation report rating chains.

   a. These normally will consist of the rated officer, the rater, and the senior rater. The senior rater will accomplish the final rating chain review. The rating officials must meet specific qualifications (paras 2–5 through 2–8 and table 2–1).

   b. For specialty branches (Chaplain Corps, JAGC, and AMEDD), dual supervisory situations, and for when the rater’s immediate supervisor would be the logical senior rater, but does not meet senior rater eligibility requirements as outlined in table 2–1, a rated officer’s rating chain may involve another level of supervision in which they are supervised; or dual supervision and assigned different duties by two qualified but separate chains of command or chains of supervision throughout the entire rating period. In these situations, an intermediate rater is designated as a technical expert in the chain of command between the rater and senior rater (see para 2–6).

   Note. For USAR troop program unit (TPU), drilling individual mobilization augmentee (DIMA), individual mobilization augmentee (IMA), and drilling Individual Ready Reserve (IRR) officers who conduct required training away from the host unit, the intermediate rater may be the rated officer’s supervisor at the training organization.

   c. In some cases, a rated officer’s rating chain may have a qualified rating official or supervisor who serves as both rater and senior rater (see para 2–20).

   d. Some cases exist when a supplementary review may be required for evaluations. In these cases, a Uniformed Army Advisor will be identified and included in the rating chain (see para 2–8a(2)).

   a. These will consist of the rated NCO, the rater, the senior rater, and the reviewer. The rating officials must meet specific qualifications (see paras 2–5, 2–7, and 2–8).

   b. The reviewer will be a U.S. Army officer, CSM, or sergeant major (SGM) (or promotable (P)) master sergeant (MSG) working in an authorized CSM or SGM position) in the direct line of supervision and senior in pay grade or date of rank to the senior rater, except as indicated in paragraph 2–8.

   c. NCOs will have one chain of command or supervision within a single organization, in most cases. The NCO rating chains will not include an intermediate rater.

3. Academic evaluation report rating chains. These rating chains will consist of the authorized rater and a reviewing official as designated by the commandant or appropriate civilian academic authority (see para 2–9).

Section II
Rating Chain Development and Maintenance

2–4. General rules for establishing rating chains

a. The rating chain for a rated Soldier will be established at the beginning of the rating period. This allows the rated Soldier and rating officials to properly execute their roles and responsibilities in the evaluation process. Rating officials must meet grade requirements, as well as time in position, in order to render evaluation reports.

b. CDRs, commandants, and organization leaders are responsible for ensuring valid rating schemes are established. Rating schemes for two-star level commands (or equivalent organizations) and below will be approved by the next higher CDR, commandant, or organizational leader.

Note. When CDRs, commandants, and organization leaders establish rating chains, they will ensure “Pooling” of the rated population is not occurring.

c. It is essential that rating officials meet and maintain the required eligibility criteria throughout the rating period. If the rated Soldier’s grade changes during the rating period, rating officials must still meet the eligibility requirements in order to be authorized to render an evaluation report on a rated Soldier when one is due. If eligibility criteria are not met, evaluation reports will not be processed at HQDA.

d. When necessary, rating chain exceptions to policy must be requested at the earliest possible date and cannot be implemented until approved by HQDA (for exceptions see para 2–7a(7)).

Section II
Rating Chain Development and Maintenance

2–5. Rules for designating a rater

a. Rater requirements. The rater will be the immediate supervisor of the rated Soldier responsible for directing and
assessing the rated Soldier’s performance. The rater will normally be senior to the rated Soldier in grade or date of rank. CDRs will normally rate CDRs. Civilian raters for OERs and NCOERs will be officially designated on the established rating scheme. For purposes of this regulation, a civilian supervisor/rating official need not be classified as a supervisor under the Office of Personnel Management classification guidance provided they are responsible for directing and assessing the rated Soldier’s performance.

Note. See paragraph G–3 for USAR-specific exceptions to policy regarding rating schemes and rating officials.

The following are rater’s requirements, by evaluation report type:

1. **Officer evaluation reports.** A rater will be an officer of the U.S. Armed Forces, U.S. Coast Guard, allied armed forces, or an employee of a U.S. Government agency (including nonappropriated fund employee). A civilian rater has no minimum grade requirement. The rater will be the supervisor of the rated officer for a minimum period of 90 calendar days.

   Note. For USAR TPU, DIMA, and drilling IRR Soldiers and ARNG Soldiers, the rater must have served as the supervisor for a minimum of 120 calendar days versus 90 calendar days (see apps G and H).

2. **Noncommissioned officer evaluation reports.** A rater will be an officer or NCO of the U.S. Armed Forces, U.S. Coast Guard, or an employee of a U.S. Government agency (including nonappropriated fund rating officials). Only in rare instances will members of allied armed forces be authorized to serve as raters. The rater will be the supervisor for a minimum period of 90 calendar days.

   Note. For USAR TPU, DIMA, and drilling IRR Soldiers and ARNG Soldiers, the rater must have served as the supervisor for a minimum of 120 calendar days versus 90 calendar days (see apps G and H).

3. **Academic evaluation reports.** A rater will be the military or civilian course advisor designated by the commandant or dean of the civilian academic institution that supervises and/or monitors the student’s performance and compliance with academic standards.

   b. **Officer evaluation report rater eligibility.**

   (1) A military rater will be senior to the rated officer, by grade or date of rank. Exceptions to this rule are—

   (a) An officer in a command position may rate an officer over whom he or she has command authority. In cases when the CDR rates an officer of the same grade but senior in date of rank, the rater will attach a copy of the memorandum announcing the assumption of command as an enclosure to the rated officer’s OER. (Format and guidance for assumption of command announcements are in AR 600–20.)

   (b) A three- or four-star general officer who has been appointed to command by direction of the President of the United States in an appointment of CDR announcement has command authority and may rate an officer who is of the same grade but senior in date of rank. (Format and guidance for appointment to command orders are in AR 600–20.) In such cases, the rater will attach a copy of his or her appointment of CDR announcement as an enclosure to the rated officer’s OER.

   (2) A COL serving as a COL-level Chief of Staff may rate a COL who is senior in date of rank.

   Note. This does not apply to lieutenant colonel (LTC) Ps serving in a Chief of Staff position or COLs serving as acting Chiefs of Staff.

   (3) In situations such as Joint commands, an officer in a supervisory position may rate an officer who is senior in date of rank provided—

   (a) The rater is other than a Army officer.

   (b) Each instance is approved, in writing, by the next senior Army member of the command or activity. A copy of the approval will be sent to HQDA as an enclosure to the evaluation report.

   (4) For OERs, a civilian rater has no minimum grade requirement but will be the rated officer’s supervisor responsible for directing and assessing the rated Soldier’s performance as established on the rating scheme.

   (5) CDRs will normally be rated and senior rated by the next higher CDRs. An exception to this rule is allowed when a staff officer or higher level CDR is the logical choice as the CDR’s supervisor because of functional, geographical, or technical supervision requirements.

   (6) Officers who are selected for promotion and who are in authorized positions for the next grade may rate any officer they supervise if, after the rater’s promotion, they will be senior to the rated officer.

   (7) A rater who has been selected for promotion (i.e., whose name is on a promotion list), and who is in an authorized position for the next grade, will be considered to be serving in the next grade. The symbol “P” will be put after the current grade on the applicable evaluation report.

   (8) A rater who has been selected for promotion (i.e., whose name is on a promotion list), but is not in a position authorized for the new grade, will be considered to be serving in the current grade. The symbol “P” will not be put after the current grade on the applicable evaluation report.

   c. **Noncommissioned officer evaluation report rater eligibility.** The military rater will be a SGT or above and senior to the rated NCO by grade or date of rank (see AR 600–20).

   (1) NCOs who are selected for promotion and who are in authorized positions and/or frocked to one of the top three
NCO grades (first sergeant (1SG), SGM, or CSM) may rate any NCO they supervise if, after the rater’s promotion, they will be senior in pay grade or date of rank to the rated NCO.

(2) U.S. Government civilian employees (including nonappropriated fund employees) may serve as raters when there is no immediate military supervisor or when the civilian supervisor is responsible for directing and assessing the rated NCO’s performance and in the best position to accurately evaluate the NCO’s performance. The civilian rater will be officially designated on the published rating scheme established by the CDR, commandant, or organization leader.

(3) Sergeants major assigned to the chief of senior Instructor positions within the resident and nonresident departments of the Sergeants Major Course, may rate other sergeants major in instructor positions within their specific department without regard to date of rank.

(4) CSMs assigned as Director, Sergeants Major Course, or Director, Staff & Faculty, who are serving as brigade level CSMs, will rate the CSMs assigned as deputy director, Sergeants Major Course and Deputy Director, Staff and Faculty, who are serving as battalion-level CSMs without regard to date of rank.

Note. ARNG military technicians (MT) (32 USC 709) will also be senior in military grade or, if the same grade, senior in date of rank to the rated NCO.

(5) CSMs of table of organization and equipment and table of distribution and allowances duty assignment units will be rated by the CDR, with the following exceptions, provided rater qualifications are met:

(a) Military community or garrison CSMs may be rated by a deputy community CDR or deputy garrison CDR.

(b) The assistant division CDR or the division or installation CSM may rate the Regular Army CSMs who are commandants of NCO academies.

Note. For ARNG, the assistant adjutant general (AG), Army, or the State CSM may rate ARNG NCO academy commandants (see para H–8). Additionally, the State AG will rate the State CSM.

(c) The CG, U.S. Army Reserve Command (USARC), will determine the rating chain for USAR NCO Academy CSMs who are commandants.

d. Academic evaluation report rater eligibility. The rater will normally be senior to the rated Soldier by grade or date of rank. Additional instructions are as follows:

(1) A military academic rater is designated by the commandant and is the person who directly oversees and is most responsible for directing and observing the Soldier’s progress through a military course of instruction that requires a DA Form 1059.

(2) A civilian academic rater is the civilian official designated by the dean or appropriate civilian authority most responsible for directing and observing the Soldier’s progress through a civilian course of instruction that requires a DA Form 1059–1.

e. Specialty branch evaluation reports. For chaplains, see appendix C; for JAGC officers, see appendix D; and for AMEDD officers, see appendix E.

Note. Appendix E does not apply to ARNG Soldiers.

2–6. Rules for designating an intermediate rater (DA Form 67–10 only)

This paragraph does not apply to DA Form 2166–8, DA Form 1059, or DA Form 1059–1. An intermediate rater will only be included for specialty branches (Chaplain Corps, JAGC, and AMEDD), when there is a level of technical supervision between the rater and senior rater, in dual supervisory situations, and when the rater’s immediate supervisor would be the logical senior rater, but does not meet senior rater eligibility requirements as outlined in table 2-1. Under unique circumstances, requests for an exception to policy may be granted. Written requests for an exception to policy, endorsed by the first commanding General Officer (or equivalent) in the organization, will be submitted to HQDA in accordance with the guidance contained in paragraph 2–6c.

a. An intermediate rater will be an officer of the U.S. Armed Forces, U.S. Coast Guard, or allied armed forces, or an employee of a U.S. Government agency (including nonappropriated fund employees). In addition, the intermediate rater will—

(1) Be senior to the rated officer in grade or date of rank. A civilian intermediate rater has no minimum grade requirement but will be officially designated on the established rating scheme.

(2) Be a supervisor between the rater and senior rater in the rated officer’s rating chain, unless the rated officer is serving under dual supervision. The use of the intermediate rater is intended to maintain the link between the rater and senior rater in situations where there is a level of supervision between them. Rating chains having no supervisor between the rater and senior rater will not have an intermediate rater.

Note. An intermediate rater will not be included in a rating chain as a means to promote pooling.

(3) Be the rater’s immediate supervisor and may be any supervisor between the rater and senior rater in the rated officer’s chain of command. This rule is waived when the provisions of paragraph 2–21 or appendixes C, D, or E apply. In cases of dual supervision, the designated intermediate rater, if from a nonparent unit, may be senior to the senior rater (see para 2–21).

(4) Have served in that capacity for a minimum of 60 calendar days in order to evaluate the rated officer.
Note. For USAR TPU, DIMA, and drilling IRR Soldiers and ARNG Soldiers, the minimum rating period will be 90 calendar days versus 60 calendar days (see apps G and H).

b. For chaplains, see appendix C; for JAGC officers, see appendix D; and for AMEDD officers, see appendix E.

Note. Appendix E does not apply to ARNG Soldiers.

c. Requests for an exception to policy, will be endorsed by the first General Officer (or equivalent) within an organization and submitted to HQDA (AHRC-PDV-E) (address in app F) at the beginning of the rating period, or at the earliest possible date upon discovering that the official will need to serve as an intermediate rater. Requests must be submitted in memorandum format and include the rated officer’s full name, SSN, the period during which the official will serve as the intermediate rater, the effective date, and the justification for him or her to serve as an intermediate rater (see app F for address). Upon approval, provisions outlined in subparagraph (a) above apply. A copy of the HRC-approved exception to policy memorandum will be submitted to HQDA as an enclosure to the completed OER.

### 2–7. Rules for designating a senior rater

The following are senior rater requirements and eligibility by evaluation report:

a. DA Form 67-10 series (OERs).

1. Except as otherwise provided in paragraphs (5), (6), and (7), a senior rater will be a commissioned officer of the U.S. Armed Forces, U.S. Coast Guard, or a DOD civilian employee (including nonappropriated fund employees). Members of allied armed forces are not authorized to be senior raters.

2. The minimum grade for a senior rater will be in accordance with table 2–1. A civilian senior rater will be a designated supervisor of the rated officer serving at an appropriate grade level above the rater and meeting the minimum grade or rank requirements in table 2–1. For purposes of this regulation, a civilian supervisor/rating official need not be classified as a supervisor under the Office of Personnel Management classification guidance provided he/she is responsible for directing and assessing the rated officer’s performance.

Note. See exceptions for AMEDD officers in appendix E.

3. The senior rater will be the immediate supervisor of the rater and a supervisor above all other rating officials in the rated officer’s chain of command or chain of supervision, except as indicated in paragraph 2–6 and paragraph (12). To render a written OER, the senior rater must have been designated as the rated officer’s senior rater for a minimum period of 60 calendar days, except as otherwise provided below.

Note. For USAR TPU, DIMA, and drilling IRR Soldiers and ARNG Soldiers, the senior rater must have served in that capacity for a minimum of 90 calendar days versus 60 calendar days (see apps G and H).

4. Senior executive service (SES) members serving in DOD positions may senior rate all grades of rated officers, provided they are in the rated officer’s chain of supervision and are at least one level above the rater or intermediate rater of the rated officer.

Note. SES members are defined in 5 USC 3132(a)(2). See paragraph 2–8a(2) and section IV regarding supplementary review requirements. DA Pam 623–3 provides procedural guidance on OER administrative data.

5. Members of Congress may senior rate all grades of rated officers serving as fellows or military liaisons on the member’s personal staff. Normally, the member’s civilian Chief of Staff, or another individual on the member’s staff who supervises the day-to-day duties of the rated officer, will serve as the rater (or intermediate rater) when the member of Congress is the senior rater.

6. Ambassadors may senior rate all grades of officers serving at U.S. Consulates under an ambassador’s authority.

7. Under unique circumstances, requests for other U.S. Government officials (for example, political appointees) to serve as senior raters may be granted as an exception to policy. Written requests for an exception to policy will be submitted to HQDA in accordance with the guidance contained in paragraph (8). See paragraph 2–8a(2) and section IV of this chapter regarding supplementary review requirements. DA Pam 623–3 provides procedural guidance on OER administrative data.

8. Requests for exception to policy will be submitted to HRC (AHRC–PDV–E) (address in app F) at the beginning of the rating period, or the earliest possible date when it is known that the official will need to serve as the senior rater. Written requests will be in memorandum format on letterhead stationery and will indicate the rated officer’s rank and full name, SSN, the period during which the U.S. Government official will serve as the senior rater, the effective date, and the justification for him or her to serve as senior rater (see app F for address). A copy of the HRC-approved exception to policy memorandum will be submitted to HQDA as an enclosure to the completed OER.

9. Senior raters may evaluate the rated officer with fewer than 60 days as a senior rater if they also served as the rated officer’s intermediate rater in a previously published chain, and the combined total of time served in the rating chain equals 60 days or more. For other exceptions to this policy, see chapter 3, sections VIII and IX.

10. A senior rater who has been selected for promotion and who is in an authorized position for the next grade will be considered to be serving in the next grade. The symbol “P” will be put after their current rank on the applicable OER.

11. A senior rater who has been selected for promotion but who is not in a position authorized for the next grade
will be considered to be serving in their current grade. The symbol “P” will not be put next to their current rank on the applicable OER.

(12) Senior raters will be senior in grade or date of rank to the rater and the intermediate rater and will meet the minimum grade requirements of table 2–1. Exceptions to this rule may apply if—
(a) The senior rater is authorized by paragraph 2–5(b)(1) to rate the other members of the rating chain.
(b) The senior rater is a COL serving in a COL-level Chief of Staff position and is, therefore, authorized to senior rate the rated Soldiers of the personnel they rate.

Note. This authority does not apply to a COL serving as the acting Chief of Staff.

(c) A senior rater need not be senior in grade or date of rank to a designated intermediate rater from a nonparent unit when dual supervision exists.

(13) To senior rate officers in the ranks of WO1 through captain promotable (CPTP) or major (MAJ)—
(a) Military senior raters will be at least two grades higher than the rated officer.
(b) Civilian senior rater supervisors will be at least general grade schedule (GS) –13, or equivalent, to senior rate officers in the ranks of warrant officer through CPTP or MAJ.

(14) To senior rate officers in the ranks of MAJP or LTC—
(a) Military senior raters will be at least one grade higher than the rated officer.
(b) Civilian senior rater supervisors will be at least GM, GG, or GS–15 or UA equivalent to senior rate officers in the ranks of MAJP or LTC.

(15) To senior rate officers in the ranks of LTCP or COL—
(a) Military senior raters will be at least one grade higher than the rated officer.
(b) Civilian senior raters will be at least SES rank and precedence or equivalent to senior rate officers in the ranks of LTCP and brigadier general (BG).
(c) To senior rate officers in the rank of COLP or BG, the senior rater will be senior in grade or date of rank to the other members of the rating chain.

</table>

Notes:
1 A promotable officer (signified on the OER by placing a “P” after the current rank) is one who is on a promotion list and is currently serving in a position authorized for the next higher rank or grade.
2 Civilian raters must be officially designated on the published rating scheme established by the local CDR and meet the minimum grade requirements indicated. The uniqueness of the other civilian pay scales precludes the establishment of a general Armywide policy. Therefore, the minimum grade for civilian senior raters holding other than GS pay grades, or those identified above is determined by local CDRs.
3 As an exception to this rule, senior Army advisors, ARNG, are rated by the associated State/Territory AG and senior rated by the assigned First Army Division CDR (Division East or Division West), regardless of the relative dates of rank of the rating officials.
4 Other exceptions to this rule apply as indicated in paragraph (12)(b) and for AMEDD COLs as specified in appendix E.
5 Navy senior rater rank equivalents are: O4 — lieutenant CDR; O5 — CDR; O6 — capt O7 — rear admiral (lower half-BG equivalent); O8 — rear admiral (upper half-major general (MG) equivalent). Admirals, who are equivalent to general officers, are referred to as “flag officers.”
b. DA Form 2166–8 (NCOERs).

(1) A senior rater will be an officer or NCO of the U.S. Armed Forces, U.S Coast Guard, or a DOD civilian (or nonappropriated fund employee) who is senior to the rater either in pay grade or date of rank and in the direct line of supervision of the rated NCO. Members of allied armed forces are not authorized to be senior raters. Exceptions for U.S. Army Sergeants Major Academy (USASMA) are outlined below.

(2) The senior rater will be the immediate supervisor of the rater and designated as the rated NCO’s senior rater for a minimum period of 60 calendar days (see chap 3, secs VIII and IX).

Note. For USAR TPU, DIMA, and drilling IRR Soldiers and ARNG Soldiers, the senior rater must have served as the supervisor for a minimum of 90 calendar days versus 60 calendar days (see apps G and H).

(3) Senior raters will be senior to the rater by either grade or date of rank. If a NCO is on a recommended list for promotion or frocked to one of the top three NCO grades (1SG, SGM, or CSM) and is serving in an authorized position for the next grade, then he or she may senior rate any NCO he or she supervises, if after the rater’s promotion they will be senior in pay grade or date of rank to the rated NCO. CSMs serving at USASMA as the Director, Sergeants Major Course or Director, Staff and Faculty, are not required to be senior in date of rank to the CSMs assigned as their respective deputies, in order to serve as a senior rater for an NCO that their respective deputy rates. The Director positions are considered Brigade CSM positions (TDA remarks code “7C”), while the Deputy Directors are considered Battalion CSM positions (TDA remarks code “6C”).

(4) DOD civilian employees in the grade of GS–09 or equivalent and above, may serve as senior raters when there is no immediate military supervisor and when the civilian supervisor is responsible for directing and assessing the rater’s performance, as established on the rating scheme, and is in the best position to accurately evaluate the rated NCO. The uniqueness of the other civilian pay scales precludes the establishment of a general Armywide policy. Therefore, the minimum grade for civilian senior raters holding other than GS pay grades is determined by local CDRs. The civilian senior rater will be officially designated on the published rating scheme established by the local CDR.

2–8. Rules for designating a reviewer

a. DA Form 67–10 series.

(1) Reviewer eligibility and responsibility. In most instances, the senior rater will conduct the final rating chain review; other mandatory reviews are discussed in paragraphs 2–16 and 2–17.

(2) Supplementary review requirement. In instances when there are no uniformed Army designated rating officials for the rated officer, an Army officer within the organization will be designated as a Uniformed Army Advisor and perform a supplementary review. The Uniformed Army Advisor will be an U.S. Army officer, senior to the rated officer and normally senior to the senior rater, within the organization. The Uniformed Army Advisor will monitor evaluation practices, and provide assistance and advice to rating officials (as required) on matters pertaining to Army evaluations. This Uniformed Army Advisor will be designated by the CDR establishing the rating chain and identified in the published rating scheme at the beginning of the evaluation period.

(a) When a supplementary review is required for DA Form 67-10-1, DA Form 67-10-2, and DA Form 67-10-3, the Uniformed Army Advisor’s information will be entered in part II, blocks f1 and f2 of the OER. If the Uniformed Army Advisor determines the OER is accurate and comments are unnecessary, he or she will indicate select “NO” in part II, block f5 of the OER. If the Uniformed Army Advisor determines comments are necessary, he or she will select “YES” in part II, block f5 of the OER and prepare an enclosure to the OER (see figure 2–1), and comment on the accuracy and clarity of the completed OER. The comments will not include evaluative statements about the rated officer or statements that amplify, paraphrase, or endorse the ratings of the other members of the rating chain.

(b) When a supplementary review is required for DA Form 67–10–4, the Uniformed Army Advisor will prepare an enclosure to the evaluation report (see fig 2–1). If necessary, the reviewer will comment upon the accuracy and clarity of the completed OER. The comments will not include evaluative statements about the rated officer or statements that amplify, paraphrase, or endorse the ratings of the other members of the rating chain. If there are no comments, the Uniformed Army Advisor will indicate in the enclosure that no added comments are necessary.
MEMORANDUM FOR U.S. Army Human Resources Command (AHRC-PDV-ER),
1600 Spearhead Division Avenue, Dept. #470, Fort Knox, KY 40122-5407

SUBJECT: Request for HQDA Supplementary of Officer Evaluation Report for *(Rated Officer's Name, Rank, SSN, Report Period Covered)*

1. In accordance with AR 623-3, Evaluation Reporting System, paragraph 2-8, a supplementary review by a U.S. Army officer is required.

2. I request that HQDA conduct this required review as there is no U.S. Army officer above me in my organization or chain of supervision.

3. Point of contact for this request is the undersigned at *(telephone number)* or *(email address)*.

*(Signature block of the senior rater)*

*(c)* If no Army officer is available above the senior rater in the organization or chain of supervision to perform a review, the submitter will request a review by HQDA (see fig 2–2).
b. DA Form 2166–8.

1. In accordance with AR 623–3, Evaluation Reporting System, paragraph 2–8, a supplementary review by a U.S. Army officer is required.

2. I request that HQDA conduct this required review as there is no U.S. Army officer above me in my organization or chain of supervision.

3. Point of contact for this request is the undersigned at (telephone number) or (email address).

Notes:

(3) Special branch evaluation reports. For chaplains, see appendix C; for JAGC officers, see appendix D; and for AMEDD officers, see appendix E.

Note. Appendix E does not apply to ARNG Soldiers.

b. DA Form 2166–8.

1. Reviewer eligibility and responsibility. The designated reviewer on the published rating scheme will perform the mandatory review of completed NCOERs.

   a. The reviewer will be an Army officer, CSM, or SGM in the direct line of supervision and senior in pay grade or date of rank to the senior rater. A promotable MSG working in an authorized CSM or SGM position may serve as a reviewer. CSMs serving at the USASMA as Director, Sergeants Major Course or Director, Staff and Faculty, may serve as reviewer for any NCO that their Deputy Director senior rates, without regard to date of rank. Additionally, the Commandant and Deputy Commandant at USASMA, both nominative CSMs (TDA remarks code “8C”), may serve as reviewer on any NCOER for which the Director, Sergeants Major Course, or Director, Staff and Faculty, serves as senior rater.

Note. Every NCOER should be reviewed by the rated NCO’s 1SG, CSM, or SGM to ensure accountability of Soldiers’ NCOERs and to supervise performance of junior NCOs (see para 2–18).

   b. No minimum time period is required for reviewer qualification.

   c. CDRs may appoint officers of other U.S. Armed Forces, U.S. Coast Guard, DOD civilian employees in the grade of GM/GG/GS–12 or above, or equivalent under any other Federal civilian pay system, as reviewers when—

      1. Grade and chain of supervision requirements are met.
2. Either the rater or senior rater is an Army rating official.

(2) **Supplementary review requirement.** In cases where both the rater and senior rater are other than Army rating officials and no Army reviewer is available, either—
(a) The NCOER will be reviewed by a Army officer in the rated NCO’s unit administrative office (as an exception, this officer is not required to be senior to the rater or senior rater); or
(b) General officers and SES members or equivalent serving with any branch of the Armed Forces may be appointed as reviewers.

(3) **General officer serving as rater and senior rater.** In cases where the rater or senior rater is a general officer or a civilian employee of the SES or equivalent rank and precedence, that official may also act as reviewer. A promotable COL working in a BG position who is the senior rater may also serve as the reviewer.

### 2–9. Rules for designating a reviewing official for academic evaluation reports

The reviewing officer or reviewer is the authorized individual responsible for ensuring the accuracy of the AER prepared by the rater and/or academic advisor.

a. The reviewing officer for the AER-S will be the commandant, academic dean, or an official designated above the evaluating officer or academic official.

b. The AHRC Advanced Education Programs Branch (AHRC–OPL–C) is the reviewer for the AER–C for all programs under AR 621–1 and AR 621–7.

### Section III
Roles and Responsibilities of Rating Chain Members

#### 2–10. The rated Soldier

a. The rated Soldier is the subject of the evaluation and has considerable responsibility in the evaluation process.

(1) Normally, to be eligible for an evaluation report, a Soldier will complete 90 calendar days in the same position under the same rater. Nonrated periods are not included in this 90-day period (see DA Pam 623–3).

*Note.* For USAR TPU, DIMA, and drilling IRR Soldiers and ARNG Soldiers, the minimum rating period will be 120 calendar days versus 90 calendar days (see apps G and H).

(2) Newly commissioned officers (Regular Army and ARNG) and newly appointed warrant officers will not be eligible to receive OERs, except for “Relief for Cause” evaluation reports, until after the completion of the respective officer basic course (either Basic Officer Leaders Course (BOLC) or Warrant Officer Basic Course (WOBC)). Units will begin the rating period upon arrival at the first duty station or assignment after completion of BOLC or WOBC. The officer’s first “Annual” (“Extended Annual”) OER will be due 12 rated months after arrival at the first duty assignment (see paras 3–34, 3–41, and 3–42) unless another event (for example, “Change of Rater” or “Change of Duty”) occurs. The “FROM” date in the period covered will be the commissioning or appointment date.

*Note.* See paragraph E–2 for AMEDD officers and G–5m for guidance on OER eligibility for newly commissioned USAR officers and newly appointed USAR warrant officers.

(3) Newly accessed active duty Soldiers from another Service or component will receive evaluation reports when they are eligible to receive them. The “FROM” date in the period covered will be the date of accession on active duty.

b. The rated Soldier will—

(1) Perform each assigned or implied duty to the best of their ability, always trying to improve on the accomplishment of the organization’s mission. Rated Soldiers will periodically evaluate their own performance and, when in doubt, seek the advice of the rating officials in the rating chain.

(2) Participate in counseling and provide and discuss with the rating chain the duty description, performance objectives (including objectives for fostering a climate of dignity and respect and preventing and eliminating sexual assault and sexual harassment in their units), academic standards, and/or course requirements with the rater, as appropriate. This counseling will occur within 30 days after the beginning of each new rating period and at least quarterly thereafter.

(3) Assess (with the rater) the validity of the objectives or compliance with academic standards throughout the rating period. This may result in having to revise and update both objectives and duty description as the situation changes. The rated Soldier may also have to develop new objectives with the rater.

(4) Describe (with the rater) duties, objectives, and significant contributions (as applicable) on evaluation support forms. Assessment will be conducted with the rating chain throughout and at the end of the rating period. Rated Soldiers have the opportunity to express their own views during the assessment to ensure that they are clear, concise, and accurate. Changes to support form entries are allowed when the rated Soldier agrees with the changes.

(5) Review and sign the evaluation report after it has been completed by the senior rater before departing from a unit of assignment or military or civilian school of instruction. The rated Soldier’s signature verifies that administrative data, including SSN, counseling dates, Army Physical Fitness Test (APFT), and height and weight entries, on the evaluation report are correct and confirms that the rated Soldier has seen the completed evaluation report.
Note. The digitally signed evaluation report will serve as the Soldier’s copy. If the rated Soldier manually signs a paper copy, is unavailable to sign, or refuses to sign an evaluation report, an electronic or paper copy will be provided to them.

(6) For referred OERs, the rated officer is responsible for acknowledging the senior rater’s referral of the OER, signing the completed OER, and providing comments regarding the OER by the reasonable suspense date set by the senior rater. The referral may be made in person, by a certified letter, or by an automated routing of the OER (see paras 3–26 through 3–28, and DA Pam 623–3).

2–11. The rated Soldier and rating officials selected for promotion

This paragraph addresses the use of the “P” rank designation on OERs and NCOERs.

a. DA Form 67–10 series.

(1) If a rated officer or rating official has been selected for promotion (that is, whose name is on a promotion list) and is in an authorized position for the next higher rank or grade, he or she will be considered to be serving at the next higher rank or grade when establishing the rating chain. The designation “P” will be entered after the officer’s current rank on the OER, part I, block c only if both criteria are met (see DA Pam 623–3). The rules and requirements for the next higher rank or grade will apply. The ranks entered on the OER will be as of the “THRU” date of the OER.

Note. Ensure the appropriate DA 67-10 series form is used when a rated officer is eligible for use of the “P” identifier in part I, block c.

(2) If a rated officer has been selected for promotion but is not in an authorized position for the next grade, the rules and requirements for the current grade will apply when determining the rating chain. The designation “P” will not be entered after the officer’s current rank on the OER (see DA Pam 623–3).

b. DA Form 2166–8. The “P” designation will not be entered next to the rank of the rated NCO on the NCOER, part I, block c; however, it may be used with the grades for rating officials (see DA Pam 623–3).

Note. The rules and requirements for the next higher rank or grade will apply. The grades entered on the NCOER will be as of the “THRU” date of the NCOER.

2–12. The rater

The rater will—

a. Provide a copy of their support form, along with the senior rater’s support form, to the rated Soldier at the beginning of the rating period.

b. Discuss the scope of the rated Soldier’s duty description with him or her within 30 days after the beginning of the rating period. This counseling will include, as a minimum, the rated Soldier’s duty description and the performance objectives to attain. The discussion will also include the relationship of the duty description and objectives with the organization’s mission, problems, priorities, and similar matters.

c. Counsel the rated Soldier.

(1) If the rated Soldier is recently assigned to the organization, the rater may use the counseling to outline a duty description and performance objectives. This discussion gives the rated Soldier a guide for performance while learning new duties and responsibilities in the unit of assignment, or requirements in achieving military or civilian academic standards.

(2) If the rater is recently assigned, this first counseling may be used to ask the rated Soldier for an opinion of the duty description and objectives. By doing this, the rater is given a quick assessment of the rated Soldier and the work situation. It will also help the rater develop the best duty description and performance objectives for the rated Soldier.

(3) See paragraph G–2 for counseling requirements for USAR Soldiers.

d. Use the support and counseling forms.

(1) For officers, grades WO1 through COL, DA Form 67–10–1A is mandatory for use throughout the rating period.

(2) For NCOs, DA Form 2166–8–1 will be used to document the required initial and quarterly NCO counseling, professional development throughout the rating period, and to prepare the final evaluation.

e. Advise the rated Soldier about any changes in their duty description and performance objectives, when needed, during the rating period.

f. Provide an honest assessment of the rated Soldier’s performance and potential, using all reasonable means, including personal contact, records and reports, and the information provided by them on the applicable support or counseling form.

g. Review the applicable support or counseling form at the end of the rating period and, as appropriate, provide more information about the job description or performance objectives to other rating officials for use in preparing their portions of the evaluation report.

h. Verify the rated Soldier’s APFT results, if taken, height and weight data (including compliance with AR 600-9) for entry on the evaluation report (OER, part IV, block a; NCOER, part IV, block c; and AER-S, item 14). The rater must provide comments for an APFT failure, a “NO” entry annotated after height and weight indicating noncompliance with AR 600-9, or the absence of APFT or height and weight data (refer to DA Pam 623–3).
i. Provide an objective and comprehensive evaluation of the rated Soldier’s performance and potential (as applicable) on the evaluation report.

j. Assess the rated Soldier’s performance in fostering a climate of dignity and respect and adhering to the requirements of the SHARP Program. This assessment should identify, as appropriate, any significant actions or contributions the rated officer or NCO made toward—
   (1) Promoting the personal and professional development of subordinates;
   (2) Ensuring the fair, respectful treatment of unit personnel; and
   (3) Establishing a workplace and overall command climate that fosters dignity and respect for all members of the unit.

   (4) This assessment should also identify any failures by the rated Soldier to foster a climate of dignity and respect and adhere to the SHARP Program.

k. Document any substantiated finding, in an Army or DOD investigation or inquiry, that the rated Soldier—
   (1) Committed an act of sexual harassment or sexual assault;
   (2) Failed to report a sexual harassment or sexual assault;
   (3) Failed to respond to a complaint or report of sexual harassment or sexual assault; or
   (4) Retaliated against a person making a complaint or report of sexual harassment or sexual assault.

Note. Raters will include this information in the following locations: for DA Form 67-10-1 (Company Grade Plate), part IV, block c1 (Character); for DA Form 67-10-2 (Field Grade Plate), part IV, block d1 (Character); for DA Form 67-10-3 (Strategic Grade Plate (O-6)), part IV, block c1 (Character); for DA Form 2166-8, part IV, block a.

2–13. The intermediate rater (DA Form 67–10 series)
The provisions of this paragraph do not apply to NCOERs or AERs. Intermediate raters are only authorized for specialty branches (Chaplain Corps, JAGC, and AMEDD), when there is a level of technical supervision between the rater and senior rater, in dual supervisory situations, and when the rater’s immediate supervisor would be the logical senior rater, but does not meet senior rater eligibility requirements as outlined in table 2–1. For exceptions, see paragraph 2–6.

   a. Intermediate raters will assess the performance and potential of rated officers using all reasonable means, including the following:
      (1) Personal contact.
      (2) Records and reports.
      (3) The rater’s evaluation of the rated officer given on the OER.
      (4) The information provided by the rated officer on DA Form 67–10–1A.

   b. Intermediate raters will render an objective evaluation of a rated officer’s performance and potential on the OER.

Note. An intermediate rater will not be incorporated within the rating chain as a means to promote pooling.

2–14. The senior rater (DA Form 67–10 series and DA Form 2166–8) or reviewing official (DA Form 1059 and DA Form 1059–1)

   a. Role. Senior raters or reviewing officials use their positions and experiences to evaluate the rated Soldier’s performance and/or potential within a broad organizational perspective, military program of instruction, or civilian academic course standards. The senior rater’s evaluation is the link between the day-to-day observation of the rated Soldier and the longer-term evaluation of the rated Soldier’s potential by HQDA selection boards. Normally, senior raters or reviewing officials control the accurate preparation and timely submission of evaluation reports. The overarching roles of senior raters or reviewing officials and specific roles by form type are outlined below:

   b. Requirements. Senior raters and reviewing officials will—
      (1) Ensure support forms are provided to all rated Soldiers they senior rate at the beginning of and throughout the respective rating periods.
      (2) Use all reasonable means to become familiar with a rated Soldier’s performance. When practical, use personal contact, records and reports, and the information provided on the rated Soldier’s support form.
      (3) Assess and evaluate the abilities and/or potential of the rated Soldier relative to his or her contemporaries.

Note. For OERs, this includes officers of the same rank and promotable officers who are serving at the same rank as the rated officer.

This involves evaluating performance in perspective by considering—
   (a) The rated Soldier’s experience.
   (b) The relative risk associated with the performance.
   (c) The difficulty of the organization’s mission.
   (d) The prudence and results of action taken.
   (e) The adequacy of resources.
   (f) The overall efficiency of the organization.
(g) When applicable, adherence to established military course or academic standards established by the civilian educational, medical, or industrial institution.

(4) Ensure rating officials counsel the rated Soldier, individually and throughout the rating period, on meeting their objectives and complying with the professional standards of the Army.

(5) Ensure all evaluation reports that the senior rater and subordinates write are complete, provide a realistic evaluation of the rated Soldier, and are submitted to HQDA in a timely manner (in accordance with this regulation and DA Pam 623–3).

(6) Ensure rated Soldiers sign evaluation reports before departing from a unit of assignment or military or civilian school or course of instruction.

Note. The digitally signed evaluation report will serve as the Soldier’s copy. If the rated Soldier manually signs a paper copy, is unavailable to sign, or refuses to sign an evaluation report, an electronic or paper copy will be provided to them.

c. DA Form 67–10 series. Senior raters will—

(1) In addition to evaluating rated officers, normally perform the final review of the OER before it is provided to the rated officer for signature. A senior rater who is not qualified to evaluate a rated Soldier due to lack of time in the position will still act as a reviewer. Following his or her signature in the senior rater signature block on the completed OER, and signature by the rated officer, he or she will ensure that the final OER is submitted to HQDA in a timely manner and a copy is provided to the rated officer (in accordance with this regulation and DA Pam 623–3).

(2) Review and initial DA Form 67–10–1A, at the beginning of the rating period and the completed DA Form 67–10–1A at the end of the rating period when preparing his or her portion of the OER.

(3) Whenever possible, for referred OERs (part II, block d on DA Form 67-10-1, DA Form 67-10-2, DA Form 67-10-3, and part II, block c on DA Form 67-10-4), ensure that the rated officer is given an opportunity to review the completed OER and provide comments for consideration before authentication and departure from the unit or organization. The senior rater will ensure the completion of all necessary referral actions and submission of the appropriate documents to HQDA in as timely a manner as practicable (see paras 3–26 through 3–28).

d. DA Form 2166–8. Senior raters will—

(1) In addition to evaluating the rated NCO, perform a review of the NCOER before forwarding it to the reviewer. A senior rater who is not qualified to evaluate a rated NCO due to lack of time in the position will still conduct an administrative review and sign the NCOER before forwarding it to the reviewer. Following completion of the NCOER by the designated reviewer and the rated NCO, he or she will also ensure the final NCOER is submitted to HQDA in a timely manner and a copy is provided to the rated NCO (in accordance with this regulation and DA Pam 623–3).

(2) Review and initial the DA Form 2166–8–1 at the beginning of the rating period and sign the completed NCOER at the end of the rating period and sign the completed NCOER at the end of the rating when preparing their portion of the NCOER.

e. DA Forms 1059 and DA Forms 1059–1. Qualification to serve as the reviewing official is determined by the standards of the military course of instruction and/or civilian institution. For an AER-S, the reviewing officer will normally be the individual above the rater in the chain of supervision. The review function for an AER-S will go no higher than the school commandant. Reviewing officials for AER-S will ensure timely submission of completed AER-S to HQDA and that a copy is provided to the rated Soldier (in accordance with this regulation and DA Pam 623–3). For AER-Cs, the review will be completed by HQDA, Chief, NGB, or the installation education services officer prior to inclusion in the Soldier’s AMHRR. The Chief, Advanced Education Programs Branch, HRC, will serve as the reviewing official for AER-Cs associated with the Army’s fully and partially funded education programs, including Training with Industry (TWI) governed by AR 621-1 and AR 621-7. The Chief, Advanced Education Programs Branch, will ensure timely posting for these completed AER-Cs for inclusion within the officer’s records.

Section IV
Evaluation Report Reviews

2–15. Review of evaluation reports

a. Evaluation report reviews provide oversight of the evaluation reporting process, compliance with the policy guidance of this regulation and procedural guidance in DA Pam 623–3, and the accuracy or consistency of the completed report.

b. For OERs, the review is normally an inherent responsibility of the senior rater. A documented supplementary review will be performed by a Uniformed Army Advisor, senior to the rated officer, and normally senior to the senior rater within the organization, when there are no uniformed Army designated rating officials for the rated officer, for “Relief for Cause” evaluation reports when the senior rater is the individual directing the relief, or if the relief has been directed by an individual other than the rating officials. See figures 2–3, 2–4, and 2–5.
c. For NCOERs, the review is conducted by a designated individual in the rating chain. An additional, yet undocumented, review of completed NCOERs should be done by the senior NCO in the organization to ensure oversight of NCOs’ performance. In some instances, the reviewer may need to document nonconcurrency with an evaluation report and/or inconsistencies between the rater’s and senior rater’s evaluations of a rated NCO.

d. For AER-Ss, the reviewing officer is a designated individual in the chain of supervision, as determined by the school commandant. A documented supplementary review is required for academic failure evaluation reports. For AER-Cs, an administrative review is conducted by the AHRC Advanced Education Programs Branch (AHRC-OPL-C).

Figure 2–3. Supplementary review requirement by Uniformed Army Advisor

Note. The senior rater or the Uniformed Army Advisor performing the supplementary review may not direct that the rater and/or senior rater change an evaluation believed to be honest (see para c).

b. In addition to the above, reviewers of “Relief for Cause” OERs (see para 3–54) or “Failed to Achieve Course Standards” AERs (see para 3–27a(4)) will follow the guidance of paragraph 2–17.

c. In certain situations, persons other than the senior rater or reviewing officer will conduct supplementary reviews of OERs and AER-Ss. Supplementary reviews will be accomplished after receipt and review of the rated Soldier’s comments, if provided.

(1) For OERs—

(a) If the senior rater is a Army officer (other than a general officer), a DA Civilian, or SES member who is also
serving as the rater and there is no other Army officer in the chain of supervision to conduct a supplementary review, HQDA will perform an additional review.

(b) When there are no uniformed Army designated rating officials for the rated officer, a supplementary review will be performed by an Army Officer, senior to the rated officer, and normally senior to the senior rater within the organization. This officer will be designated as the Uniformed Army Advisor by the CDR establishing the rating chain and identified in the published rating chain. When such a review is conducted, and the reviewer determines comments are necessary, the supplementary reviewer will prepare a memorandum (when required) as an enclosure to the OER, as illustrated in figure 2–1. The memorandum will comment on the accuracy and/or clarity of the completed OER in accordance with this regulation. The comments will not include evaluative statements about the rated officer or statements that amplify, paraphrase, or endorse the comments and/or ratings of the rating chain members. If there is no available Army officer above the senior rater in the chain of command, the senior rater or his or her BN and/or BDE S1 or administrative office will request an additional review by HQDA (see fig 2–2).

(2) For AERs—

(a) DA Form 1059. A supplementary review of all “Failed to Achieve Course Standards” AERs will be conducted by the person in the chain of supervision above the reviewer, unless the commandant is the reviewing officer on the AER-S. Reviews will go no higher than the school commandant.

Note. School commandants may delegate signatory or approval authority to the registrar to perform review functions. The commandant’s delegation must be filed locally and rescinded or updated when a change of commandant occurs. See paragraphs 2–15, 2–16, 2–17, and DA Pam 623–3 for additional guidance on AER processing and review requirements.

(b) DA Form 1059–1. An administrative review is conducted by the AHRC Advanced Education Programs Branch (AHRC-OPL-C) (address in app F).

2–17. Mandatory review of officer relief and academic failure evaluation reports
An additional review of “Relief for Cause” OERs and “Failed to Achieve Course Standards” AERs is required following referral to the rated officer.

a. When an officer is officially relieved of duties and a “Relief for Cause” OER (see para 3–54) or “Failed to Achieve Course Standards” AERs (see para 3–27) is subsequently prepared, these evaluation reports require referral to the rated officer as described in paragraph 3–28.

Note. This referral will be completed before taking any of the actions in the following subparagraphs.

b. Reviewers of “Relief for Cause” OERs or “Failed to Achieve Academic Standards” AERs will—

(1) Ensure that the narrative portions of the OER or AER contain factual information that fully explain and justify the reason for the relief or AER failure.

(2) Verify that any derogatory information has been accurately reflected.

(3) Ensure that the evaluation report has been prepared as prescribed by this regulation.

(4) Ensure that the evaluation report has been returned to the rated officer for comment.

(5) Review relieved Soldier’s referral comments, if provided.

c. All “Relief for Cause” OERs or “Failures to Achieve Academic/Course Standards” AERs will be reviewed by the first Army officer in the chain of command or supervision who is senior to the individual directing the relief.

(1) If the rater or intermediate rater directed the relief, the senior rater will perform the review, provided they are an Army officer or DA Civilian when other rating officials are uniformed Army rating officials. Otherwise, the first Army officer, designated as the Uniformed Army Advisor in the organization or chain of supervision above the individual directing the relief will perform a supplementary review of the evaluation report outlined in paragraph 2–8a(2). The reviewer’s comments (if required) will be prepared as an enclosure to the OER (see fig 2–4).

(2) If there is not an Army officer or Uniformed Army Advisor in the chain of command or supervision above the person directing the relief, the senior rater will request that HQDA perform the review function.
The procedures for reviewing “Relief for Cause” OERs are as follows:

1. If the senior rater is qualified to serve as the reviewer and he or she is satisfied that the report is clear, accurate, complete, and fully in accord with the provisions of the regulation, he or she continues to process the report.

2. If the senior rater finds that the OER is unclear, contains errors of fact, or is otherwise in violation of this regulation, they will return the OER to the rater or intermediate rater, indicating what is wrong. The senior rater will avoid all statements and actions that may influence or alter an honest evaluation by the rater or intermediate rater. When the OER has been corrected, it will be returned to the senior rater.

3. If the senior rater is not an Army officer, a DA Civilian when other rating officials are uniformed Army rating officials, or if the relief was directed by the senior rater or an individual other than their rating officials, the OER will be reviewed by the first Army officer (Uniformed Army Advisor) in the organization or supervision above the individual directing the relief. This officer will perform the functions described in paragraphs 2–15, 2–16, and 2–17. His or her comments will be prepared as an enclosure to the OER (see figs 2–1 or 2–4).

4. If there is not an Army officer or Uniformed Army Advisor in the chain of command or supervision above the person directing the relief, the OER will be forwarded to HQDA for review (see app F for contact information).

5. Changed “Relief for Cause” OERs will be referred, again, by the senior rater to the rated officer, in accordance with paragraph 3–28 so that the corrected OER may be acknowledged and comments provided, if desired. (Only the final referral and acknowledgment are forwarded with the OER to HQDA.)

6. If the corrected OER is satisfactory to the senior rater (or other reviewer), the senior rater (reviewer) will continue to process the OER, in accordance with paragraph 3–28.

7. If the corrected OER is not satisfactory to the senior rater (or other reviewer), or if the other rating officials disagree about the need for changes in the report, the senior rater (or other reviewer) will indicate objections to the report by adding an enclosure to the OER. When indicating objections, the senior rater (or other reviewer) is restricted to discussing only the issues listed in paragraph b.

8. The senior rater (or other reviewer) will ensure that the rated Soldier receives a copy of the final OER with all enclosures.
e. AER-Ss that reflect “Failed to Achieve Course Standards” require a supplementary review by the next individual above the reviewing officer in the chain of supervision, unless the school commandant is the reviewing officer on the AER-S. Supplementary reviews will go no higher than the school commandant (see para 2–16 and DA Pam 623–3).

2–18. Review of DA Forms 2166-8 (NCOERs)

a. Every NCOER should be reviewed by the 1SG, SGM, or CSM to ensure accountability of Soldiers’ NCOERs and to oversee the performance of junior NCOs. This is in addition to the review by the designated reviewer in accordance with paragraph 2–15, if applicable. This is in addition to the review by the designated reviewer in accordance with paragraph 2–16, if applicable.

b. The reviewer will—

(1) Ensure that the proper rater and senior rater complete the report.

(2) Examine the evaluations rendered by the rater and senior rater to ensure they are clear, consistent, and just in accordance with known facts. Special care will be taken to ensure the specific bullet comments support the appropriate “Excellence,” “Success,” or “Needs Improvement” ratings in part IV, blocks b through f of the NCOER (see DA Pam 623–3 for definitions).

c. The reviewer will comment only when in disagreement with the rater and/or senior rater. The reviewer indicates concurrence or nonconcurrence with rater and/or senior rater by checking the appropriate box in part II and adding an enclosure, not to exceed one page (see fig 2–6). For specific instructions, see DA Pam 623–3.
Figure 2–6. Sample format for a noncommissioned officer evaluation report nonconcurrence memorandum

(Office Symbol)  (Date)

MEMORANDUM FOR RECORD

SUBJECT: NCOER Nonconcurrence Memorandum for (Rated NCO’s Name, Rank, SSN, Report Period Covered)

1. As the reviewer during the period in question, I nonconcur with the (rater’s/senior rater’s) evaluation of (name or rated NCO).

2. I submit the following information to clarify the situation and indicate what I consider to be proper evaluation of performance and/or potential. I…. (Submit your basis for nonconcurrence with the rater’s/senior rater’s assessment of the rated NCO.)

(Signature block of the reviewer)

Note: The electronic DA Form 2166-8 in the Evaluation Entry System Portal has a pre-prepared format for an NCOER nonconcurrence memorandum as an enclosure to the basic form. If the electronic enclosure is used instead of a separate memorandum, the format will be completed and digitally signed, then submitted as an enclosure to the completed NCOER. (If the comments exceed the space allotted on the form, indicate that the comments are continued on an additional attached external document.)

(1) When the reviewer determines that the rater and/or senior rater have not evaluated the rated NCO in a clear, consistent, or just manner based on known facts, the reviewer’s first responsibility will be to consult with one or both rating officials to determine the basis for the apparent discrepancy.

(2) If the rater and/or senior rater acknowledge the discrepancy and revise the NCOER so that the reviewer agrees with the evaluation, the reviewer will check the concur box in part II.

(3) If the rater and/or senior rater fail to acknowledge a discrepancy and indicate that the evaluation is their honest opinion, the reviewer will check the nonconcur box in part II. The reviewer then will add an enclosure that clarifies the situation and renders his or her opinion regarding the rated NCO’s performance and potential (see para 7) and fig 2–6).

(4) The reviewer may not direct that the rater and/or senior rater change an evaluation believed to be honest.

(5) In cases where neither the rater nor the senior rater is an NCO, the reviewer will get additional informal input from the senior NCO subordinate to the reviewer.

(6) The reviewer will notify the rating chain and rated NCO of nonconcurrence with the NCOER to ensure that the rating chain and the rated NCO are informed of the completed NCOER and may allow for a possible request for a CDR’s or Commandant’s inquiry or appeal, if desired (refer to para 4-3).

(7) When applicable, the reviewer will submit an NCOER nonconcurrence memorandum as an enclosure to the
completed NCOER. This memorandum is an internal enclosure to the electronic form (in the Evaluation Entry System portal) for completion and forwarding with the NCOER, when needed. Alternatively, a one-page nonconcurrence memorandum, in the format shown in figure 2–6, may be forwarded with the NCOER as an external enclosure.

d. The reviewer will complete and authenticate the NCOER in accordance with options in DA Pam 623–3.

e. Following completion of the review, the senior rater will forward the NCOER to HQDA and NCOER nonconcurrence memorandum (if any) to—

   (1) HQDA for Regular Army, USAR, and AGR NCOERs (see app F).

   (2) State EPM or National Guard Bureau (NGB) Readiness Center for ARNG NCOERs (see app F).

Section V
Special Evaluation Reporting Requirements

2-19. Loss of a rating official or rated Soldier
Special rules apply when a rating official is eliminated from the rating chain or is unable to render an evaluation of the rated Soldier. These situations occur when a rating official dies, is declared missing, is relieved of his or her position or duties for cause, or becomes mentally or physically incapacitated to such an extent that he or she is unable to render an objective or accurate evaluation. When a rating official is officially relieved or determined to be incapacitated, he or she will not be permitted to evaluate his or her subordinates. This restriction will apply to evaluation reports with “THRU” dates prior to the relief or incapacitation of the rating official that have not yet completed processing to the rated Soldier’s OMPF. The rules listed below apply:

a. Requirements for DA Form 67-10 series (OERs).

   (1) When the rater is eliminated from the rating chain for any of the reasons cited above, a determination will be made whether or not the minimum rating period (90 or more calendar days) for an OER has been met (see para 2–10a(1)). If the minimum rating period has not been met, the period is nonrated and a new rater will be designated.

   Note. For USAR TPU, DIMA, and drilling IRR Soldiers and ARNG Soldiers, the minimum required rating period for raters is 120 calendar days versus 90 calendar days (see apps G and H).

   (a) If the minimum rating period has been met, the intermediate rater, if any, will perform the rater’s functions. The intermediate rater will do so only if he or she feels qualified to rate and has served in the rated officer’s rating chain for a period of 60 or more days.

   Note. For USAR TPU, DIMA, and drilling IRR Soldiers and ARNG Soldiers, the minimum required rating period for senior raters is 90 calendar days versus 60 calendar days (see apps G and H).

   (b) If there is no intermediate rater, or if the intermediate rater does not have adequate knowledge of the rated officer’s performance and potential to qualify them to render an OER or has not met the 60-day requirement, the senior rater will perform the rater’s function, but only they feel qualified to rate and have served in the rating chain for 60 or more calendar days. Likewise, if the senior rater does not have adequate knowledge of the rated officer’s performance and potential to qualify him or her to render an OER or has not met the 60–day requirement, the period will be nonrated. If a senior rater assumes the role of rater, they will serve as both rater and senior rater (see para 2–20).

   Note. For USAR TPU, DIMA, and drilling IRR Soldiers and ARNG Soldiers, the minimum required rating period for senior raters is 90 calendar days versus 60 calendar days (see apps G and H).

   (2) When the intermediate rater is removed, a new intermediate rater may be appointed who will participate in an evaluation when one is due after completing the required minimum time as the intermediate rater. If an OER is due and a new intermediate rater has not been appointed as part of the rating chain, no intermediate rater will appear on the OER (as applicable).

   (3) When the senior rater is removed, a new rating official will be designated by either of two options—

      (a) A new senior rater may be appointed who will participate in an evaluation when one is due after completing the required minimum time as the senior rater.

      (b) The original senior rater’s rater may be appointed as the senior rater. In order to evaluate the rated officer as the senior rater, they must be a member of the U.S. Armed Forces or employee of DOD, be of the appropriate rank or grade, and have adequate knowledge of the rated officer’s performance and potential to qualify them to render an evaluation in place of the removed senior rater. Minimum senior rater time qualifications for this individual are not required.

   (4) When a rating official is removed from their duty position for cause or suspended, they will not render or receive OERs until their status (and, thus, their ability to serve as a rating official) is decided.

      (a) When a rater or senior rater is suspended, the suspended time will be counted as nonrated time on the rated officer’s evaluation report.

      (b) If relieved, the provisions of this paragraph will apply.

      (c) If not relieved, the provisions of this paragraph do not apply, and OERs held pending a status determination must be completed.
In cases when both the rater and senior rater are eliminated from the rating chain (and there is no intermediate rater), the rating period will normally be declared nonrated time with a nonrated code of “Z” and the next rating chain will account for that period of time in the next OER.

Note. Comments about events that occurred during nonrated periods are prohibited. If the rated officer will be seen by an HQDA-level selection board, they may request a nonrated time statement, which they can submit with a letter to the president of the board to explain an abnormal gap in his or her OER history.

On a case-by-case basis, as an exception to policy, HQDA can approve the senior rater’s rater to serve as both rater and senior rater on the rated officer’s OER. In order to evaluate the rated officer as the senior rater, he or she must be a member of the U.S. Armed Forces or employee of DOD, be of the appropriate rank or grade, and have adequate knowledge of the rated officer’s performance and potential to qualify them to render an OER in place of the removed senior rater. Minimum senior rater time qualifications for this individual are not required.

b. Requirements for DA Form 2166–8 (NCOERs).

(1) When the rater is eliminated from the rating chain for any of the reasons cited above, it will be determined whether the minimum rating period for an NCOER has been met (see para 2–10a(1)).

Note. For USAR TPU, DIMA, and drilling IRR Soldiers and ARNG Soldiers, the minimum required rating period for senior raters is 90 calendar days versus 60 calendar days (see apps G and H).

(a) If the minimum rating period has not been met, the period is nonrated and a new rater will be designated.

(b) If the minimum rating period has been met, the senior rater will perform the rater’s functions, provided rater qualifications are met. The senior rater will serve as both the rater and senior rater. See paragraph 2–20 and DA Pam 623–3 for NCOER procedures when the senior rater also serves as the rater.

(2) When a senior rater or reviewer is eliminated from the rating chain for any of the reasons cited above, a new rating official will be designated by either of these options—

(a) When a rater or senior rater is suspended, the suspended time will be counted as nonrated time on the rated NCO’s evaluation report.

(b) If relieved, the provisions of this paragraph will apply.

(c) If not relieved, the provisions of this paragraph do not apply, and evaluation reports held pending a status determination must be completed.

(3) When a rating official is removed from their duty position for cause, or suspended, they will not render or receive a NCOER, until their status (and, thus, their ability to serve as a rating official) is decided.

(a) When a rater or senior rater is suspended, the suspended time will be counted as nonrated time on the rated NCO’s NCOER.

(b) If relieved, the provisions of this paragraph will apply.

(c) If not relieved, the provisions of this paragraph do not apply, and NCOERs held pending a status determination must be completed.

(4) When the senior rater performs the functions of the rater, the rating period of the NCOER will be the period the senior rater has been in the rating chain.

(5) In cases when both the rater and senior rater are removed from the rating chain, the rating period will normally be declared nonrated time with a nonrated code of “Z,” and the next rating chain will account for that period of time in the next NCOER.

Note. Comments about events that occurred during nonrated periods are prohibited. If the rated NCO will be seen by an HQDA-level selection board, he or she may request a nonrated time statement, which he or she can submit with a letter to the president of the board to explain an abnormal gap in his or her NCOER history.

On a case-by-case basis, as an exception to policy, HQDA can approve the senior rater’s rater to serve as both rater and senior rater on the rated NCO’s NCOER. In order to evaluate the rated NCO as the senior rater, they be a member of the Armed Forces or DOD employee, be of the appropriate rank or grade, and have adequate knowledge of the rated NCO’s performance and potential to qualify them to render an NCOER in place of the removed senior rater. Minimum senior rater time qualifications for this individual are not required.

c. Requirements for DA Forms 1059 and DA Forms 1059–1. (AER–S and AER–C)

(1) For AER–S, a new rater and authenticating official will be designated by the commandant of the school in the event of loss, relief, or incapacitation of that rating official. In the event of loss of an authorized authenticating official, the CG, U.S. Army Training and Doctrine Command (TRADOC) will designate a local official qualified to serve as both the rater and senior rater (authenticating official).

(2) For AER–C, in the event of loss, suspension, or incapacitation of qualified rating officials, the dean of the academic institution will appoint appropriate evaluation officials in accordance with local administrative standards.

d. Loss of rated Soldier.

(1) The death of a Soldier does not require an evaluation report to be prepared for submission to HQDA.

(2) Any previous evaluation report having a “THRU” date prior to the date of a Soldier’s death can still be
submitted for processing to the Soldier’s AMHRR. Submission and processing must be accomplished within a 6–month window.

2–20. Supervisor as both rater and senior rater
This paragraph addresses when a supervisor may serve as both rater and senior rater under circumstances other than due to the loss of a rating official.

a. The provisions of this paragraph do not apply to AERs.

b. For OERs in the following situations, a supervisor who would normally act only as a rater on an evaluation report may also act as a senior rater, providing he or she meets the minimum senior rater rank or grade requirement and the authority to do so has not been restricted by the next higher CDR.

1. A general officer for his or her aide-de-camp or an SES equivalent for his or her military assistant.
2. A CDR for his or her inspector general.
3. An MG (includes a BG in an MG position) or higher, or an SES or equivalent to an MG.
4. A BG who is a CDR or school commandant (includes a promotable COL working in a BG CDR or commandant position).

5. A rater who, under the normal rating chain rules, would cause the senior rating to be performed by one of the following senior officials provided the senior official does not desire to serve as senior rater:

   a. The Secretary, Deputy Secretary, or the Under Secretaries of Defense.
   b. Assistant Secretaries of Defense.
   c. The Secretary or Under Secretary of the Army.
   d. Assistant Secretaries of the Army.
   e. The Chief of Staff, Army.
   f. The Vice Chief of Staff, Army.
   g. Chairman, Joint Chiefs of Staff.
   h. Vice Chairman, Joint Chiefs of Staff.
   i. The Supreme Allied CDR, Europe.
   j. CDRs of Specified or Unified Commands.

   c. It will be noted that the authority to act as both rater and senior rater does not extend to the rater of a general officer or a promotable COL in a general officer position, unless there is no senior official who could logically serve as senior rater.

   d. General officers authorized to serve as both rater and senior rater may evaluate a rated officer after meeting the minimum rating period (60 rated days) for mandatory evaluation reports (see paras 3–40 through 3–55), rather than the standard rating requirement of 90 calendar days.

Note. For USAR TPU, DIMA, and IRR Soldiers and ARNG Soldiers, the minimum rating requirement for general officers is 90 calendar days, rather than the standard requirement of 120 calendar days for USAR and ARNG raters (see apps G and H).

f. On NCOERs, a rater may act as both the rater and senior rater when the rater is a general officer or a civilian employee with SES rank and precedence (see para 2–8b(3)). A promotable COL working in a BG position may also serve as both the rater and senior rater.

Note. For USAR TPU, DIMA, and drilling IRR Soldiers and ARNG Soldiers, the minimum rating requirement for general officers is 90 calendar days, rather than the standard requirement of 120 calendar days for USAR and ARNG raters (see apps G and H).

g. See appendix E for AMEDD officers serving as both rater and senior rater.

2–21. Dual supervision (DA Form 67–10 only)

Note. This paragraph does not apply to DA Form 2166–8, DA Form 1059, or DA Form 1059–1.

a. Officers are considered to be serving under dual supervision when they are supervised by, and assigned different duties by, two separate chains of command or supervision throughout the entire rating period. (For example, a unit CDR responsible to the unit chain of command for unit matters and to the installation CDR for installation matters.) Support unit CDRs whose primary mission is to support another unit are generally not serving under dual supervision since they are assigned the support mission and supervised in its execution by their parent units.

b. Both chains of commands or supervision will be represented in the rating chain. This can be accomplished by dividing the rating chain positions between the two supervisory chains (preferred method). For example, the rater might be selected from the nonparent unit and the senior rater from the parent unit. As another alternative, the rater and senior rater might be selected from the parent unit and the intermediate rater selected from the nonparent unit. Important considerations in establishing the rating chain are the significance of the duties supervised by each chain of command and the seniority of the respective supervisors. Rating officials must meet the minimum time requirements in order to render an evaluation on the rated officer.
c. When it is not practical to designate a nonparent unit supervisor as rater, intermediate rater, or senior rater, this supervisor may submit written comments concerning the rated officer’s duty performance to the designated rater for their use in developing the rater’s evaluation. These comments will address that portion of the rated officer’s duties directed by this supervisor. Nonparent unit supervisors will enter an evaluation on OERs only if they are a designated member of the published rating chain for a minimum of 60 calendar days prior to the “THRU” date of the OER.

Note. For USAR TPU, DIMA, and drilling IRR Soldiers and ARNG Soldiers, the minimum OER rating requirement is 90 calendar days, rather than 60 calendar days (see apps G and H).

d. The published rating chain will contain the notation “dual supervision” next to the rated officer’s name.

e. The duty description on OER support forms and OERs will annotate and identify dual supervision. The statement “Officer serving under dual supervision” will be entered as the first line of the duty description.

f. See appendixes C (for chaplains), D (for JAGC officers), and E (for AMEDD officers), as applicable.

2–22. Professors of military science
Professors of military science are responsible to both a DOD chain of command and a non-DOD supervisory chain (the academic institution). In these cases, the rater, intermediate rater, and senior rater will be selected from the DOD chain of command.

2–23. Professors of military science
a. Special evaluation report requirements for warrant officers are in appendix B.

b. Special evaluation report requirements for chaplains are in appendix C.

c. Special evaluation report requirements for JAGC officers are in appendix D.

d. Special evaluation report requirements for AMEDD officers are in appendix E.

Chapter 3
Army Evaluation Principles

Section I
Evaluation Overview

3–1. Introduction
This chapter governs evaluation principles for Regular Army, USAR, and ARNG Soldiers. Specific instructions for preparation and submission of evaluation forms are addressed in DA Pam 623–3. Special requirements for USAR and ARNG evaluations can be found in appendices G and H.

3–2. Evaluation report requirements
a. Evaluation reports (OERs and NCOERs) will not be submitted unless authorized by this regulation or directed by HQDA.

b. Reports will be submitted for—
   (1) All officers through the rank of BG, except for the Dean of Academic Board, the Registrar, and permanent professors of the U.S. Military Academy (USMA) who have completed 30 years of commissioned service.
   (2) All warrant officers through the rank of CW5. Evaluation reports are not required but are optional for CW5s serving in three- and four-star nominative positions, except for “Relief for Cause” OERs. When CW5s serving in three- and four-star nominative positions are reassigned to other duties and no other evaluation report has been submitted, that time will be considered nonrated and will appear on the next evaluation report submitted upon reassignment for those duties.
   (3) All NCOs in the grades of SGT through CSM.

c. There are two types of evaluation reports: mandatory and optional. These types are further divided into evaluation reports requiring a 90–day minimum rating period and those that have an “other-than-90–day” minimum rating period requirement. To determine if a rated Soldier meets the minimum calendar-day requirement for an evaluation report described in this chapter, all nonrated time will be deducted from the total number of days in the period covered to determine if the Soldier has met the minimum rating period in the same position under the same rater.

Note. For USAR TPU, DIMA, and drilling IRR Soldiers and ARNG Soldiers, the rater must have served as the supervisor for a minimum of 120 calendar days versus 90 calendar days (see apps G and H).

3 d. Rating officials greatly affect a rated Soldier’s performance and professional development. Thus, these officials will ensure that the rated Soldier thoroughly understands the organization, its mission, his or her role in support of the mission, and all of the military and/or academic standards by which individual performance will be evaluated. The DA
Form 67–10–1A processes outlined in DA Pam 623–3 and the DA Form 2166–8–1 processes outlined in DA Pam 623–3 are designed specifically to assist in this rating chain responsibility.

e. To render an objective evaluation, rating officials will use all opportunities to observe and gather information on the rated Soldier’s individual performance.

f. Rating officials will prepare evaluation reports that are forthright, accurate, and as complete as possible within the space limitations of the form. This responsibility is vital to the long-range success of the Army’s mission. With due regard for the rated Soldier’s current rank or grade, experience, and military schooling, evaluations will cover failures as well as achievements. Evaluations normally will not be based on a few isolated minor incidents. Rating officials have a responsibility to balance their obligations to the rated Soldier with their obligations to the Army. Rating officials will make honest and fair evaluations of Soldiers under their supervision. On the one hand, this evaluation will give full credit to the rated Soldier for their achievements and potential. On the other hand, rating officials are obligated to the Army to be honest and discriminating in their evaluations so Army leaders, HQDA selection boards, and career managers can make intelligent decisions.

g. Retirement evaluation report requirements include the following:

(1) All Soldiers will receive an evaluation report within 12 months before the first day of transition leave. Retirement evaluation reports of less than 1 calendar year are optional. These reports will be rendered at the option of the rater, senior rater, or when requested by the rated Soldier (see para 3–43c). Retirement reports that conclude a Soldier’s military career, if rendered, will have a “THRU” date that is the final day of supervision or last duty day before beginning transition leave (or before the effective date of retirement, if no transition leave is taken).

(2) It is important on any final evaluation report that rating officials consider documenting performance and any unique skills that are of value to the Army. For more information on retirement reports, see paragraph 3–43c.

h. Retirees recalled to active duty may serve as rating officials, however they will not receive evaluation reports because they no longer compete for promotion (see para 3–32). At the option of the rating chain, all aspects of the ERS program may be used as a communication tool at the local or unit level, but a final evaluation report will not be submitted for processing. Therefore, no recalled retiree will be considered as part of the senior rater profile population.

i. A newly commissioned officer or newly appointed warrant officer will not be rated on an OER under any provisions of this regulation prior to completion of BOLC or WOBC, except for “Relief for Cause” evaluation reports. The period prior to attending BOLC or WOBC will be nonrated and will be accounted for in the officer’s first OER (see para 3–34b).

Note. This same policy also applies to ARNG officers (para H–4c); see paragraph G–5m for guidance regarding USAR officers.

j. AERs are outlined in paragraphs 3–14 and 3–15 and DA Pam 623–3. Performance counseling for Soldiers attending military schools will be conducted in accordance with procedures established by the commandant of the school at the local level or by the CG, TRADOC. Academic performance counseling and evaluation reports for military personnel attending a civilian educational, medical, or industrial institution will be conducted in accordance with procedures established at the local level by the dean of the institution or appropriate civilian official.

3–3. Evaluation report forms

Specific procedural guidance and instructions for the preparation and submission of evaluation report forms are addressed in DA Pam 623–3 as follows:

a. Chapter 2, DA Form 67–10–1A, OER support form and DA Form 67–10 series, OER.

b. Chapter 3, DA Form 2166–8–1, NCOER support form and DA Form 2166–8, NCOER.

c. Chapter 4, DA Form 1059, AER-S and DA Form 1059–1, AER-C.

Section II
DA Forms 67-10-1A and DA Forms 2166-8-1

3–4. The support form communication process

Initial and follow-up counseling between the rater and the rated Soldier that is documented on the support forms (OER and NCOER) assures a verified communication process throughout the rating period.

a. The support form communication process is characterized by initial and follow-up face-to-face counseling between the rater and the rated Soldier throughout the rating period. This process is used to achieve the purposes of DA Form 67–10–1A and DA Form 2166–8–1. The initial face-to-face counseling assists in developing the elements of the rated Soldier’s duty description, responsibilities, and performance objectives. The follow-up counseling enhances mission-related planning, assessment, and performance development. Discussion and procedures on counseling are found in DA Pam 623–3 and Field Manual (FM) 6–22, appendix B.

b. Through the communication process, rated Soldiers are made aware of the specifics of their duties and may influence the decision on what is to be accomplished. Thus, the rated Soldier is better able to—

(1) Direct and develop their subordinates.

(2) Plan for accomplishing the mission.
(3) Gain valuable information about the organization.
(4) Find better ways to accomplish the mission.

c. Using performance objectives as the basis for leadership communication enables the rater and the rated Soldier to identify the most important tasks, priorities, major areas of concern, and responsibilities of the rated Soldier. Many categories of objectives exist; the following examples are alternatives for consideration:

(1) Routine objectives deal with repetitive duties. These duties do not ordinarily produce visible results, but if they are not properly done, serious consequences could occur (for example, processes administrative discharges within a 45-day period; carries out a program that ensures on time responses to suspended items).

(2) Problem solving objectives deal with problem situations. These objectives will allow time for dealing with problems without disrupting other objectives (for example, prepares for logistical support to activate a BN).

(3) Innovative objectives create new or improved methods of operation. These may involve a degree of risk because they are untried ideas (for example, complete a correspondence course or additional civilian education; improve subordinates’ knowledge in their area of responsibility by developing an Army publication study program).

(4) Personal development objectives further the professional growth of the rated officer, NCO, or their subordinates. These objectives will be oriented toward skills that will help either the Soldier’s career development or job performance. These may be in any assigned specialty (for example, complete a correspondence course or additional civilian education; improve subordinates’ knowledge in their area of responsibility by developing an Army publication study program).

d. The fact that the rated Soldier or rater initiates a support or counseling form at the beginning of the rating period provides impetus for the communication process. Discussion of duties and major performance objectives at the beginning of a rating period resolves misunderstandings and ambiguities before they can adversely affect performance and mission accomplishment. Throughout the rating period, the working copies of support forms focus on follow-up face-to-face counseling on mission requirements and performance. This provides consistency and centers leadership communication and development from the beginning of the rating period until the end. See DA Pam 623–3, which discusses the automatic population of forms with up-to-date administrative data entries from HQDA’s authoritative database when initially preparing support or counseling forms.

Note. The use of SSNs on support forms is optional because these documents are used exclusively at the local level; however, full SSNs for the rated officer and the senior rater assist in populating evaluation reports directly from the support form.

e. If the communication process has been properly executed, support forms will assist the rating chain in completing the OER or NCOER, because the support or counseling forms are forwarded through the rating chain as evaluations are rendered.

(1) To emphasize the importance of the support form in the evaluation process, the rated Soldier and rater will verify the face-to-face follow-up counseling by initialing the support or counseling form.

(2) Documentation of counseling is critical, particularly when the rated Soldier is not meeting performance standards. The support or counseling form becomes a source document, and through its use, can assist in altering substandard performance into performance being compliant with established standards.

(3) For both OERs and NCOERs, the support form accompanies the rater’s evaluation of the rated Soldier when forwarded to the senior rater to provide information from the rated officer’s point of view to the entire rating chain.

f. Support or counseling forms enable the rated Soldier, rater, intermediate rater (if applicable), and senior rater to communicate and they provide documented input for consideration in preparing the evaluation report at the end of the rating period. The rater will use the support or counseling form to complete an assessment of the rated Soldier on the evaluation report and will forward both documents to the next person in the rating chain (senior rater or intermediate rater, if applicable). The intermediate rater, if applicable, will use the support form to complete their portion of the evaluation report and will forward documents to the senior rater. The senior rater will use the support form to assess the rated Soldier and will forward the completed evaluation report and support form to the reviewer for review and concurrence, if applicable, and/or to the rated Soldier for review and signature before its submission to HQDA.

g. Although the support or counseling form is an official document covered by regulation, it will not become part of the official file used by selection boards or career managers. Failure to comply with any or all support or counseling form requirements will not constitute the sole grounds for appeal of an evaluation report. The senior rater will ensure that a completed support or counseling form is returned to the rated Soldier when the evaluation report is forwarded to HQDA.

3–5. Army performance objectives and special interest items

Army performance objectives have been identified at the highest levels of the Army as areas of special interest regarding officer and NCO leaders Armywide.

a. Rated Soldiers will include this information in the development of support or counseling forms.

b. When applicable, rating officials will include rated Soldier performance related to these special interest items in their overall assessment on the evaluation report. Additionally, AR 600–20 provides policy for when items will be mentioned in a Soldier’s evaluation report when substantiated by a completed command or other official investigation.
In accordance with applicable Army guidance, rating officials of Soldiers with substantiated issues or incidents regarding Army performance objectives and/or command special interest items during the rating period will include such information on evaluation reports. The items in paragraph (2) and those mentioned in paragraphs 3–24 through 3–27 may be considered.

2. Special interest items are not all inclusive. Comments related to safety, individual and unit deployment readiness, energy-informed actions (see para (k)), support of behavioral health goals, support of the EO and EEO programs, and goals for fostering a climate of dignity and respect and supporting the SHARP Program will be included on all support forms. Special interest item topics are not expected to be reflected on subsequent OERs and NCOERs (except for those defined as being required), but they may be addressed when evaluating the rated officer’s or NCO’s overall performance and potential. CDRs may establish their own special interest items and performance objectives.

   a. Safety. See AR 385–10. All officers and NCOs will have a safety-related objective or task developed as part of their counseling requirements.

   b. Individual and unit deployment readiness. All officers and NCOs will indicate a full understanding of their responsibility to maintain individual and unit deployment readiness as part of their counseling requirements. Leaders must be aware of the deployability status of their subordinates.

   c. Support of behavioral health goals. All officers and NCOs will discuss how their actions in handling Soldiers with behavioral health issues impact the command climate and overall unit performance as part of their initial counseling requirements. Leaders play a key role in decreasing stigma and promoting positive attitudes toward behavioral health issues among subordinates.

   d. Internal evaluation systems. See AR 11–2.

   e. Contracting and acquisition. See Department of Defense instruction (DODI) 5000.66.

   f. Information Security Program. See AR 380–5. The rating officials will consider and may evaluate the rated Soldier’s discharge of any assigned security responsibilities. Rating officials are to comment on any action, behavior or condition that would constitute a reportable matter under Army security regulations and indicate if an appropriate report has been made.

   g. Natural resources management. See AR 200–1.

   h. Property accountability. See AR 735–5.

   i. Command inspections. See AR 1–201.

   j. Training. A leader’s execution of training on prevention of sexual harassment and/or avoidance of sexual misconduct will be included in counseling.

   k. Energy informed actions. See AR 420-1. All officers and NCOs will discuss responsibilities regarding energy and water impacts and potential conservation measures in all decisions with subordinates as part of their counseling requirements.

   l. Casualty assistance officer. See AR 600-8-1.

   m. Promoting a climate of dignity and respect and eliminating sexual harassment and sexual assault. All officers and NCOs will include objectives for fostering a climate of dignity and respect and eliminating sexual assault and sexual harassment in their units on their support form.

   n. Equal Opportunity and Equal Employment Programs. All officers and NCOs will include and discuss objectives for supporting the EO and EEO Programs (see AR 600-20).

## Section III
### DA Form 67-10 series and DA Form 2166-8, Roles and Responsibilities

3–6. Rated Soldier

The rated Soldier (officer or NCO) plays a significant role in counseling sessions and the evaluation process throughout the rating period. In the event of geographical separation, correspondence, and telephone conversations will be used as alternatives to face-to-face counseling followed by face-to-face discussions between the rated Soldier and the rater at the earliest opportunity.

a. For DA Form 67–10 series (OERs).

   1. Beginning of the rating period. Shortly after assuming duties, the rated officer will be provided with copies of the rater’s and senior rater’s DA Forms 67-10-1A (or equivalent) along with the unit’s mission, valid rating chain, duty description, and specified goals and objectives. The rated officer will—

      a. Draft their DA Form 67-10-1A, within the first 30 days of the rating period, using the rater or senior rater DA Forms 67-10-1A as input for goals and objectives. Submitting written performance objectives for approval must be followed up by a face-to-face counseling or an alternative follow-up discussion. A rated officer serving under dual supervision will include on his or her DA Forms 67-10-1A goals and performance objectives for both rating chains.
This increases rating officials’ awareness of the rated officer’s objectives and responsibilities related to the goals and missions of both chains of supervision.

(b) Have a face-to-face counseling session (or an alternative type of discussion) with the rater. A rated officer serving under dual supervision will have counseling sessions with rating officials from both rating chains.

(2) During the rating period. The rated officer will—

(a) Maintain a working copy of the DA Forms 67-10-1A with the duties and objectives throughout the rating period. Rated officers will make additions or deletions to the duties and objectives on the working copy as changes occur and will discuss any changes to the working copy with raters. Follow-up face-to-face counseling is the most effective forum for these updates. Counseling should focus on learning that occurred (without dwelling on the past), the rated officer’s progression toward meeting goals and objectives, and what the officer needs to complete or improve upon in his or her duty performance.

(b) Include the requirement to file OGE Form 278 (Public Financial Disclosure Report) as a result of assigned duties on DA Form 67–10–1A, part IV, block a, if applicable. To determine whether they are required to file such forms, officers will consult their command ethics counselor or staff judge advocate. Additional information can be found in the Joint Ethics Regulation (DOD) 5500.07-R.

(3) End of the rating period. The rated officer will prepare a final DA Form 67–10–1A at the end of the rating period, sign and date it, and submit it to the rater. Dates of the initial and follow-up discussions from the working copy of DA Form 67–10–1A will be reentered with initials on the final copy of the DA Forms 67-10-1A (see DA Pam 623–3 for procedural guidance). The final DA Form 67–10–1A will be considered by the rating officials in preparing OERs. A rated officer serving under dual supervision will prepare a final DA Form 67–10–1A for both supervisors.

b. For DA Forms 2166–8 (NCOERs). Shortly after assuming duties, the rated NCO will be provided copies of the rater’s and senior rater’s DA Forms 2166-8-1 or DA Forms 67-10-1A (as appropriate) along with the unit’s mission, valid rating chain, duty description, and specified goals and objectives.

(1) Beginning of the rating period. The rated NCO will discuss his or her duties, goals, and objectives with the rater during the initial counseling session.

(2) During the rating period. The rated NCO will maintain a personal copy of the most recent DA Form 2166–8–1 as feedback and guidance are provided by the rater during counseling sessions. The rated NCO will verify the face-to-face discussion by dating and initialing the DA Form 2166–8–1 (see DA Pam 623–3 for procedural guidance).

(3) End of the rating period. The rated officer will prepare a final DA Form 67–10–1A at the end of the rating period, sign and date it, and submit it to the rater. Dates of the initial and follow-up discussions from the working copy of DA Form 67–10–1A will be reentered with initials on the final copy of the DA Forms 67-10-1A (see DA Pam 623–3 for procedural guidance). The final DA Form 67–10–1A will be considered by the rating officials in preparing OERs. A rated officer serving under dual supervision will prepare a final DA Form 67–10–1A for both supervisors.

3–7. Rater
The rater has immediate responsibility for counseling a rated Soldier and directing their performance. The rater will provide a copy of their support form to the rated Soldier at the beginning of the rating period.

a. For DA Forms 67–10 series.

(1) Beginning of the rating period. Shortly after the rated officer assumes his or her duties, the rater will provide them copies of the rater’s and senior rater’s DA Form 67-10-1A, mission, and/or objectives. This action ensures the rated officer knows his or her rating chain and has the necessary input to properly determine and prioritize responsibilities and performance objectives.

(a) The rater will conduct a face-to-face counseling session with the rated officer within the first 30 days of the rating period. This initial discussion will focus on duties, responsibilities, and performance objectives of the rated officer. The rater will discuss and establish goals that promote/support a healthy workplace environment conducive to the growth and development of the rated officer. The rater will also discuss and establish goals for supporting the EO and EEO programs, fostering a climate of dignity and respect, adhering to the SHARP Program, and eliminating sexual harassment and sexual assault in their unit. While correspondence and telephone conversations may be used as an alternative because of geographic separation, these will be followed by a face-to-face discussion between the rated officer and rater at the earliest opportunity. Simply requiring the rated officer to submit written performance objectives on DA Form 67–10–1A at the beginning of the rating period without a follow-up face-to-face meeting is an unacceptable shortcut of this provision.

(b) For a rated officer serving under dual supervision (see para 2–21), the rater will ensure that a rated officer is notified of the additional chain of supervision. An officer acting as the additional rating official in a dual supervision situation will also assume the appropriate responsibilities of the rater in providing a copy of their DA Form 67-10-1A and developing the separate DA Form 67–10–1A.

(c) For DA Form 67–10–1A, see DA Pam 623–3 for procedural guidance.

(2) During the rating period. Throughout the rating period, the rater will conduct periodic individual, follow-up face-to-face counseling with the rated officer. These counseling sessions differ from the first counseling session in that
the primary focus is on the rater informing the rated officer how well they are performing and how they can perform better and to update the duty description, as necessary.

(a) Quarterly counseling is mandatory for Regular Army, AGR, and USAR on active duty tours for CPTs, LTs, CW2s, and WO1s. Field-grade follow-up counseling is on an as-needed basis. As a rated officer’s duty description, objectives, or focus areas change, the rater will counsel the rated officer and update the DA Forms 67-10-1A throughout the rating period. Follow-up counseling for ARNG officers in these grades will occur at least semi-annually.

(b) Raters will conduct follow-up counseling sessions quarterly for Regular Army and AGR officers and at least semiannually for USAR TPU, DIMA, and drilling IRR officers, including IMA general officers, and ARNG officers (in accordance with apps G and H).

(c) Raters are required to articulate their developmental counseling responsibilities, as major performance objectives, on their DA Form 67–10–1A, part IV, block c.

(3) End of the rating period. The rater will review the final DA Form 67–10–1A when preparing OERs. Afterwards, he or she will initial and date the form to acknowledge the review. The rater will include the duty description from the rated officer’s final DA Forms 67-10-1A and may include performance-related information. However, the choice of what to enter on the OER is ultimately up to the rater.

(a) The rater is responsible for completing parts I, II, III, and IV of the OER, including the multi source and assessment feedback (MSAF) date, APFT performance entry and date and the height and weight entry including verification of compliance with AR 600-9 in part IV, block a (or an explanation of missing APFT and/or height and weight entries). Raters of field grade plate officers will identify broadening and operational assignments. Raters of strategic grade plate officers will identify strategic assignments (see DA Pam 623–3 for procedural guidance).

Note. For CSL LTC and COL level commanders, the most recent completed CDR360 assessment date will be entered in lieu of the MSAF date.

(b) Part IV will be an assessment of a rated officer’s professionalism, performance, and adherence to the attributes and core leader competencies of the Army Leadership Requirements Model (including the APFT, height and weight entries, and entry of compliance/noncompliance with AR 600-9), focusing on what a leader is (attributes) and what a leader does (competencies) during the rating period (see ADRP 6-22). Part IV contains the dimensions of the Army’s leadership doctrine that define professionalism for the Army officer. Attributes are characteristics that are an inherent part of an individual’s total core, physical, and intellectual aspects. Attributes shape how an individual behaves in his or her environment and are aligned to identity, presence, and intellectual capacity. Core leader competencies emphasize the roles, functions, and activities of what leaders do. Core leader competencies are complemented by attributes that distinguish high performing leaders of character. Core leader competencies apply across all levels of the organization, across leader positions, and throughout careers. The Army Values, empathy, warrior ethos, and discipline are critical attributes that define a leader’s character and apply across all grades, positions, branches, and specialties. These attributes are critical to maintain public trust and confidence in the Army and the qualities of leadership and management needed to maintain an effective Officer Corps. The OER incorporates the Army Leadership Requirements Model to emphasize and reinforce professionalism.

1. Performance evaluations are assessments on how well the rated officer met duty requirements and adhered to the professional standards of the Officer Corps. Performance is evaluated by considering the results achieved, how they were achieved, and how well the officer complied with professional standards.

2. Raters will comment on how well the rated officer promoted a climate of dignity and respect and adhered to the requirements of the SHARP Program. This assessment should identify, as appropriate, any significant actions or contributions the rated officer made toward—

a. Promoting the personal and professional development of subordinates;

b. Ensuring the fair, respectful treatment of unit personnel; and

c. Establishing a workplace and overall command climate that fosters dignity and respect for all members of the unit.

d. This assessment should also identify any failures by the rated officer to foster a climate of dignity and respect and adhere to the SHARP Program.

e. Raters will comment on any substantiated finding, in an Army or DOD investigation or inquiry, that the rated officer—

f. Committed an act of sexual harassment or sexual assault;

g. Failed to report a sexual harassment or sexual assault;

h. Failed to respond to a complaint or report of sexual harassment or sexual assault; or

i. Retaliated against a person making a complaint or report of sexual harassment or sexual assault; or

3. Potential evaluations are performance-based assessments of the rated officer’s ability, compared to that of their contemporaries. Assessment of potential applies to all officers, regardless of their opportunity to be selected for higher positions or grades. It does not take into account such factors as impending release from active duty or retirement; this assessment is continually changing and is reserved for HQDA.

(c) For LTCs and below (DA Form 67-10-1 and DA Form 67-10-2), part IV will be an assessment of the rated
officer’s performance during the rating period. This performance is evaluated in terms of the majority of officers in the population. If the performance assessment is consistent with the majority of officers in that grade the rater will place an “X” in the “PROFICIENT” box. If the rated officer’s performance exceeds that of the majority of officers in the rater’s population, the rater will place an “X” in the “EXCELS” box. (The intent is for the rater to use this box to identify the upper third of officers for each rank).

1. Part IV, block b (DA Form 67-10-1) and part IV, block e (DA Form 67-10-2) will be an assessment of the rated officer’s overall performance when compared with all other officers of the same rank the rater has previously rated or currently has in their population.

Note. Promotable officers with a “P” after their current rank, serving in an authorized position of the next higher rank, are considered as officers of the next higher rank in making comparative assessments with contemporaries. On “Rater Profile” reports, they will be profiled against the next higher rank. See paragraph 4-7h for important information concerning administrative corrections.

2. In order to maintain a credible profile, the rater must have less than 50 percent of the ratings of a rank in the “EXCELS” box. Fifty percent or more in the “EXCELS” box will result in a “PROFICIENT” label. If the rated officer’s performance is below the majority of officers in the rater’s population for that grade, and the rater believes the rated officer should be further developed, the rater will place an “X” in the “CAPABLE” box. If the rated officer’s performance is below the majority of officers in the rater’s population for that grade, and the rater does not believe the rated officer’s performance has met standards required of an Army officer, the rater will place an “X” in the “UNSATISFACTORY” box. To ensure maximum rating flexibility when rating populations change, or to preclude an “EXCELS” box check from inadvertently profiling as a “PROFICIENT” rating, raters need to maintain a “cushion” in the number of “EXCELS” ratings given, rather than tending to the line at less than 50 percent. This is best accomplished by limiting the “EXCELS” box to no more than one-third of all ratings given for officers of a given rank. Comments are mandatory and should compare the performance of the rated officer with his or her contemporaries during the evaluation period. The focus is on the results achieved and the manner by which they were achieved.

Note. In order to maintain a credible profile, the rater must have less than 50 percent of the ratings in the “EXCELS” box for a given rank. OERs with an “EXCELS” rating that causes a rater’s profile to have 50 percent or more “EXCELS” ratings will be processed with a “PROFICIENT” HQDA electronically generated label (see DA Pam 623–3); however, it will be charged against the rater’s profile as an “EXCELS,” and a documented rater profile misfire will occur.

3. To provide raters flexibility when initially establishing a credible rater profile, the rater will be given a profile credit of three “PROFICIENT” box checks. This provides flexibility and will enable raters first establishing a profile (separated by grade) the ability to use the “EXCELS” box immediately and eliminates some of the issues associated with immature profiles.

(d) For raters of COLs, DA Form 67-10-3, part IV, block e2 will be an assessment of the rated officer’s performance and an assessment of the rated officer’s overall potential during the rating period. The rater must capture the rated officer’s performance as it relates to the Leadership Requirements Model using concise narrative format. Potential comments should compare the potential of the rated officer with his or her contemporaries during the evaluation period. Potential comments should primarily focus on the rated officer’s potential for promotion, command, schooling (military and civilian), broadening/strategic assignments, successive duty assignments and level of assignments, and/or retention, when applicable.

(e) OERs are processed and profiled and the HQDA electronically generated labels are applied daily as OERs are received, regardless of the “THRU” date of the OER and the rater’s signature date.

(f) An OER failing to process in the sequence desired by the rater is not a basis for appealing the OER. Proper sequencing of OERs impacts Soldiers’ personnel actions, especially those concerning HQDA selection boards. Raters will verify if rated officers have completed a multi-source assessment and feedback (MSAF) in accordance with AR 350–1 and will annotate the most current completed MSAF date in part II, block g of DA Form 67-10-1, DA Form 67-10-2, and DA Form 67-10-3 OERs. If an MSAF has not been completed in accordance with AR 350–1, part II, block g of the OER will be left blank. The rater must explain the absence of an entered date for the MSAF. The absence of an MSAF completion date does not automatically make an evaluation report referred, but rather depends on the reason why the MSAF was not completed in accordance with AR 350–1. For CSL LTC and COL level commanders, the most recent completed CDR360 assessment date will be entered in lieu of the MSAF date.

(g) The rater will forward to the senior rater (or intermediate rater, if applicable) the DA Form 67–10–1A and OER with their portions completed.

b. For DA Forms 2166–8–1.

(1) Beginning of the rating period. At the beginning of the rating period, the rater will inform the rated NCO of the complete rating chain and will ensure that the correct rating chain is recorded on DA Form 2166–8–1. Raters will use DA Form 2166-8-1 to prepare for, conduct, and record results of performance counseling with rated NCOs. Its use is mandatory for counseling all NCOs, CPL through CSM. The purpose of DA Form 2166–8–1 is to improve performance counseling by providing structure and discipline to the counseling process. The rater will provide each rated NCO copies of the rater’s and senior rater’s DA Forms 2166-8-1.
The rater will conduct a face-to-face counseling session with the rated NCO within the first 30 days of the rating period.

This initial discussion will focus on duties, responsibilities, and performance objectives of the rated NCO. Additionally, the rater will discuss and establish goals for supporting the EO and EEO programs, fostering a climate of dignity and respect, adhering to the SHARP Program, and eliminating sexual harassment and sexual assault in their unit. While correspondence and telephone conversations may be used as an alternative because of geographic separation, a face-to-face discussion between the rated NCO and rater will occur at the earliest opportunity. Rating officials will ensure a follow-up face-to-face meeting occurs once the rated NCOs objectives are presented on DA Form 2166-8-1 at the beginning of the rating period. The rater will initiate DA Form 2166–8–1 to document goals and objectives discussed. The rater will use the official rating chain described in paragraph 2–3, and will ensure that the rating chain is published and kept up-to-date. The rater will provide a copy of the DA Form 2166–8–1 to the rated NCO and will notify him or her of any changes to the rating chain.

During the rating period. Raters of NCOs will maintain the working copy of DA Form 2166–8–1 and will update the DA Form 2166-8-1 for mandatory counseling sessions.

(a) Raters will conduct follow-up counseling sessions quarterly for Regular Army and AGR NCOs and at least semiannually for USAR TPU, DIMA, and drilling IRR NCOs and ARNG NCOs (in accordance with apps G and H).

(b) The rater is responsible for completing parts I, II, III, IV, V, block a, and V, block b of the NCOER, including the APFT performance entry and date and the height and weight entry, including verification of compliance with AR 600-9 in part IV, block c (or an explanation of missing APFT and/or height and weight entries) (see DA Pam 623–3 for procedural guidance).

(c) The rater will assess the performance and potential of the rated NCO, SGT through CSM, using all reasonable means to prepare a fair and correct NCOER that accurately reflects an evaluation of the NCO’s duty performance, values, NCO responsibilities, and potential.

1. The rater will ensure that APFT and height and weight entries, to include compliance with AR 600-9, are entered in accordance with the procedural guidance in DA Pam 623–3.

2. Special care will be taken to ensure the specific bullet comments support appropriate “Excellence,” “Success,” or “Needs Improvement” ratings in part IV, blocks a through f (see DA Pam 623–3).

3. End of the rating period. The rater will review the final DA Form 2166–8–1 when preparing the NCOER. The rater will include the Soldier’s duty description from the rated NCO’s final DA Form 2166–8–1 and may include performance-related information for the NCOER. However, the choice of what to enter on the NCOER is ultimately up to the rater.

(a) The rater will provide comments on how well the rated NCO promoted a climate of dignity and respect and adhered to the requirements of the SHARP Program in Part IV, block d of DA Form 2166-8. This assessment should identify, as appropriate, any significant actions or contributions the rated NCO made toward—

1. Promoting the personal and professional development of subordinates;
2. Ensuring the fair, respectful treatment of unit personnel; and
3. Establishing a workplace and overall command climate that fosters dignity and respect for all members of the unit.

4. This assessment should also identify any failures by the rated NCO to foster a climate of dignity and respect and adhere to the SHARP Program.

5. Raters will comment on any substantiated finding, in an Army or DOD investigation or inquiry, that the rated NCO—

a. Committed an act of sexual harassment or sexual assault;

b. Failed to report a sexual harassment or sexual assault;

c. Failed to respond to a complaint or report of sexual harassment or sexual assault; or

d. Retaliated against a person making a complaint or report of sexual harassment or sexual assault.

e. After the rater reviews the final DA Form 2166–8–1, they will sign and date it to acknowledge the review.

f. The rater will forward both the NCOER and the final DA Form 2166–8–1 to the senior rater to assist in their completion of the NCOER.

3–8. Intermediate rater (DA Form 67–10 series only)

If an intermediate rater exists in the rating chain, he or she will receive a copy of the rated officer’s DA Form 67-10-1A with the rated officer’s goals and objectives at the beginning of the rating period and a completed DA Form 67-10-1A, which includes the rated officer’s contributions, at the end of the rating period.

(a) The intermediate rater will—

1. Review the rated officer’s final DA Form 67–10–1A when preparing the OER. The narrative in the OER, part V, may be based on the rated officer’s final DA Form 67–10–1A.

2. Complete the OER, part V (see DA Pam 623–3 for procedural guidance). This is the only part completed by the intermediate rater and will be an assessment of the officer’s performance and potential during the rating period.
(a) Performance evaluations are assessments on how well the rated officer met duty requirements and adhered to the professional standards of the Officer Corps. Performance is evaluated by considering the results achieved, how they were achieved, and how well the officer complied with professional standards.

(b) Potential evaluations are performance-based assessments of the rated officer’s ability, compared to that of his or her contemporaries. Assessment of potential applies to all officers, regardless of their opportunity to be selected for higher positions or grades. It does not take into account such factors as impending release from active duty or retirement; this assessment is continually changing and is reserved for HQDA.

(3) Forward both the final DA Form 67–10–1A and OER to the senior rater.

b. Refer to specific requirements for officers under dual supervision (see para 2–21), chaplains (see app C) and JAGC officers (see app D), if applicable.

3–9. Senior rater

Each rated Soldier will receive a copy of the senior rater’s support form at the beginning of the rating period.

a. For DA Form 67–10 series.

(1) Beginning of the rating period. After the rater has conducted a face-to-face counseling session with the rated officer, the senior rater will—

(a) Review, approve, and initial the draft DA Form 67–10–1A.

(b) Ensure that DA Form 67–10–1A is returned to the rater and rated officer.

(2) During the rating period. The senior rater will obtain, through a variety of means, (for example, personal observation and/or various forms of communication from the rater, rated officer, and/or others) information regarding the rated officer’s duty performance and potential.

(3) End of the rating period. The senior rater will—

(a) Review the completed DA Form 67–10–1A at the time the OER is prepared. Afterwards, they will initial and date the DA Form 67–10–1A to acknowledge the review.

(b) Complete the OER, parts VI, blocks a through d for DA Form 67–10–1, DA Form 67–10–2, DA Form 67–10–3, and part V for DA Form 67–10–4 (see DA Pam 623–3 for procedural guidance).

Note. Part VI, block a, is completed on officers in ranks of 2LT through COL and warrant officers in ranks of WO1 through chief warrant officer four (CW4).

l. In part VI, block a, the senior rater will assess the rated officer’s potential compared to all officers of the same rank. This assessment should be based on officers the senior rater has previously senior rated and those in their current senior rater population.

a. If the potential assessment is consistent with the majority of officers in that grade the senior rater will place an “X” in the “HIGHLY QUALIFIED” box. If the rated officer’s potential exceeds that of the majority of officers in the senior rater’s population, the senior rater will place an “X” in the “MOST QUALIFIED” box. The intent is for the senior rater to use this box to identify the upper-third of officers for each rank. In order to maintain a credible profile, the senior rater must have less than 50 percent of the ratings of a rank in the “MOST QUALIFIED” top box. Fifty percent or more in the top box will result in a “HIGHLY QUALIFIED” label. If the rated officer’s potential is adequate, but beneath the majority of officers in the senior rater’s population for that grade and the senior rater believes the rated officer should be retained for further development, the senior rater will place an “X” in the “QUALIFIED” box. If the rated officer’s potential is below the majority of officers in the senior rater’s population for that grade and the senior rater does not believe the rated officer should be retained on active duty, the senior rater will place an “X” in the “UNQUALIFIED” box.

Note. In order to maintain a credible profile, the senior rater must have less than 50 percent of the ratings in the “MOST QUALIFIED” box for a given rank. An OER with a “MOST QUALIFIED” rating that causes a senior rater’s profile to have 50 percent or more “MOST QUALIFIED” ratings will be processed with a “HIGHLY QUALIFIED” HQDA electronically generated label (see DA Pam 623–3); however, it will be charged against the senior rater’s profile as a “MOST QUALIFIED” OER if it is unresolved, and a documented senior rater profile misfire will occur. In instances when the “Multi-Star Potential” box was selected in conjunction with the “MOST QUALIFIED” rating, and a documented senior rater profile misfire occurs resulting in a “HIGHLY QUALIFIED” HQDA electronically generated label, the “Multi Star Potential” box will become “Promote to BG” assessment when the documented misfire occurs and the report processes with a “HIGHLY QUALIFIED” HQDA electronically generated label.

b. To ensure maximum rating flexibility when rating populations change or to preclude a top box check from inadvertently profiling as a “HIGHLY QUALIFIED” rating, senior raters need to maintain a “cushion” in the number of “MOST QUALIFIED” ratings given rather than impending to the line at less than 50 percent.

c. For senior raters first establishing a profile (separate by grade), only one of the first four OERs received for processing at HQDA for any given grade may be rated as “MOST QUALIFIED”.

d. All OERs will receive a HQDA electronically generated label that reflects the senior rater’s profile at the time the OER processes, based on the date of receipt.

e. For DA Form 67–10–3 (Strategic Grade Plate O6): If the potential assessment is consistent with the majority of officers in that grade, the senior rater will place an “X” in the “RETAIN AS COLONEL” box. If the rated officer’s potential exceeds that of the majority of officers in the senior rater’s population, the senior rater will place an “X” in
the “PROMOTE TO BG” or “MULTI-STAR POTENTIAL” box (as applicable). The senior rater will use these upper two boxes when identifying the upper-third of officers for each rank, with further stratification by use of the “MULTI-STAR POTENTIAL” box (as applicable). If the rated officer’s potential is below the majority of officers in the senior rater’s population for that grade, and the senior rater does not believe the rated officer should be retained on active duty, the senior rater will place an “X” in the “UNSATISFACTORY” box.

Note. In order to maintain a credible profile, senior raters must maintain a cumulative percentage of the upper two boxes combined (“MULTI-STAR POTENTIAL” and “PROMOTE TO BG”) less than 50 percent of the ratings for a given rank and/or the “MULTI-STAR POTENTIAL” box not to exceed 24 percent of the ratings for a given rank. A report with a “MULTI-STAR POTENTIAL” rating that causes a senior rater’s profile to exceed 24 percent of ratings for a given rank will be processed as a “PROMOTE TO BG” only if the cumulative percentage of the upper two boxes combined (“MULTI-STAR POTENTIAL” and “PROMOTE TO BG”) is less than 50 percent of ratings for a given rank. If the combined cumulative percentage of the upper two boxes is 50 percent or more, the report will be then be processed with a “RETAIN AS COLONEL” HQDA electronically generated label. A report with a “PROMOTE TO BG” rating that causes a senior rater’s profile cumulative percentage of the upper two boxes combined of 50 percent or more of the ratings for a given rank, will be processed with a “RETAIN AS COLONEL” HQDA electronically generated label. A senior rater credit of 5 “RETAIN AS COLONEL” will be awarded to the senior raters profile allowing use of the top two boxes (“MULTI-STAR POTENTIAL” and “PROMOTE TO BG”) immediately. This provides flexibility to senior raters and eliminates some of the issues associated with immature profiles.

f. All reports will receive an HQDA electronically generated label that reflects the senior rater’s profile at the time the report processes, based on the date of receipt.

2. The officer’s overall potential is an assessment of the rated officer’s overall potential when compared with all other officers of the same rank the senior rater has previously rated, or currently has in their population.

Note. Promotable officers with a “P” after their current rank, serving in an authorized position of the next higher rank, are considered as officers of the next higher rank in making comparative assessments with contemporaries. See chapter 4, paragraph 4-7h for important information concerning administrative corrections.

3. The senior rater will enter the total number of Army officers of the same rank as the rated officer he or she currently senior rates (for DA Form 67-10-1, DA Form 67-10-2, and DA Form 67-10-3). This information, in conjunction with additional information contained on the HQDA electronically-generated label, will help HQDA selection boards identify senior raters with small rating populations and weigh the report accordingly.

4. The narrative for part VI, block c on DA Form 67-10-1, DA Form 67-10-2, and DA Form 67-10-3 and Part V on DA Form 67-10-4 may be based in part on the rated officer’s final DA Form 67-10-1A. However, the choice of what to enter on the OER is ultimately up to the senior rater.

5. Senior raters will comment on any substantiated finding, in an Army or Department of Defense investigation or inquiry, that a rated officer:
   a. Committed an act of sexual harassment or sexual assault.
   b. Failed to report a sexual harassment or assault.
   c. Failed to respond to a complaint or report of sexual harassment or sexual assault.
   d. Retaliated against a person making a complaint or report of sexual harassment or sexual assault.
   e. The senior rater will identify successive duty positions for which the rated officer is best suited, focusing 3 to 5 years out.

Note. Three successive duty positions will be listed on DA Form 67-10-1, DA Form 67-10-2, and DA Form 67-10-3 OERs – to include retirement and “Relief for Cause” OERs. An exception to this rule exists for OERs on which the rater indicates “UNSATISFACTORY” and the senior rater indicates a rating of “NOT QUALIFIED” (for DA Form 67-10-1 and DA Form 67-10-2), or when rater performance and potential comments require the evaluation report to be referred and the senior rater indicates “UNSATISFACTORY” (for DA Form 67-10-3). On these OERs only, no successive duty positions are required (see DA Pam 623–3).

   (c) Initial the final DA Form 67–10–1A to verify review and ensure it is returned to the rated officer.
   (d) Forward the completed OER to the officer for signature before processing to HQDA.
   (e) Ensure timely submission of OERs to HQDA (to arrive no later than 90 days after the “THRU” date of the OER or as stipulated in a MILPER message announcing an HQDA-level selection board), in the desired sequence, for processing at HQDA and filing in the rated officer’s AMHRR. The senior rater maintains responsibility for the OER until it is filed in the AMHRR.

1. OERs are processed and profiled and the HQDA electronically-generated labels are applied daily as OERs are received, regardless of the “THRU” date of the OER and the senior rater’s signature date.

2. An OER failing to process in the sequence desired by the senior rater is not a basis for appealing the OER. Proper sequencing of OERs impacts Soldiers’ personnel actions, especially those concerning HQDA selection boards.

3. “Complete the Record” and other types of evaluation reports for HQDA-level board consideration must be submitted in time to arrive no later than the date established in the MILPER message announcing the board.

4. The Evaluation Entry System and the “Senior Rater Evaluation Timeliness” report, a component of the “Senior Rater Profile” report, are tools to assist senior raters in fulfilling their responsibilities.

b. For DA Form 2166-8. (NCOER)

   (1) Beginning of the rating period. The senior rater will review, approve, and initial a draft DA Form 2166–8–1 to
verify the face-to-face counseling between the rater and the rated NCO. The senior rater will also ensure compliance with Army evaluation counseling requirements.

(2) **During the rating period.** The senior rater will—
   
   (a) Obtain through a variety of means (for example, personal observation and/or various forms of communication from the rater, rated NCO, and/or others) information regarding the rated NCO’s duty performance and potential, and mentor subordinates, as appropriate.
   
   (b) Initial the DA Form 2166–8–1 to verify follow-up counseling dates and ensure the DA Form 2166-8-1 is returned to the rater.

(3) **End of the rating period.** Review the final DA Form 2166–8–1 at the time the NCOER is prepared. This DA Form 2166-8-1 will be routed with the NCOER through the review process. The senior rater is primarily responsible for evaluating the NCO’s potential and providing oversight of the evaluation process. The senior rater will—
   
   (a) Prepare an honest, fair, and correct NCOER evaluating the NCO’s duty performance and potential. Comments will support the performance and potential ratings in part V, blocks c through e of NCOER (see DA Pam 623–3).
   
   (b) Enter a senior rater statement in part V, block e of the NCOER explaining the reason why counseling was not accomplished when counseling was not completed and counseling dates are omitted from the NCOER.
   
   (c) Verify that specific bullet comments support the appropriate box checks in part IV, block a through part V, block a, of the NCOER (see DA Pam 623–3).
   
   (d) Initial the DA Form 2166–8–1 and ensure it is returned to the rater when the completed NCOER is forwarded to HQDA.
   
   (e) “Complete the Record” and other types of NCOERs for HQDA-level board consideration must be submitted in time to arrive no later than the date established in the MILPER message announcing the board.
   
   (f) Ensure timely submission of NCOERs, in the desired sequence, for processing at HQDA and filing in the rated NCO’s AMHRR. The senior rater maintains responsibility for the NCOER until it is filed in the AMHRR.
   
   (g) Senior raters will comment on any substantiated finding, in an Army or Department of Defense investigation or inquiry, that a rated NCO: committed an act of sexual harassment or sexual assault; failed to report a sexual harassment or assault; failed to respond to a complaint or report of sexual harassment or sexual assault; or retaliated against a person making a complaint or report of sexual harassment or sexual assault.

3–10. Reviewer (DA Form 2166–8)

The reviewer has the overarching role of validating the accuracy of NCOERs and instilling fairness within the evaluation process. Other review or supplementary review requirements apply to OERs and AERs (see paras 2–15, 2–16, 2–17, and 3–54 and DA Pam 623–3). The reviewer will—

a. Ensure that evaluations are rendered by the proper rater and senior rater (in accordance with the established rating scheme) and they are clear, consistent, and just, based on known facts.

   (1) When the reviewer determines that the rater and/or senior rater have not evaluated the rated NCO in an appropriate manner, based on known facts, the reviewer’s first responsibility is to consult with one or both rating officials to determine the basis for the apparent discrepancy.

   (2) The reviewer may not direct the rater and/or senior rater to change an evaluation believed to be an honest assessment.

b. Indicate concurrence or nonconcurrence with the rater and/or senior rater by annotating the appropriate box with an “X” in part II.

   (1) If the rater and/or senior rater acknowledge a discrepancy and revise the NCOER so the reviewer agrees with the evaluation, the reviewer will check the “Concur” box in part II.

   (2) If the rater and/or senior rater fail(s) to acknowledge a discrepancy and indicate(s) that the evaluations reflect honest opinions, the reviewer checks the “Nonconcur” box in part II. The reviewer will provide a nonconcurrence memorandum as an enclosure to the NCOER to clarify the situation and render their opinion regarding the rated NCO’s performance and potential evaluations (see fig 2–6).

### Section IV

**Rater Profile Report, Senior Rater Profile Report, and Senior Rater Evaluation Timeliness Report**

3–11. **“Rater Profile” and “Senior Rater Profile” reports**

a. **“Rater Profile” report.** Tracks the rating history of each rater for officers of all components by rank (2LT through LTC) and warrant officers by rank (WO1 through CW5). Raters do not maintain a profile on officers in the ranks of COL and above. Retired officers recalled to active duty are not included in the profile population (see paras 3–2g and 3–32). HQDA makes this information in the profile and other administrative information available to the rater or rater’s designated representative using the “Rater Profile” report.

   (1) For officers in applicable ranks, the rater’s profile as reflected on the “Rater Profile report” will—

   (a) Emphasize the importance of the rater’s role and responsibility to provide credible information to HQDA. This is
one of the rater’s most critical actions. It affects decisions regarding the Army’s future leadership and has great impact on how the Army accomplishes its missions.

(a) Emphasize the importance of a rater’s sequencing of OER submissions. Within a rater’s profile, HQDA will always process OERs daily in the order received, based on the date of receipt, regardless of the “THRU” date of the OER. Evaluation reports received on the same day (batch processed) will be identically incremented against the rater’s profile.

(b) Provide information to HQDA selection boards and the Army leadership on the rater’s profile history as a means of disciplining the rating system. For example, raters must maintain an “EXCELS” percentage of less than 50 percent for LTCs and below on company and field grade plate reports (see DA Pam 623–3).

(c) Continue without interruption as the rater (in either a military or civilian status) moves from job to job.

(d) Follow the rater as long as he or she is eligible to provide rater evaluations to Army officers in applicable grades.

(e) Be authorized for placement (first page summary) in the rater’s AMHRR and may be updated annually or as necessary.

2. The first page of “the Rater Profile” report consists of three sections. The top portion shows administrative data; the left side of the report shows current OER profile information (that is, profile information since the last restart); and the right side shows profile information that is cumulative, irrespective of any restart.

3. The second (and subsequent, if any) page of a “Rater Profile” report provides a chronological by-name and by-rank list of all officers rated by the rating official, and the HQDA electronically generated label applied to their OERs. (This listing allows raters the ability to “check the system” and track how and when their ratings are profiled at HQDA.) Within a rater’s profile, HQDA will always process OERs in the order they are received.

4. For assistance in managing rater profiles and OER sequencing, raters are encouraged to use the Evaluation Entry System portal and the online “Rater Profile” report. The Evaluation Entry System portal is designed to give visibility to raters and their designated representatives on the processing of OERs for the rater’s profile. Users will need a common access card (CAC). The Evaluation Entry System portal and “Rater Profile” report are accessible at the https://evaluations.hrc.army.mil/index.html.

5. Evaluation reports received at HQDA containing an “EXCELS” rating for a particular grade not supported by the rater’s profile (that is, a report received causing the rater’s profile, for a particular grade, to be greater than the allowable percentage) will result in the evaluation report receiving a “PROFICIENT” HQDA label, with initial “EXCELS” rating counting against the raters “EXCELS” quantities of the rater’s profile. When this occurs, a notification letter indicating noncompliance may be submitted through the rater’s chain of command.

Note. (f) Raters for LTCs and below, on company and field grade plate reports, are required to maintain a rater’s profile percentage of less than 50 percent for rendered OERs, separated by grade in order for the final completed OER to maintain the “EXCELS” HQDA label.

b. “Senior Rater Profile” report. Tracks the rating history of each senior rater for officers of all components by rank (2LT through COL) and warrant officers by rank (WO1 through CW4). Senior raters do not maintain a profile on officers in the ranks of BG and warrant officers in the ranks of CW5. Retired officers recalled to active duty are not included in the profile population (see paras 3–2g and 3–32). HQDA makes this information in the profile and other administrative information available to the senior rater or senior rater’s designated representative using the “Senior Rater Profile” report. In addition, this report provides information on the timeliness of a senior rater’s OER and NCOER submissions to HQDA.

1. For officers in applicable ranks, the senior rater’s profile as reflected on the “Senior Rater Profile” report will—

(a) Emphasize the importance of the senior rater’s role and responsibility to provide credible information to HQDA. This is one of the senior rater’s most critical actions. It affects decisions regarding the Army’s future leadership and has great impact on how the Army accomplishes its missions.

(b) Emphasize the importance of a senior rater’s sequencing of OER submissions. Within a senior rater’s profile, HQDA will always process OERs daily in the order received, based on the date of receipt, regardless of the “THRU” date of the OER. Evaluation reports received on the same day (batch processed) will be identically incremented against the senior rater’s profile.

(c) Provide information to HQDA selection boards and the Army leadership on the senior rater’s profile history as a means of disciplining the rating system. For example, senior raters must maintain a “MOST QUALIFIED” percentage of less than 50 percent on OERs (see DA Pam 623–3).

(d) Continue without interruption as the senior rater (in either a military or civilian status) moves from job to job.

(e) Follow the rater as long as they are eligible to provide rater evaluations to Army officers in applicable grades.

(f) Be authorized for placement (first page summary) in the rater’s AMHRR and may be updated annually or as necessary.

2. The first page of “Senior Rater Profile” report consists of three sections: the top portion shows administrative data; the left side of the report shows current OER profile information (that is, profile information since the last restart); and the right side shows profile information that is cumulative, irrespective of any restart.
(3) The second (and subsequent, if any) page of a “Senior Rater Profile” report provides a chronological by-name and by-rank list of all officers senior rated by the rating official, and the HQDA electronically generated label applied to their reports. (This listing allows senior raters the ability to check the system and track how and when their ratings are profiled at HQDA.) Within a senior rater’s profile, HQDA will always process OERs in the order they are received.

(4) For assistance in managing senior rater profiles and OER sequencing, senior raters are encouraged to use the Evaluation Entry System portal and the online “Senior Rater Profile” report application along with the “Senior Rater Evaluation Timeliness” report. The Evaluation Entry System is designed to give visibility to senior raters and their designated representatives on the processing of OERs for the senior rater’s profile. Users will need a CAC. The Evaluation Entry System portal and “Senior Rater Profile” report are accessible at https://evaluations.hrc.army.mil/.

(5) Evaluation reports received at HQDA containing a “MOST QUALIFIED”, “MULTI-STAR POTENTIAL,” or “PROMOTE TO BG” rating for a particular grade, not supported by the senior rater’s profile (that is, a report received causing the senior rater’s profile, for a particular grade, to be greater than the allowable percentage) will result (if unresolved) with the evaluation report receiving a HQDA label supported by the next lower rating (that is, “MOST QUALIFIED” receiving a “HIGHLY QUALIFIED” or “MULTI-STAR POTENTIAL” receiving a “PROMOTE TO BG” or “RETAIN AS COLONEL” (as applicable) HQDA label) with the initial rating (as indicated by the senior rater) counting against the senior rater’s profile. Evaluation reports unresolved by senior raters for durations greater than 60 days after receipt to HQDA will result in HQDA automatically processing the evaluation report as a documented misfire (as indicated above). When this occurs, a notification letter indicating noncompliance may be submitted through the senior rater’s chain of command.

Note. For senior raters of LTCs and below, for the final completed OER to maintain the “MOST QUALIFIED” HQDA label, senior raters are required to maintain a profile percentage of less than 50 percent for rendered OERs, separated by grade. For senior raters of COLs, senior raters must manage the upper two assessment boxes. When managing the upper two boxes for COLs, the “MULTI-STAR POTENTIAL” box cannot exceed 24 percent of rendered reports, separated by grade and/or the cumulative percentage of the upper two boxes combined must be less than 50 percent of rendered reports, separated by grade.

(6) The “Senior Rater Evaluation Timeliness” report resides as a section of the “Senior Rater Profile” report and has two parts—

(a) The timeliness report compiles information on Army evaluation reports submitted on rated Soldiers after 1 January 2011, by rank.

Note. The timeliness report was reset Armywide on 1 January 2011. It displays the total number of evaluation reports submitted, the total number of OERs and NCOERs submitted to HQDA on time (received no later than 90 days after the “THRU” date of OERs and NCOERs, and the percentage of evaluation reports submitted to HQDA on time. This cover page is authorized for placement in the senior rater’s AMHRR and can be updated annually, or as necessary.

Note. Data for ARNG NCOERs will not display on the “Senior Rater Evaluation Timeliness” report. ARNG NCOERs are not processed at the HQDA level as they remain at the state level.

(b) The second (and subsequent, if any) page displays administrative information on the specific OERs and NCOERs that were not submitted on time.

(c) A senior rater may view his or her evaluation timeliness report at any time using the online “Senior Rater Profile” report application, which is accessible from the same location indicated for the Evaluation Entry System portal in paragraph (4).

3–12. Rater and senior rater profile restarts

a. Rater profile restarts. All requests for rater profile restarts will be reviewed with a determination made by HRC, Evaluation Policy Branch (AHRC–PDV–E), for Regular Army, USAR, and ARNG OERs (see app F).

1. A rater may request to restart a profile in a particular grade only after—

(a) A total of six OERs have processed against that grade at HQDA (that is, completed processing through HQDA).

(b) The rater has obtained written authorization from the first two-star level general officer CDR (or equivalent) within his or her organization.

(c) The rater has a documented misfire in the grade for restart. A documented misfire is an OER submitted to HQDA with a box check “EXCELS” on the OER in part IV, which is not supported by the rater’s profile for that grade and labeled by HQDA as a “PROFICIENT” on the final OER. The “EXCELS” box check will still be reflected in the rater’s profile numbers.

2. To restart an entire profile, the profile for a single grade, or any portion of the profile, a rater will personally contact the Evaluation Systems and Policy office, HRC (see app F). No restart will be made until the rater and the Evaluation Systems and Policy office agree to the effective date and grades to be affected. Any previously applied profile credits will not be included for profiles approved for restarts.

3. Profile restarts will become effective the first date of a given month and will impact all OERs received after the agreed upon date. All incoming OERs with rater signature dates before the effective date of the restart will process, profile, and be labeled against the old profile. All OERs dated on or after the effective date of the profile restart will process, profile, and be labeled against the new profile. An OER may have the wrong profile applied if the rater
manually signs an OER and an arbitrary date is entered erroneously by the rater’s representative or administrative office. This procedure does not determine the sequencing of OERs in the rater’s profile. DA Pam 623–3 discusses how OERs are processed and rater profiles are determined.

b. Senior rating profile restarts.

(1) A senior rater may request to restart a profile in a particular grade only after—

(a) Three OERs have processed against that grade at HQDA (that is, completed processing through HQDA).

(b) The senior rater has obtained permission or authorization from his or her senior rater.

(c) The senior rater has a documented misfire in the grade for restart. A documented misfire is an OER submitted to HQDA with a box check (“MOST QUALIFIED”, “MULTI-STAR POTENTIAL”, “PROMOTE TO BG”) on the OER (part VI, block a) which is not supported by the senior rater’s profile for that grade and labeled by HQDA as an assessment (“HIGHLY QUALIFIED” or “RETAIN AS COLONEL”) which is supported by the senior rater’s profile on the final OER. The original box check that misfired (“MOST QUALIFIED,” “MULTI-STAR POTENTIAL,” and/or “PROMOTE TO BG”) will still be reflected in the senior rater’s profile numbers. Evaluation reports unresolved by senior raters for durations greater than 60 days after receipt to HQDA will result in HQDA automatically processing the evaluation report as a documented misfire. When this occurs, a notification letter indicating non-compliance may be submitted through the senior rater’s chain of command.

(2) To restart an entire profile, the profile for a single grade, or any portion of the profile, a senior rater will personally contact the Evaluation Systems and Policy office, HRC (see app F). No restart will be made until the senior rater and the Evaluation Systems and Policy office agree to the effective date and grades to be affected. Any previously applied profile credits will not be included for profiles approved for restarts.

(3) Profile restarts will become effective the first date of a given month and will impact all OERs received after the agreed upon date. All incoming OERs with senior rater signature dates before the effective date of the restart will process, profile, and be labeled against the old profile. All OERs dated on or after the effective date of the profile restart will process, profile, and be labeled against the new profile. An OER may have the wrong profile applied if the senior rater manually signs an OER and an arbitrary date is entered erroneously by the senior rater’s representative or administrative office. This procedure does not determine the sequencing of OERs in the senior rater’s profile. DA Pam 623–3 discusses how OERs are processed and senior rater profiles are determined.

Section V
DA Form 1059 and DA Form 1059–1 Roles and Responsibilities

3–13. Commandant responsibilities

Commandants will ensure that—

a. A copy of this regulation is available to the student and rating officials.

b. Each rating official is fully qualified to meet his or her responsibilities.

c. AERs are properly prepared.

d. Each rating official knows how the students performed.

e. Each student receives a copy of the completed AER.

f. Referred AERs (see DA Pam 623–3) are provided to the student for acknowledgment and comment before being sent to HQDA for processing to completion (see DA Pam 623–3).

g. Schools submit completed AERs to the appropriate address at HQDA to arrive within 90 days after the “THRU” date of the AER.

h. The APFT is administered during professional military education and functional training courses for which it is a course graduation requirement.

i. Completed AERs are filed in the rated Soldier’s AMHRR.

3–14. DA Form 1059

The AER-S is used to document the performance, accomplishments, potential, and limitations of Soldiers while attending military schools and courses of instruction or training. The reporting official will be responsible for the qualitative and quantitative assessment of students’ abilities and the accuracy of the information in the completed AER-S. (The time period covered by an AER is counted as nonrated time on the OER or NCOER covering the same period (see para 3–33)). AER-S is also discussed in paragraph 3–49 and DA Pam 623–3.

a. Counseling requirements. Academic performance counseling for Soldiers attending Service schools or military courses of instruction or training will be conducted in accordance with procedures established at the local level by the commandant of the school or the CG, TRADOC.

b. Annual reporting requirement. The preparation of the AER-S is required annually for schools that are longer than 12 months in duration under AR 350–1.

(1) An interim AER-S will be prepared 12 months (1 calendar year) after the beginning of the training program to document the student’s progress at that time.
(2) An additional AER-S will be prepared every 12 months thereafter, or upon completion of the training, whichever occurs first. A final AER-S will be prepared and submitted to HQDA (AHRC–PDV–ER) to arrive no later than 90 days after the completion or termination of training (address in app F).

Note. AERs prepared using the Army Training Requirements and Resources System (ATRRS) DA Form 1059 Preparation Application may be submitted electronically to HQDA; these AERs will be visible in the Evaluation Entry System. For more information on the ATRRS DA Form 1059 Preparation Application, go to the ATRRS Web page at https://www.atrrs.army.mil or email the ATRRS Help Desk at ahelp@asmr.com.

(3) As an exception, one AER-S will be used for courses that are longer than 12 months but no more than 15 months in duration. The AER-S will cover the entire course length.

c. Army physical fitness test and height and weight entries. Soldiers attending institutional training courses (including officer and NCO educational system courses and functional courses in AR 350–1) are expected to meet the Army’s physical fitness and body composition standards. All AERs for professional military education courses beyond initial military training that are 60 days or longer require an APFT and height and weight screening (body composition compliance in accordance with AR 600–9). The APFT, height and weight, and verification of compliance with AR 600–9 results will be entered on the AER. (DA Pam 623–3 provides procedural guidance.)

d. Uncompleted course requirement. For students who are released from, or resign from, a course early through no fault of their own, approved retirement, or resignation from military service, concise details about the early release will be explained in the rater’s narrative (DA Pam 623–3).

e. Active duty personnel.

(1) Commandants of Army (or other DOD branch) schools (also known as “Service schools”) and NCO academies will be responsible for preparing DA Form 1059 and submitting them to HQDA (or appropriate headquarters) to arrive no later than 90 days after the student’s graduation or termination from the school or academy (see paras 3–33 and 3–49). In preparing these reports, all significant information that can be evaluated will be reported. The same care and attention will be exercised in preparing AERs as is exercised in preparing OERs and NCOERs.

(2) School commandants or training division or BDE CDRs will ensure that AER comments are based on observation of a student’s qualities, strengths, weaknesses, deficiencies, and overall performance.

(3) Appropriate evaluation reports will be submitted for Soldiers assigned a principal duty before the start of an AER-producing course, between courses, or after a course. OERs will be prepared for all officers, and NCOERs will be prepared for all NCOs, if appropriate, whose principal duties are other than a student. They will be submitted under the provisions of this regulation.

(4) For AMEDD schools, see appendix E in addition to paragraphs 3–26 through 3–28.

(5) Schools will submit AERs to HQDA (or the appropriate headquarters) by mail or e-mail, until electronic submission capability is available, for inclusion in Soldiers’ OMPFs (see app F for address and contact information).

f. Reserve component personnel not on active duty.

(1) The Service school commandant and training division or BDE CDRs will ensure an AER is prepared for students under the following criteria:

(a) Successful course completion.

(b) Unsatisfactory course completion, including termination or failure to complete the course.

(c) For all USAR personnel who attend—

1. A formal resident course of full-time active duty for training (ADT) and annual training (AT).

2. Nonresident courses on inactive duty training (IDT).

(d) Academic evaluation reports are not authorized for USAR or ARNG personnel participating in—

1. Senior reserve component (RC) officer course.

2. Enlisted IDT.

3. United States Military Academy Preparatory School.

4. Officer Candidate School (OCS).

5. Refresher courses of less than 80 hours.

(e) Academic evaluation reports are not required for initial ADT personnel attending their initial advanced individual training MOS-producing course following basic combat training or basic training. If the honor graduate or distinguished graduate of the basic training or the basic training course is in initial ADT, the school commandant will send a letter to the appropriate State AG or area CDR.

(2) The parent USAR school commandant and training division or BDE CDRs will ensure an AER is prepared for each student in a USAR school or training division course. The AER-S will be prepared under the criteria in paragraph 3–14, except when the course length exceeds 1 year. An AER-S will be prepared for the student at the end of each academic year to include both the IDT and ADT phases. The completed AER-S will be forwarded to HQDA by mail (or distributed to HQDA using ATRRS, if prepared using the ATRRS DA Form 1059 Preparation Application) for processing and inclusion in the Soldier’s AMHRR (see app F for address and contact information).

(3) As an exception, one AER-S will be used for courses that are longer than 12 months but no more than 15 months in duration. The AER-S will cover the entire course length.

c. Army physical fitness test and height and weight entries. Soldiers attending institutional training courses (including officer and NCO educational system courses and functional courses in AR 350–1) are expected to meet the Army’s physical fitness and body composition standards. All AERs for professional military education courses beyond initial military training that are 60 days or longer require an APFT and height and weight screening (body composition compliance in accordance with AR 600–9). The APFT, height and weight, and verification of compliance with AR 600–9 results will be entered on the AER. (DA Pam 623–3 provides procedural guidance.)

d. Uncompleted course requirement. For students who are released from, or resign from, a course early through no fault of their own, approved retirement, or resignation from military service, concise details about the early release will be explained in the rater’s narrative (DA Pam 623–3).

e. Active duty personnel.

(1) Commandants of Army (or other DOD branch) schools (also known as “Service schools”) and NCO academies will be responsible for preparing DA Form 1059 and submitting them to HQDA (or appropriate headquarters) to arrive no later than 90 days after the student’s graduation or termination from the school or academy (see paras 3–33 and 3–49). In preparing these reports, all significant information that can be evaluated will be reported. The same care and attention will be exercised in preparing AERs as is exercised in preparing OERs and NCOERs.

(2) School commandants or training division or BDE CDRs will ensure that AER comments are based on observation of a student’s qualities, strengths, weaknesses, deficiencies, and overall performance.

(3) Appropriate evaluation reports will be submitted for Soldiers assigned a principal duty before the start of an AER-producing course, between courses, or after a course. OERs will be prepared for all officers, and NCOERs will be prepared for all NCOs, if appropriate, whose principal duties are other than a student. They will be submitted under the provisions of this regulation.

(4) For AMEDD schools, see appendix E in addition to paragraphs 3–26 through 3–28.

(5) Schools will submit AERs to HQDA (or the appropriate headquarters) by mail or e-mail, until electronic submission capability is available, for inclusion in Soldiers’ OMPFs (see app F for address and contact information).

f. Reserve component personnel not on active duty.

(1) The Service school commandant and training division or BDE CDRs will ensure an AER is prepared for students under the following criteria:

(a) Successful course completion.

(b) Unsatisfactory course completion, including termination or failure to complete the course.

(c) For all USAR personnel who attend—

1. A formal resident course of full-time active duty for training (ADT) and annual training (AT).

2. Nonresident courses on inactive duty training (IDT).

(d) Academic evaluation reports are not authorized for USAR or ARNG personnel participating in—

1. Senior reserve component (RC) officer course.

2. Enlisted IDT.

3. United States Military Academy Preparatory School.

4. Officer Candidate School (OCS).

5. Refresher courses of less than 80 hours.

(e) Academic evaluation reports are not required for initial ADT personnel attending their initial advanced individual training MOS-producing course following basic combat training or basic training. If the honor graduate or distinguished graduate of the basic training or the basic training course is in initial ADT, the school commandant will send a letter to the appropriate State AG or area CDR.

(2) The parent USAR school commandant and training division or BDE CDRs will ensure an AER is prepared for each student in a USAR school or training division course. The AER-S will be prepared under the criteria in paragraph 3–14, except when the course length exceeds 1 year. An AER-S will be prepared for the student at the end of each academic year to include both the IDT and ADT phases. The completed AER-S will be forwarded to HQDA by mail (or distributed to HQDA using ATRRS, if prepared using the ATRRS DA Form 1059 Preparation Application) for processing and inclusion in the Soldier’s AMHRR (see app F for address and contact information).

(3) As an exception, one AER-S will be used for courses that are longer than 12 months but no more than 15 months in duration. The AER-S will cover the entire course length.

c. Army physical fitness test and height and weight entries. Soldiers attending institutional training courses (including officer and NCO educational system courses and functional courses in AR 350–1) are expected to meet the Army’s physical fitness and body composition standards. All AERs for professional military education courses beyond initial military training that are 60 days or longer require an APFT and height and weight screening (body composition compliance in accordance with AR 600–9). The APFT, height and weight, and verification of compliance with AR 600–9 results will be entered on the AER. (DA Pam 623–3 provides procedural guidance.)

d. Uncompleted course requirement. For students who are released from, or resign from, a course early through no fault of their own, approved retirement, or resignation from military service, concise details about the early release will be explained in the rater’s narrative (DA Pam 623–3).
complete the Advanced Leaders Course (ALC) common curriculum (phase 1). A DA Form 1059 is not awarded to Soldiers unless there is no ALC technical phase for a Soldier’s MOS.

3–15. DA Form 1059–1
This type of AER is rendered for Soldiers who attend a civilian education, medical, or industrial institution. Specific responsibilities for these reports are listed below. The U.S. Army Soldier Support Center is responsible for initiating DA Form 1059–1 for active Army Soldiers attending schooling at a civilian institution on a permanent change of station (PCS) of 20 weeks or more (AR 350–1, AR 621–1, and AR 621–7).

Note. The time period covered by an AER is counted as nonrated time on the OER or NCOER covering the same period (para 3–33).

a. AER-C performance counseling for Soldiers attending a civilian educational, medical, or industrial institution will be conducted in accordance with procedures established at the local level by the dean of the institution or appropriate civilian official.

Note. The time period covered by an AER is counted as nonrated time on the OER or NCOER covering the same period (see para 3–33).

b. Appropriate evaluation reports will be submitted prior to officers attending schooling at civilian institutions.

c. The AHRC Advanced Education Programs Branch (AHRC-OPL-C) (see app F) is responsible for initiating an AER-C for Soldiers attending civilian institutions under AR 351–23. The AER-C will be submitted upon completion or termination of schooling or training except as noted below:

(1) Soldiers attending courses in long-term civilian education programs of more than 12 months under AR 351–23, will receive a DA Form 1059–1 as follows:

(a) An interim report will be prepared 12 months (1 calendar year) after the beginning of the training program to document the student’s progress at that time.

(b) An additional AER-C will be prepared every 12 months thereafter, or upon completion of the training, whichever occurs first. A final AER-C will be prepared and submitted to HRC (AHRC–OPL–L) (address in app F) to arrive no later than 90 days after the completion or termination of training.

(c) In cases where a Soldier is terminated from a training program, concise details about the reason for the termination will be documented in the narrative prepared by the civilian institution.

(2) As an exception, one AER-C will be used for courses that are longer than 12 months but no more than 15 months in duration. The AER-C will cover the entire course length. Master’s degree-level programs will receive only a final AER-C, unless schooling exceeds 24 months.

(3) Soldiers participating in a doctoral degree program will receive an AER-C every 12 months after the beginning of the training program.

(4) Soldiers who graduated from law school under The Judge Advocate General’s (TJAG’S) Funded Legal Education Program (FLEP) (see AR 27–1) will forward two copies of all law school grade transcripts and evidence that a law degree was conferred to Headquarters, Department of the Army (DAJA–PT), Personnel, Plans, and Training Office, Washington, DC 20310–2200, within 60 days after graduation. Within this same period, the evidence that a law degree was conferred will also be given to military personnel officers for entry in personnel records (see para 3–52 and app D regarding civilian education of JAGC officers).

(5) See appendix E regarding civilian education of AMEDD officers.

(6) Unless otherwise stated, AER-Cs completed by the institution and transcripts will be submitted to HRC (AHRC–OPL–L) (address in app F).

42 AR 623–3 ¨ 31 March 2014

d. The installation education services officer will initiate and review the AER-C, if requested by a Regular Army Soldier who has participated in a part-time, after-duty educational degree program. This may be done upon the completion of all requirements for the degree. This AER-C will be forwarded to HQDA (address in app F) for inclusion in the student’s AMHRR. An official transcript of grades will be attached to the AER-C before submission.

Section VI
Restrictions

3–16. Evaluation parameters
Rating officials’ evaluation of a rated Soldier will be limited to the dates included in the rating period of an evaluation report.

a. Each evaluation report will be an individual stand-alone evaluation of the rated Soldier for a specific rating period. An evaluation report will not refer to performance or incidents occurring before or after the period covered or during periods of nonrated time. The determination of whether an incident occurred during the period covered will be based on the date of the actual incident or performance; it will not be based on the date of any subsequent acts, such as the date of its discovery, a confession, or finding of guilt, or the completion of an investigation. Guidance concerning modification of previously submitted OERs is in paragraph 3–36.
b. Exceptions to this policy are granted only in the following situations:

(1) When “Relief for Cause” evaluation reports are based on information pertaining to a previous reporting period (for example, relief of a Soldier found to be involved in some illegal activity during a previous reporting period), they may refer to the prior rating period to explain the reasons for relief (see paras 3–54 and 3–55).

(2) When the most recent APFT performance or profile data occurred prior to the beginning date of the evaluation report, but within 12 months of the “THRU” date of the evaluation report. This exception is allowed in order to comply with APFT requirements (see DA Pam 623–3).

(3) A substantiated EO, EEO, or SHARP complaint as a result of an AR 15–6 investigation (see AR 600–20, evaluation reports).

(4) When a Soldier is assigned to a WTU, designated on a valid rating chain, and receives an evaluation report with a nonrated code “G.”

3–17. Comments

a. Comments will not exceed the space provided on evaluation reports. Additionally, comments must pertain exclusively to the rating period of the evaluation report; comments related to nonrated periods will not be included (that is, schooling, duties performed while suspended, and so forth). Awards and/or special recognition received during the rating period may be cited in evaluation comments (for example, “received the Humanitarian Service Medal” or “named the NCO of the Year”); however, comments related to scholastic achievements are limited to AERs. See paragraph 3–34 for the exceptions pertaining to warrior transition unit (WTU) Soldiers who are performing duty in addition to their healing mission.

b. In preparing their comments, rating officials will convey a precise but detailed evaluation to communicate a meaningful description of a Soldier’s performance and potential. In this manner, both HQDA selection boards and career managers are given the needed information on which to base a decision.

c. Rating officials may consider including in their comments the degree of professionalism demonstrated by the rated Soldier in his or her particular area of expertise. This is particularly pertinent in assessments of specialty branch officers (Chaplain Corps, JAGC, and AMEDD) and those required to maintain certain credentialing or certification standards, foreign language skills, and high-level security clearances.

d. Authorized abbreviations, brevity codes, and/or acronyms found in AR 25–52 may be used in rating officials’ comments. However, other abbreviations, brevity codes, and/or acronyms must be spelled out the first time with the shortened form indicated within parentheses; thereafter, the abbreviation, brevity code, and/or acronym may be used alone. The use of abbreviations, brevity codes, and/or acronyms will be limited for clarity of content.

3–18. Prohibited narrative techniques

A thorough evaluation of the whole Soldier is required. The following techniques will not be used:

a. Brief, unqualified superlatives or phrases, particularly if they may be considered trite.

b. Too brief comments, excessive use of technical acronyms, or phrases not commonly recognized. These frequently need to be interpreted by selection boards and career managers. If they are not correctly interpreted, the best interests of the Army and the rated Soldier are not served.

c. Bullet comments.

(1) Appropriate bullet comments are required for NCOERs.

(2) Bullet comments are not acceptable for OERs or AERs.

d. Any technique aimed at making specific words, phrases, or sentences stand out from the rest of the narrative, including, but not limited to the following:

(1) Underlining.

(2) Excessive use of capital letters.

(3) Unnecessary quotation marks.

(4) Repeated use of exclamation points.

(5) Wide spacing between selected words, phrases, bullets, or sentences to include double spacing within a paragraph or between paragraphs. Rating officials are not authorized any double spacing between performance and potential comments in OERs (parts V, block b and VII, block c).

(6) Italic, bold text, and similar font techniques.

(7) Compressed type or spacing.

(8) Handwritten comments. An exception is made for DA Form 67-10-4 OER, parts IV, block b and part V for evaluations on BGs and on DA Form 67-10-2 parts IV, blocks d; IV block e; and VI block c for evaluations on CW5s, which may be handwritten in black ink. In order to be processed and placed on the Soldier’s AMHRR, reports with handwritten comments must be legible.

(9) Exaggerated margins (“picture framing”). Paragraph indentation (if not excessive) is an acceptable practice if applied as a standard convention of English writing style (OERs only). 

(10) Inappropriate references to box checks (OERs) (for example, a senior rater may not refer to the box check that
would have been given to a rated officer if his or her profile supported it, or characterization of the rated officer as a “top box”, “MOST QUALIFIED”, “MULTI-STAR POTENTIAL” officer).

(11) Specific selection board-type language. Examples of this include, “definitely a 6+ Soldier.”

3–19. Unproven derogatory information
Any mention of unproven derogatory information in an evaluation report can become an appealable matter if later the derogatory information is unfounded.

a. No reference will be made to an incomplete investigation (formal or informal) concerning a Soldier.

b. References will be made only to actions or investigations that have been processed to completion, adjudicated, and had final action taken before submitting an evaluation report to HQDA. For example, rating officials are not prohibited from commenting on a court-martial (judicial), if completed, but the comments should focus on the behavior that led to the court-martial rather than the court-martial itself. If the rated Soldier is acquitted at a court-martial, or found not guilty at a nonjudicial punishment proceeding under Article 15, UCMJ, comments about the underlying incident will not be included in the evaluation, subject to the following exception. Rating officials will ensure that evaluations document any substantiated findings, in an Army or DoD investigation or inquiry, that a rated Soldier committed an act of sexual harassment or sexual assault; failed to report a sexual harassment or sexual assault; failed to respond to a report of sexual harassment or sexual assault; or retaliated against a person making such a report.

c. This restriction is intended to prevent unverified derogatory information from being included in evaluation reports. It will also prevent unjustly prejudicial information from being permanently included in a Soldier’s AMHRR, such as—

(1) Charges that are later dropped.

(2) Charges or incidents of which the rated Soldier may later be cleared.

d. Any verified derogatory information may be entered on an evaluation report. This is true whether the rated Soldier is under investigation, flagged, or awaiting trial. While the fact that a rated Soldier is under investigation or on trial may not be mentioned in an evaluation until the investigation or trial is completed, this does not preclude the rating chain’s reference to verified derogatory information. For example, when an interim evaluation report with verified information is made available to a CDR, the verified information may be included in evaluation reports. For all evaluation reports, if previously reported information later proves to be incorrect or erroneous, the Soldier will be notified and advised of the right to appeal the evaluation report in accordance with chapter 4.

e. Evaluation reports will not be delayed to await the outcome of a trial or investigation unless the rated Soldier has been removed from his or her position and is in a suspended status (see paras 3–54 and 3–55). Upon completion of the trial or investigation, processing of evaluation reports will resume. Evaluation reports will be completed when due and will contain what information is verified at the time of the “THRU” date of the evaluation report.

f. For OERs, when previously unverified derogatory information is later verified, an addendum will be prepared and forwarded to HQDA in accordance with paragraphs 3–36 and 3–38. Rating officials will initiate such an addendum to the OER verified misdeeds or professional or character deficiencies unknown or unverified when the OER was submitted. The addendum will ensure that the verified information will be recorded in the Soldier’s official records. However, it will not be submitted until the completion of the investigation, imposition of punishment, or verification of the information (see DA Pam 623–3 for instructions on how to prepare an addendum memorandum).

3–20. Prohibited comments
Comments that are prohibited will not be included in evaluation reports.

a. The use of inappropriate or arbitrary remarks or comments that draw attention to differences relating to race, color, religion, gender, age, sexual orientation, or national origin is prohibited. Subjective evaluation of a rated Soldier will not reflect a rating official’s personal bias or prejudice (AR 600–20).

b. When a record of nonjudicial punishment under Article 15, Uniform Code of Military Justice (UCMJ) is filed in the restricted portion of the AMHRR, or locally under AR 27–10, AR 600–8–104, or AR 600–37, rating officials may not comment on the fact that such a rated Soldier received nonjudicial punishment. This does not preclude mentioning the rated Soldier’s underlying misconduct, which served as the basis for the nonjudicial punishment.

c. Negative comments about a rated Soldier making protected communications (for example, communications to an Inspector General, member of Congress, a court-martial, or a member of the chain of command designated to receive protected communications, see 10 USC 1034) will not be made in an evaluation report. Such comments could be perceived as a retaliatory action. Service members, in accordance with 10 USC 1034, are not restricted from communicating with these individuals.

d. No remarks about nonrated periods of time, or performance or incidents that occurred before or after the rating period, will be made on an evaluation report except—

(1) “Relief for Cause” evaluation reports based on information pertaining to a previous reporting period. For example, a rating official may relieve a Soldier found to be involved in some illegal activity during a previous reporting period. Reference to the prior rating period may be warranted to explain the reasons for relief (see paras 3–54 and 3–55).
When the most recent APFT performance or profile data occurred prior to the beginning date of the report, but within 12 months of the “THRU” date. This exception allows the rated Soldier to comply with APFT and body composition standards (see DA Pam 623–3).

When a Soldier assigned to a WTU is assigned under a valid rating chain and receives an evaluation report with a nonrated code “G” (see para 3–34).

3–21. Comments about marital status and spouse

Only in rare instances is it appropriate to discuss the rated Soldier’s marital status when evaluating the performance and potential of a rated Soldier.

a. Evaluation comments, favorable or unfavorable, will not be based solely on a rated Soldier’s marital status. For example, statements such as the following will not be permitted: “LTC Doe and his wife make a fine command team” or “As a bachelor, MSG Doe can quickly react to this unit’s contingency missions.”

b. Evaluation comments will not be made about the employment, education, or volunteer activities of a rated Soldier’s spouse. For example, statements such as the following will not be permitted: “Mr. Doe’s participation in post activities is limited by his civilian employment” or “Mrs. Doe has made a significant contribution to our Soldiers’ morale through her caring participation on the hospital volunteer staff.”

c. There are limited circumstances involving actual and/or demonstrable impacts on the rated Soldier’s performance or conduct when comments containing reference to a spouse may be made. These comments will be focused on the rated Soldier’s actions, not those of the spouse. For example, statements such as the following will be permitted: “CPT Doe continued his outstanding, selfless service, despite his wife’s severe illness” or “COL Doe’s intemperate public confrontations with his wife were detrimental to the status as an officer.”

3–22. Classified evaluation reports

Procedures for processing, safeguarding, and accessing classified evaluation reports are unique because of the sensitivity of the information they contain.

a. Normally, evaluation reports will not contain classified information as defined in AR 380–5.

b. Classified evaluation reports require safeguarding and special processing to maintain the integrity of the evaluation report classification. Exceptional cases requiring classification will contain downgrading instructions in accordance with AR 380–5. In addition, each section, part, paragraph, subparagraph, or similar portion will be marked to show the level of classification of the information in it. Unclassified sections will be marked unclassified (Department of Defense Directive (DODD) 5200.2). The evaluation report will be marked so that doubt is eliminated as to which parts contain or reveal classified information.

c. Access to copies of completed classified evaluation reports is restricted to selected HQDA-level personnel (see para 1–12). Local units should maintain copies of submitted evaluation reports in accordance with AR 380–5.

3–23. Prisoners of war

Evaluation reports will not be rendered on rated Soldiers for periods during which they are prisoners of war. The effect, if any, of a rated Soldier’s status as a prisoner of war on other personnel actions, favorable or unfavorable (such as letters of commendation or reprimand), and on actions under Uniform Code of Military Justice (UCMJ) will be governed by the laws and regulations pertaining to the particular action.

3–24. Participation in the Army Substance Abuse Program or a mental health program

a. A rated Soldier who voluntarily enters the Army Substance Abuse Program (ASAP) for an alcohol or drug abuse problem that has not been detected by the chain of command will not be penalized by mention of ASAP participation in an evaluation report. This would discourage voluntary entry in ASAP upon self-recognition of the need for help. In those cases where alcohol and drug abuse has resulted in substandard performance and/or disciplinary problems, subsequent voluntary entry in ASAP does not preclude rating officials from recording substandard performance or disciplinary problems on an evaluation report. Rating officials cannot use information derived from ASAP records in their evaluations. Once a Soldier has been identified in an evaluation report as having an alcohol or drug abuse problem based on information obtained independently of ASAP—

1. Voluntary entry into ASAP or successful rehabilitation will be mentioned only as a factor to the rated Soldier’s credit.

2. The rating chain should note the status of a rated Soldier’s rehabilitation progress or outcome in the current evaluation or in later evaluation reports.

b. A rated Soldier who voluntarily seeks mental health counseling or is entered into a mental health care program for behavioral health issues that have not been detected by the chain of command will not be penalized by mention of this participation in a behavioral health treatment program in an evaluation report. Doing so would discourage self-referral to obtain assistance from health care professionals when problems exist. In accordance with the Army’s behavioral health goals, leaders should support and encourage Soldiers to obtain the necessary assistance for behavioral health issues (see para 3–5b (2)(c)). This lessens the stigma associated with issues that warrant psychological care and
treatment. Behavioral health issues include a variety of unusual or inappropriate behaviors that may be associated with post-traumatic stress disorder, mild traumatic brain injuries, combat stress or other stress, and/or suicidal thoughts or tendencies. Once a Soldier has been identified in an evaluation report as having mental health issues based on information obtained independently of any information from health care personnel—

1. Voluntary entry into mental health counseling or a mental health care program, or evidence of successful treatment to remedy the original behavioral health issue, will be mentioned as a factor to the rated Soldier’s credit.

2. The rating chain should note the status of a rated Soldier’s behavioral health improvement and/or maintenance of an improved status in the evaluation report covering the period during which the Soldier’s status improved.

3–25. Evaluation of adverse actions

Adverse actions encompass a variety of situations that are not in accordance with the Army Values, acceptable leadership actions, skills, attributes, and/or good order and discipline, which need to be addressed appropriately in evaluation reports.

a. In addition to addressing the special interest items mentioned in paragraph 3–5b(2) in the counseling and evaluation processes, AR 600–20 allows that the following items may be mentioned in a Soldier’s evaluation report, when substantiated by a completed command or other official investigation (for example, CDR’s or commandant’s inquiry, AR 15–6 investigation, EO investigation, and/or investigations by official military or civil authorities):

1. Criminal acts.
2. Conviction of a driving under the influence charge.
3. Acts of sexual misconduct or physical or mental abuse.
4. Inappropriate or unprofessional personal relationships.
5. Involvement in extremist organizations and/or activities.
7. Behavior that is inconsistent or detrimental to good order, conduct, and discipline.
8. Activities or behavior otherwise prohibited by AR 600–20.

b. The following items require comments on evaluation reports when substantiated by an Army or DOD investigation or inquiry (see also AR 600–20).

1. Substantiated EO complaints.
2. Substantiated findings of sexual harassment (SH) and/or sexual assault (SA).
3. Substantiated failure to report a sexual harassment and/or sexual assault.
4. Substantiated failure to respond to a complaint or report of sexual harassment and/or sexual assault.
5. Substantiated retaliation against a person making a complaint or report of sexual harassment and/or sexual assault.

c. The rated Soldier’s participation in an official investigation and/or providing investigating officials information protected under the DOD Whistleblower Act and/or information provided to officials as part of official or unofficial investigations will not be mentioned on Army evaluation reports (see 10 USC 1034).

3–26. Referred DA Form 67–10 series

a. OERs with the following entries are referred or adverse evaluation reports. Such OERs will be referred to the rated officer by the senior rater for acknowledgment and an opportunity to comment before being submitted to HQDA (see DA Pam 623–3 for detailed instructions and process for handling referred OERs).

1. A “FAIL” for the APFT in part IV, block a indicating noncompliance with the standards of AR 350–1; or a “NO” entry for the height and weight indicating noncompliance with the standards of AR 600–9.
3. A rater performance evaluation of “Capable” in part IV (for CGP-OER and FGP-OERs), where the required explanation has derogatory information.
4. A rater potential evaluation in part IV where the required explanation has derogatory information (for SGP-OERs).
5. A senior rater potential evaluation of “Not Qualified” or “Unsatisfactory” in part VI, block a.
6. A senior rater potential evaluation of “Qualified” or “Retain as Colonel” in part VI, block a where the required explanation has derogatory information.
7. Any negative or derogatory comments contained in parts IV, parts V, or parts VI of the evaluation report.

b. A “Relief for Cause” report submitted under the provisions of paragraph 3–54.

Note. Rating officials are reminded AR 600-8-2 explains procedural requirements for a nontransferable flag for “referred” and “Relief for Cause” evaluation reports.

3–27. Referred DA Forms 1059 and DA Forms 1059–1

a. AERs with the following entries are referred or adverse evaluation reports. Such evaluation reports will be
referred to the rated Soldier or student by the reviewing official for acknowledgment and an opportunity to comment before being submitted to HQDA (detailed instructions and process for handling referred AERs are in DA Pam 623–3).

1. Any “NO” response.
2. Any “UNSAT” rating.
3. A “Marginally Achieved Course Standards” rating.
4. A “Failed to Achieve Course Standards” rating. If block d in item 11 (AER-S) is checked, the preparing official will address (in item 14) whether the deficiency reflects on the character or behavior of the rated Soldier or lack of aptitude in certain areas. All “Failed to Achieve Course Standards” AER-Ss require an additional review (see para 2–17).
5. Any comments so derogatory that the AER may have an adverse impact on the Soldier’s career.
6. Any AER with a “FAIL” for the APFT indicating noncompliance with the standards of AR 350–1 and/or a “NO” entry after the height and weight indicating noncompliance with the standards of AR 600–9 (if entries are applicable) (see DA Pam 623–3).

b. The AERs on students released from a course of instruction or degree program through no fault of their own (for example, medical or compassionate reasons), approved retirement, or resignation from Army service will receive AERs and item 14 will be left blank on on DA Form 1059 or item 11 on DA Form 1059-1, as appropriate. It will not be referred and the circumstances will be fully explained in item 14 (DA Form 1059), or item 11 (DA Form 1059–1).

The referral process ensures the rated Soldier knows that his or her OER (officer) or AER (officer or NCO) contains negative or derogatory information and affords him or her opportunity to sign the OER or AER and submit comments, if desired.

a. The senior rater will refer the OER or AER even if the rated Soldier is geographically separated from the senior rater or has departed the unit, organization, school, or course due to permanent change of station (PCS), retirement, or release from active duty.

Note. Senior raters will, when possible, refer OERs or AERs to rated Soldiers before departure from the unit, organization, school, or course.

b. If referral is required (see paras 3–26 or 3–27), the senior rater will ensure an “X” is placed in the appropriate box on the completed OER or AER (that is, OERs or AERs that has been signed and dated by the rating officials) in part II, block d (OER), item 9 (AER-S), or item 8 (AER-C).

Note. Rating officials are reminded AR 600-8-2 explains procedural requirements for a nontransferable flag for “referred” and “Relief for Cause” evaluation reports.

1. The senior rater will refer a copy of the completed OER or AER (an OER or AER that has been signed and dated by the rating officials) to the rated Soldier for acknowledgment and comment.

Note. A referral memorandum for digital signature and electronic forwarding is an enclosure in the electronic DA Form 67–10 series (in the Evaluation Entry System portal) (alternatively, see DA Pam 623–3 for a referral memorandum example).

(a) A reasonable suspense date will be given for the rated officer to complete this action.
(b) In the referral memorandum, the rated officer will be advised that his or her comments do not constitute an appeal or request for a CDR’s or Commandant’s Inquiry.
(c) Confirmed acknowledgment of the OER or AER referral is required (see paras 3–26 or 3–27).

(2) Acceptable methods for referring an OER or AER to a rated Soldier after their departure include routing the referred OER or AER to him or her using the Evaluation Entry System portal, emailing it as an attachment to an email (preferably using a “read receipt” option), or mailing it by certified mail to a Soldier’s last disclosed mailing address.

(3) Documentation of the rated Soldier’s receipt or acknowledgment and/or annotation of actions taken to obtain acknowledgment are critical.

(4) The rated Soldier has the opportunity to sign the OER or AER and will decide whether or not he or she will submit comments, placing an “X” in the “YES” or “NO” box on the evaluation report (in part II, block d (OER), item 9 (AER-S), or item 8 (AER-C).

Note. If the rated Soldier refuses to sign the OER or AER, the senior rater must enter the appropriate statement on the OER or AER (DA Pam 623–3) prior to submission, without a signature, to HQDA (or to the State EPM for ARNG NCO AERs).

(5) Upon receipt of the rated officer's acknowledgment (for example, receipt of a signed OER or AER, email, signed certified mail document, signed acknowledgment statement accompanying memorandum, submission of signed comments, and so forth), the senior rater will enclose it, any written comments provided by the rated officer, and the referral memorandum, with the original OER or AER for forwarding to—

(a) The reviewer (if applicable).
(b) The BN or BDE S1, administrative office, or HQDA, as appropriate.
(c) The other rating officials if paragraph c(4) applies.
(6) In cases where the rated Soldier acknowledges receipt of the referred OER or AER, but refuses to sign the OER or AER, the senior rater (or reviewer for AERs) will enter “The rated officer (or NCO) refused to sign.” in part VI, block c for OERs, item 14 for AER-S, or item 13 for AER-C.

c. If comments are provided—

(1) Comments will be factual, concise, and limited to matters directly related to the evaluation on the OER or AER; rating officials may not rebut a rated Soldier’s referral comments. Extrinsic or voluminous material, material already contained in the officer’s AMHRR, and enclosures or attachments are prohibited.

(2) Any enclosures or attachments to rebuttal comments will be withdrawn at the unit or organization-level and returned to the rated Soldier before the OER or AER is forwarded to HQDA.

Note. AERs for ARNG NCOs will be forwarded to the state military personnel office versus HQDA (see apps F and H).

(3) The rated Soldier’s comments do not constitute an appeal. Appeals are processed separately, as outlined in chapter 4. Likewise, the rated Soldier’s comments do not constitute a request for a CDR’s or commandant’s inquiry (see chap 4, sec II). Such a request will be submitted separately by the rated Soldier.

(4) If the senior rater (OER) or reviewing official (AER) decides that the comments provide significant new facts about the rated Soldier’s performance that could affect the evaluation of the rated Soldier, he or she may refer the comments to the other rating officials, as appropriate. The rating officials, in turn, may reconsider their evaluations of the rated Soldier. The senior rater or reviewing official will not pressure or influence another rating official. Any rating official who elects to raise their evaluation as a result of this action may do so. However, the evaluation may not be lowered because of the rated Soldier’s comments. If the OER or AER is changed but still requires referral, the OER or AER will again be referred to the rated Soldier for acknowledgment and the opportunity to provide new comments, if desired. Only the latest acknowledgment (“YES” or “NO” on OER or AER signed by the rated Soldier) and the rated Soldier’s comments, if submitted, will be forwarded to HQDA.

Note. AERs for ARNG NCOs will be forwarded to the State EPM versus HQDA (see apps F and H).

d. If the rated Soldier fails to respond within the given suspense period, or if certified mail sent to an officer’s last known forwarding address is returned indicating that the Soldier cannot be reached at that address, the senior rater will annotate on the referred OER or AER, “Rated officer was not available to sign.” When no signature appears on a referred OER or AER, the senior rater will prepare a memorandum as an enclosure to the OER or AER to document referral actions taken and whether or not there was acknowledgment of the rated officer (a copy of the returned certified mail document and/or email referral/“read receipt” may be included, if used, as enclosures to this memorandum) for forwarding to—

(1) The designated individual who will perform the supplementary review, if applicable (see paras 2–16c and 2–17).

(2) The BN or BDE S1, administrative office, or HQDA, as appropriate.

3–29. Performance as a member of a court-martial or selection board

Duty as a member of a court-martial or an HQDA-convened selection board will not be considered in preparing an evaluation report.

3–30. Performance as counsel

No rating official will give an unfavorable rating or comment regarding a rated Soldier because he or she zealously represented (as counsel) any accused or respondent before court-martial or administrative board proceedings.

3–31. Performance as an equal opportunity official

A Soldier serving as an EO officer, either as a principal or additional duty, will not be given an unfavorable rating if it is based solely on these items—

a. Because of the level of enthusiasm and zeal for implementing the Army’s EO Program.

b. In retaliation for criticism of command policies and practices related to that program.

3–32. Recalled retired Soldiers

Soldiers who have returned to active duty following retirement provide valuable service as a result of their years of experience and expertise.

a. Retired Soldiers recalled to active duty are not eligible for evaluation reports because they have completed the professional development personnel life cycle function and do not compete for subsequent promotions. Therefore, no evaluation report submitted on a recalled retiree Soldier will be processed at HQDA. Rating chains can execute all aspects of the ERS as a communication and feedback tool through informal or unofficial performance counseling of recalled retired Soldiers on a local basis.

b. Recalled retired Soldiers can serve as rating officials.
Section VII
Evaluation Report Preparation and Submission

3–33. Preparation and submission requirements
DA Pam 623–3 is the primary reference for procedural guidance on preparing evaluation reports.

a. Evaluation report forms. The forms listed below will be prepared according to procedures enumerated in DA Pam 623–3:

(1) DA Form 67–10 series and DA Pam 623–3.
(2) DA Form 2166–8, DA Pam 623–3.
(3) DA Form 1059 and DA Form 1059–1, DA Pam 623–3.

b. Authorized forms. Electronic applications producing OER, NCOER, or AER forms use form templates and form programs authorized by the Army Publishing Directorate.

(1) The most recent version of evaluation report forms found in the Evaluation Entry System portal will be used. This will guarantee that the completed forms will be compatible with HQDA-level processing and document storage system requirements. Newer form versions have increased capabilities over older form versions, which will, at a designated time, be prohibited entry through the Evaluation Entry System portal.

(2) Where the Evaluation Entry System electronic form guidance and the guidance in this regulation and DA Pam 623–3 conflict, the policy guidance provided in this regulation and the procedural guidance provided in DA Pam 623–3 take precedence.

Note. For evaluation reports for a time period prior to the publication of this regulation, the authorized form and governing policy and procedural guidance at the time of the period covered by the evaluation report will be used, whenever possible.

c. Continuous evaluation report history. Generally, Soldiers will have a continuous rating history of sequential OERs and NCOERs documenting both rated and nonrated time. The periods covered on evaluation reports will not overlap. Reports submitted with “FROM” and/or “THRU” dates that overlap another reporting period will be placed in an “ON HOLD” status awaiting correction.

(1) Rated time encompasses the time a rated Soldier has been assigned under a valid rating chain for the purposes of counseling, guidance, and evaluation of their performance and potential.

(2) Nonrated time encompasses periods of time when a rated Soldier cannot be evaluated. These periods include a wide variety of circumstances when a Soldier is not performing duty in an assigned position under a valid rating chain. Qualifying periods of nonrated time are documented on OERs and NCOERs using nonrated codes and they become part of a Soldier’s rating history (see DA Pam 623–3). Comments on events or accomplishments during periods of nonrated time will not be made on OERs or NCOERs (see paras 3–16a and 3–17a).

(3) Gaps in a Soldier’s evaluation history may occur for various reasons. A majority of these gaps are acceptable, while others are unacceptable.

(a) Acceptable gaps between evaluation reports include periods when a Soldier was in a nonratable status when no evaluation report was warranted, such as a break in service.

Note. For USAR and ARNG Soldiers, periods in the IRR or Inactive National Guard (ING) are nonratable periods; therefore, these periods will appear as gaps in the evaluation report history.

(b) Unacceptable gaps are periods when the rated Soldier was in a status that warranted the preparation of an evaluation report but rating officials failed to render an evaluation report. Such gap times will be resolved by the rating chain responsible for completing the missing evaluation report. These times will not be covered as nonrated time on any other evaluation report.

Note. For USAR Soldiers who fail to participate in battle assemblies, see paragraphs G–4 and G–5.

d. Nonrated time.

(1) If a rated Soldier has nonrated time that has not been accounted for on an evaluation report and the evaluation report following that nonrated time has already been completed at HQDA and posted to the Soldier’s AMHRR, a rating official on the evaluation report, the BN or BDE S1, or the administrative office may submit a request for an administrative correction (see DA Pam 623–3) to the “FROM” date on the evaluation report to include the nonrated time in the period covered. The request should be submitted to HRC (AHRC–PDV–EA) (mailing and email addresses in app F) asking that the evaluation report following the nonrated time be administratively corrected to reflect the missing nonrated time and nonrated codes. Administratively correcting the “FROM” date on an evaluation report may cause it to not follow the rules in AR 623–3 and DA Pam 623–3 and will be considered an exception to policy. The administratively amended evaluation report will be placed in the rated Soldier’s AMHRR and marked “Corrected Copy per HQDA Appeals Office,” so the altered “FROM” date will be understood by future selection boards and when making career decisions.

(2) If a rated Soldier has nonrated time that has not been accounted for on an evaluation report and the subsequent evaluation report is being processed at HQDA, but has not yet been filed in the AMHRR, the unit may request a change in the “FROM” date on the evaluation report (and the reason for submission, if applicable) to capture the
missing nonrated time and/or nonrated code. A rating official on the evaluation report, the BN or BDE S1, or the administrative office may contact the Evaluation Systems and Policy Office (mailing and email addresses in app F) to request administrative corrections to the evaluation report.

(3) If a Soldier has nonrated time that has not been accounted for on an evaluation report and the evaluation report following the nonrated time has not been submitted to HQDA, the current rater must reflect the nonrated time with the necessary nonrated codes and reason for submission on the Soldier’s evaluation report prior to submission to HQDA.

(4) Extended evaluations reports that include any nonrated time periods since the “THRU” date of the previous evaluation report and prior to the establishment of a new rating relationship between the rated Soldier and the rater require the preparation of a code 10, “Extended Annual” evaluation report (see para 3–42a). The number of rated months will not exceed 12 (365 rated days) even though the period covered exceeds 1 calendar year. The “FROM” date for these evaluation reports will be the day after the “THRU” date of the last OER or NCOER with the rating period beginning the day the Soldier is assigned under an established rating chain (for example, the day a Soldier arrives at a new unit or the day the Soldier assumes his or her new duty position). The “THRU” date will be 12 rated months (365 rated days) after the arrival or assignment date while performing the same duties under the same rating officials during this rating period. However, if an event occurs that requires the preparation of an evaluation report (for example, “Change of Rater”) before the 12 rated months (365 rated days) have accumulated, an evaluation report will be rendered with a “THRU” date that corresponds with the event requiring an evaluation. Standard reason-for-submission codes (for example, code 03, “Change of Rater,” or code 04, “Change of Duty,” and so forth) will apply on these “extended” evaluation reports that end before the required 12 rated months (365 rated days), even though the "period covered" on the evaluation report may exceed 1 calendar year. The “THRU” date will be determined by the rated Soldier’s circumstances. Each Soldier’s situation must be considered individually, just as each evaluation report must stand alone (see fig 3–1).

(5) A rated Soldier may also receive an optional “Extended Annual” evaluation report under unique circumstances.

(a) When the rated Soldier has accumulated more than 10 months of consecutive non-rated time since the THRU date of the last completed evaluation report in the Soldier’s AMHRR an Extended Annual evaluation report may be rendered when the rated Soldier has served in the same duty position under the same rater for 90 days (120 days for USAR TPU, DIMA, or drilling IRR Soldiers or ARNG Soldiers). The “FROM” date on the “Extended Annual” evaluation report would be the day after the “THRU” date of the last evaluation report. The “THRU” date will include 90 rated days (120 rated days for USAR TPU, DIMA, or drilling IRR Soldiers or ARNG Soldiers). The appropriate non-rated codes (i.e. Q for lack of rater qualification, S for school, I for intransit, etc.) will be used for the nonrated periods captured on the evaluation. The number of rated months will not exceed 3 (4 for USAR TPU, DIMA, or drilling IRR Soldiers or ARNG Soldiers).

(b) When the rated Soldier is scheduled to depart within 90 days (120 days for USAR TPU, DIMA, or drilling IRR Soldiers or ARNG Soldiers) after an Annual evaluation report is due, at the option of the Senior Rater, an Extended Annual evaluation report may be rendered to preclude the accumulation of non-rated time by the rated Soldier prior to departure or having to rendered a 90 day (120 days for USAR TPU, DIMA, or drilling IRR Soldiers or ARNG Soldiers) “Change of Rater” evaluation when the Soldier departs. The number of rated months will not exceed 16.
Example 1 – Annual Report (does not contain nonrated time)

THRU Date Last Report - 20090113
FROM Date 20090114
THRU Date 20100113

365 days
Soldier performs same duty under same rater for 1 calendar
year (365 days or 366 days in a Leap Year); no qualifying periods of nonrated time

Type of Report: Code 02 Annual
Period Covered: 20090114-20100113
Rating Period: 20090114-20100113
Number of Rated Months: 12
Nonrated Codes: None

Example 2 – Change of Rater/Change of Duty Report (without nonrated time)

THRU Date Last Report - 20090113
FROM Date 20090114
THRU Date 20090602

140 days
Rater departs due to PCS (change of rater); if rated Soldier’s duty changes but he/she is still under the same rater (change of duty); no qualifying periods of nonrated time

Type of Report: Code 03 Change of Rater/Code 04 Change of Duty
Period Covered: 20090114-20090602
Rating Period: 200909114-20090602
Number of Rated Months: 5
Nonrated Codes: None

Example 3 – Change of Rater Report (with school and return to same unit)

THRU Date Last Report - 20090113
FROM Date 20090114
THRU Date 20090830

In transit travel (3 days each)
37 days
Soldier departs for military school on 20090220
Soldier attends military school (4 months) and receives AER for 20090224-20090626
Soldier returns to same unit 20090630; rated time continues under same rater; rater departs on PCS 20090830

Note: The in transit time used in these examples is 3 days; periods of in-transit travel time may be longer or shorter in duration.

Type of Report: Code 03 Change of Rater
Period Covered: 20090114-20090830
Rating Period: 200909114-201009830
Number of Rated Months: 3
Nonrated Codes: S, I

Example 4 – Extended Annual Report (with school enroute to next assignment)

THRU Date Last Report - 20090113
FROM Date 20090114
THRU Date 20110329

In transit travel (3 days each)
365 days
Minimum qualifications not met before Soldier departs on leave for 30 days (20090401-20090430); Soldier attends military school (10 months); receives AER for 20090504-20100326
Soldier arrives at new unit 20100330; beginning of rating period

Type of Report: Code 10 Extended Annual
Period Covered: 20090114-20110329
Rating Period: 20100330-20110329
Number of Rated Months: 12
Nonrated Codes: Q, E, S, I
e. Nonrated time statements. CDRs should exercise due diligence in maintaining rating schemes and ensuring the rendering of reports that are due. As a result, requests for issuance of nonrated time statements should be minimized.

1. Requests for the issuance of nonrated time statements will be submitted only for periods when an evaluation report should have been rendered but was not, and all efforts by the rated Soldier and his or her unit to obtain a report have been exhausted. Such requests will be reviewed on a case-by-case basis and may or may not be approved by HQDA.

2. Requests for the issuance of nonrated time statements addressed to the approval authority and signed by the unit CDR, BN, BDE S1, or administrative office may be scanned and emailed to the Evaluation Systems and Policy Office. State clearly in the subject line of the email that a request for issuance of a nonrated statement is attached. Upon receipt, the request will be redirected to the appropriate office. To mail requests, address them to HRC (AHRC-PDV-EA) (address in app F). Again, each request will be adjudicated on a case-by-case basis.

f. Periods of nonrated time and nonrated codes. Evaluation reports will indicate the appropriate nonrated codes for periods such as schooling, leave of 30 days or more, and patient status (see DA Pam 623–3).

Note. When a Soldier is serving in a different Army component, or in one of the Uniformed Services, the period will not be considered nonrated time as he or she will be evaluated under that component or Service. Nonrated time will be subtracted from the
period covered on evaluation reports and accounted for with the appropriate nonrated codes, as applicable. No comments on events that occurred during nonrated periods will be entered on evaluation reports (see paras 1–8, 3–14 through 3–17, 3–33, 3–39, 3–49, 3–50, 3–54, and 3–55; table 3–1; and DA Pam 623–3).

**g. Submission of evaluation reports.** The Armywide standard for submitting evaluation reports to HQDA is electronic submission of completed, digitally signed evaluation reports on current versions of authorized electronic forms with authorized enclosures using the Evaluation Entry System portal at https://evaluations.hrc.army.mil/. A CAC with valid certificates is required to initiate and execute digital signatures on evaluation reports.

**h. Submission of evaluation reports (alternate).** Submission of evaluation reports (alternate). The alternative submission method is to mail evaluation reports in paper format with full SSNs for the rated Soldier, the rater, and the senior rater, printed legibly, with full-page images, on one sheet of paper, front and back, head-to-head, or head-to-toe. A clear original evaluation report is required so legible copies of the evaluation report can be given to the rated Soldier and processed at HQDA. When it is necessary to produce a paper copy of an evaluation report for submission to HQDA, a copy with full (nine-digit) SSNs for the rated Soldier, the rater, and the senior rater will be printed as indicated in paragraph e, below.

**Note.** See appendix F for addresses and contact information for mailing completed paper copies of evaluation reports and associated documents.

**i. Printing reports.** The following are basic requirements for printing evaluation reports for mailing:

1. Single document, double-sided (may be printed either head-to-head or head-to-toe).
2. Full nine-digit SSNs for the rated Soldier and the senior rater, as a minimum.
3. Without extraneous black lines or marks.
4. Full-sized document, as near as possible to 8 1/2 by 11 inches, with 1/2-inch margins.
5. Aligned straight on the page.
6. Framed on the page with all lines, edges, box checks, and numerical entries visible.
7. Balanced contrast between light background and dark fonts (using black and white printer).

**j. Signatures.** Digital signatures are the standard for evaluation reports; however, manual, handwritten, ink signatures are authorized under extreme circumstances. Digital signatures require the use of a CAC; digitally-signed evaluation reports created on electronic forms within the Evaluation Entry System will be submitted to HQDA using the Evaluation Entry System portal. Evaluation reports created using electronic forms outside of the Evaluation Entry System may contain electronic signatures, however, they must be submitted using the authorized alternative method of submission (see para 3-33h). When digitally signing an evaluation report is not possible, an ink signature may be entered on a completed evaluation report (printed with full nine-digit SSNs for the rated Soldier, the rater, and senior rater as a minimum) and mailed to HRC (AHRC–PDV–ER) (address in app F). As an exception, units deployed to a contingency theater of operations without the use of CAC or the capability to submit reports using the Evaluation Entry System portal are authorized to submit scanned copies of ink-signed reports from the deployed location to HQDA under the Evaluations-by-E-mail Attachment Program.

**k. Authentication of evaluation reports.** Proper sequencing of evaluation report authentication provides credibility in the evaluation process.

1. Members of the rating chain and the rated Soldier are the only persons authorized to sign an evaluation report. Rating officials and rated Soldiers will not sign blank evaluation reports or have someone sign for them.

2. The rated Soldier will always be the last individual to sign the evaluation report. The rated Soldier’s signature will verify the accuracy of the administrative data in part I, confirming the name and SSN on the evaluation report, rank and date of rank, branch or MOS data, period covered and nonrated time; the rating officials in part II; APFT and height and weight entries. This procedure ensures that the rated Soldier has seen the completed evaluation report. It also increases the administrative accuracy of the evaluation report and will normally preclude an appeal by the rated Soldier based on inaccurate administrative data. In the event the rated Soldier is not available or refuses to sign, senior raters will provide an explanation in their narrative or bullet comments. If significant changes are made to a final evaluation report after the rated Soldier has signed it, the senior rater will ensure the rated Soldier has an opportunity to see the changed evaluation report as stated in paragraph (4)(b).

3. To facilitate the rated Soldier signing the evaluation report after its completion and signature by the rating officials, the evaluation report may be signed and dated by each individual in the rating chain up to 14 days prior to the “THRU” date of the evaluation report. However, the evaluation report cannot be forwarded to HQDA until the “THRU” date of the evaluation report. Evaluation reports submitted prior to the “THRU” date will be rejected and returned; a new evaluation report with signatures that meet the requirement must be resubmitted to HQDA.

   (a) For OERs, the senior rater’s signature and date will not be before the rater’s or intermediate rater’s signature. The rated officer will not sign or date the OER before the rater, intermediate rater, or senior rater.

   (b) For NCOERs, the reviewer’s signature and date will not be before the rater’s or senior rater’s signature. The rated Soldier may not sign or date the NCOER before the rater, senior rater, or reviewer.

   (c) For AERs, the reviewer’s signature and date will not be before the rater’s signature. The rated Soldier may not sign or date the AERs before any other rating official.
(4) Signature formats will appear as follows:
   (a) Rating officials and rated Soldiers will enter valid digital signatures on current versions of electronic forms, which allows highest level of identity assurance. Evaluation reports with invalid signatures will not be processed.  
   (b) Once an evaluation report has been completed and signed by the rated Soldier, any changes to content afterward will invalidate the electronic signature approval of the rated Soldier and/or relevant rating official and will require the evaluation report to be revalidated (digitally signed with a verified or approved signature) by the individuals whose content was changed. Understanding that evaluation reports may be processed without the rated Soldier’s electronic signature, when this situation occurs, the senior rater will ensure the rated Soldier has an opportunity to see the evaluation report if significant changes are made.  
   (c) For manually signed, paper copy evaluation reports, signatures will be in black or dark blue ink only.  
   (d) Submitting paper copy evaluation reports with a combination of manual signatures and electronic approval will be authorized as long as all requirements of this paragraph are met.  

l. Timeliness of submission. Evaluation reports will be forwarded error-free to reach HQDA no later than 90 days after the “THRU” date of the evaluation report. The senior rater is responsible for ensuring the timely submission of OERs and NCOERs to HQDA; the reviewing official is responsible for the timely submission of AERs to HQDA. However, HQDA centralized selection, promotion, and school board requirements may mandate receipt by a date that is earlier than 90 days after the “THRU” date of the evaluation report. See appendix F for mailing address and contact information.  

m. Monitoring submitted evaluations. The Evaluation Entry System portal will be used as the primary tool to determine the processing status and other administrative information of all OERs and Regular Army and USAR NCOERs received at HQDA. Once an evaluation report has processed to completion, it will be posted to a Soldier’s AMHRR (refer to para 3–11 for information on accessing the Evaluation Entry System).  

n. Evaluation report copies. Copies of evaluation reports will be handled in the following manner:  
   (1) The responsible senior rater or authenticating official’s designated representative will provide each rated Soldier a copy of the evaluation report when it is completed locally and before the rated Soldier departs the organization. This copy may be provided either in paper copy or electronic format. If the Soldier departs before receiving such a copy, that responsible senior rater or authenticating official will send a copy of the completed evaluation report to the rated Soldier’s forwarding address or email address.  
   (2) Rated Soldiers who fail to receive a copy of their evaluation report after the close of the reporting period will request a copy from their senior rater.  

3–34. Special situations  
The following guidance pertains to Soldiers in special situations during their military service.  
   a. Soldiers assigned to warrior transition units.  
      (1) The majority of Soldiers assigned to WTUs have the primary mission of healing. DA Pam 623–3 identifies the nonrated time (code H) for healing.  
      (2) Soldiers assigned to WTUs who are in the care of a medical team and placed under a unit rating chain while performing duties in conjunction with their healing mission at the discretion of the WTU CDR may receive evaluation reports. DA Pam 623–3 identifies the nonrated time (code G) for healing with duty.  

Note. The “G” code is unique. It applies if a WTU Soldier is assigned duties to perform and he or she has been assigned to a rating chain. This code will be used for Soldiers who, at the discretion of the WTU CDR, have been assigned duties and a rating chain whether or not an evaluation report is prepared. If an evaluation report is prepared, the time spent in this status will be included in the number of rated months; if no report is prepared, the time the Soldier spent in this status will be included in the number of nonrated months on their next OER or NCOER.

b. Newly commissioned officers and newly appointed warrant officers.  
      (1) A newly commissioned officer (2LT) or a newly appointed WO1 will not receive an OER before successfully completing BOLC or WOBC. The officer’s commissioning or appointment date will be the “FROM” date on the first OER (see para (5) for exceptions).
(2) “FROM” date of the first OER begins his or her first OER period covered on the date of their commissioning or appointment.

(3) The time from the commissioning or appointment date (including completion of BOLC or WOBC) through the day before the officer arrives at the unit of assignment is nonrated time. This nonrated time and any other qualifying nonrated periods (see DA Pam 623–3, which identifies nonrated codes) qualifies the officer to receive a code 10, “Extended Annual” OER (see para 3–42), unless another type of OER is required.

(4) The “THRU” date of the first OER (a code 10, “Extended Annual” OER) will occur when 12 rated months (365 rated days) after arrival at the assigned unit occurs while performing duties in the same position under the same rater. Only another event that requires the preparation of an OER (for example, “Change of Rater” or “Change of Duty”) occurring prior to this date would change this “THRU” date.

(5) Exceptions to the above guidance apply to—

(a) USMA graduates who remain at West Point immediately following graduation as coaches and instructors prior to attending BOLC may receive OERs as an exception to policy prohibiting active duty officers from receiving OERs prior to completion of BOLC.

(b) JAGC officers (see paras 3–51 and D–3).

(c) AMEDD officers (see para E–2).

(d) USAR TPU, DIMA, or drilling IRR officers of all branches (see para G–5m).

3–35. Authorized enclosures

No enclosures, other than those listed below, will be attached to DA Form 67–10 series when forwarded to HQDA. Unless specified otherwise, the final location for the required enclosures will be the rated Soldier’s AMHRR.

a. Enclosures to DA Forms 67–10 series.

(1) Supplementary review comments, as authorized by paragraph 2-15, 2–16 or 2–17 (see fig 2–1 and 2–4) (retained by HQDA only).

(2) Memorandum substantiating a rating official’s authority to evaluate (for example, announcement of assumption of command) (retained by HQDA only).

(3) HQDA-approved exception to policy authorizing a rating official to evaluate (retained by HQDA only).

(4) Senior rater’s letter of referral (retained by HQDA only) and the rated officer’s acknowledgment and comments regarding a referred OER (see para 3–28 and DA Pam 623–3).

(5) Rated Soldier’s comments for referred OERs (see para 3–28c).

(6) Senior rater’s documentation to verify a Soldier’s receipt of a referred OER that is unsigned by the rated officer and/or missing comments when the rated officer elected to submit comments but failed to do so by the suspense date designated by the senior rater (see para 3–28d) (retained by HQDA only).

(7) Documentation to verify the senior rater’s attempted referral of an OER with no acknowledgment from or signature by the rated Soldier as of the suspense date designated by the senior rater.

(8) Statement from the individual directing a “Relief for Cause” OER if other than a rating official (see para 3–54e and fig 3–3).
(9) CDR’s statement, as authorized by chapter 4, section II (retained by HQDA only).
(10) Statement from reviewer of a “Relief for Cause” evaluation report (see paras 2–17 and 2–18 and fig 2–4 and 2–6).
(11) Other statements or documents directed by HQDA (retained by HQDA only).

Note. These will be referred to the rated officer for comment prior to being filed.

(12) Senior Army member’s approval of rater in Joint headquarters or activities (para 2–5b(3)(b) (retained by HQDA only).

(13) Approved DCS, G–1 waiver of compliance with AR 600–9 (retained by HQDA only).

(14) Enclosures that are part of the electronic DA Form 67-10 series (Evaluation Entry System portal) will be completed at the enclosure tab and/or attached to the DA Form 67–10 series as external documents before submitting it to HQDA. Enclosures must be in either a .pdf, .jpg, or .tiff format for acceptance as an attachment to the completed evaluation. Other format types will not be accepted and will result in a delay of processing the evaluation. When executed in paper format, enclosures to OERs will be prepared on 8 1/2-by-11-inch paper and attached to the OER. As a minimum, the enclosure will contain:
   (a) The rated officer’s full name, nine-digit SSN, and rank.
   (b) The period of OER.
   (c) The signature of the originator.
   (d) The reason for the enclosure, citing the appropriate paragraph in this regulation, as applicable.

b. Enclosures to DA Forms 2166–8.

(1) No enclosures, other than those listed below, will be attached to the NCOER when forwarded to HQDA.
(a) Comments by the reviewer when nonconcurrence box in part II, block d is marked (see para 2–18c and fig 2–6).

The reviewer’s nonconcurrence memorandum is part of the electronic DA Form 2166-8 (Evaluation Entry System portal).
(b) Statement from person who directed “Relief for Cause” NCOER if other than rating official (see para 3–55e).
(c) Thirty-day waiver approval for a “Relief for Cause” NCOER (see para 3–55f).
(d) Approved DCS, G–1 waiver of compliance with AR 600–9 (retained by HQDA only).
(2) Enclosures that are part of the electronic DA Form 2166-8 (Evaluation Entry System portal) at the enclosures tab will be completed and/or attached to the NCOER as external documents before submitting it to HQDA. When executed in paper format, enclosures to NCOERs will be prepared on 8 1/2-by-11-inch paper and attached to the NCOER. As a minimum, the enclosure will contain:
(a) The rated NCO’s full name, nine-digit SSN, and rank.
(b) The period of the report.
(c) Signature of the originator.
(d) Reason for the enclosure, that is, reviewer nonconcurrence memorandum (see fig 2–6), relieving official’s statement (see fig 3–2), or 30–day relief waiver (see fig 3–3).

Figure 3–3. Sample format for a 30-day minimum waiver for relief for cause noncommissioned evaluation report
c. Enclosures to DA Forms 1059 and DA Forms 1059–1. No enclosures, other than those listed below, will be attached to the AER-S or AER-C.

(1) Reviewer’s letter of referral (retained by HQDA only) and the rated officer’s acknowledgment and comments regarding a referred AER (para 3–28 and DA Pam 623–3).

(2) Official transcripts, if required, for AER-C after participation in part-time after-duty educational degree programs.

(3) AER letter issued by a fellowship sponsor when a rated Soldier is attending a resident fellowship at a civilian institution.

3–36. Modifications to previously submitted evaluation reports

This paragraph addresses requests for modifications to both completed evaluation reports that are filed in a Soldier’s AMHRR and evaluation reports that are being processed at HQDA prior to completion.

a. An evaluation report accepted by HQDA and included in the official record of a rated Soldier is presumed to—

(1) Be administratively correct.

(2) Have been prepared by the properly designated rating officials who meet the minimum time and grade qualifications.

(3) Represent the considered opinions and objective judgment of the rating officials at the time of preparation.

b. Requests for modifications to evaluation reports already posted to a Soldier’s AMHRR require use of the Evaluation Report Redress Program (see chap 4 and DA Pam 623–3).

c. Requests that a completed evaluation report filed in a Soldier’s AMHRR be altered, withdrawn, or replaced with another evaluation report will not be honored if the request is based on the following:

(1) Statements from rating officials that they underestimated the rated Soldier.

(2) Statements from rating officials that they did not intend to assess the rated Soldier as they did.

(3) Requests that ratings be revised.

(4) Statements from rating officials claiming administrative oversight or typographical error in checking blocks for professional competence, performance, or potential. Therefore, it is imperative that rating officials ensure evaluation reports are accurately recorded prior to signing.

(5) Statements from rating officials claiming OERs were improperly sequenced to HQDA by the unit or organization.

(6) A subsequent statement from a rating official that they rendered an inaccurate evaluation of a rated Soldier’s performance or potential in order to preserve higher ratings for other officers (for example, those in a zone for consideration for promotion, command, or school selection).

d. For evaluation reports that have been completed and filed in a Soldier’s AMHRR, substantive appeals will be submitted within 3 years of an evaluation report “THRU” date. Administrative appeals will be considered regardless of the period of the evaluation report; decisions will be made based on the regulation in effect at the time evaluation reports were rendered (see para 4–8).

e. An exception to paragraph c, is granted for evaluation reports when—

(1) Information that was unknown or unverified when the evaluation report was prepared is brought to light or verified.

(2) This information is so significant that it would have resulted in a different evaluation of the rated Soldier; the following actions will be accomplished in an effort to modify the evaluation report:

(a) If the report is an OER or AER, and the information would have resulted in a higher evaluation, the rated Soldier may appeal the evaluation report, and rating officials may provide input to support this point (see DA Pam 623–3).

(b) If the report is an OER and the information would have resulted in a lower evaluation, rating officials may submit an addendum to be filed with the OER (see DA Pam 623–3).

3–37. Newly received favorable information

Rating officials who become aware of information that would have resulted in a higher evaluation of a rated Soldier will take action to alter or remove the evaluation report in accordance with the appeal policy stated in chapter 4 and procedures in DA Pam 623–3.

a. Rating officials will specify the new information precisely, how it was obtained, whether it was factually confirmed, or how it would change the evaluation had it been considered in writing the original evaluation report.

b. Addenda will not be used to report this type of information.
c. The rated Soldier may be provided with a statement by the rating official who discovered the new favorable information, and that statement could be used in the rated Soldier’s appeal.

3–38. Newly received derogatory information for DA Form 67-10 series, DA Forms 1059, and DA Forms 1059-1

Rating officials will submit an addendum to a previously submitted OER or AER when they become aware of new information that would have resulted in a lower evaluation of the rated Soldier (officer for OERs, officer or NCO for AERs) after an OER or AER has been processed to the rated Soldier’s AMHRR and is a matter of record. (DA Pam 623–3 provides additional information on preparing addenda).

a. The first CDR or commandant in the rated Soldier’s current chain of command who receives new information about a rated Soldier will ensure that all members of the original rating chain for the OER or AER impacted by this new information are aware of it and are allowed to comment. If none of the original rating officials want to change or add to the original OER or AER, no addendum will be prepared.

b. The addendum will be prepared as shown in DA Pam 623–3. The addendum will contain the rated Soldier’s name, grade, SSN, the type of evaluation report, and the period covered by the evaluation report to which it applies. It will also state that all members of the rating chain have been allowed to add or change comments, and it will list those who did not want to comment.

c. Upon completion of this action, the CDR or commandant will refer a copy of the addendum to the rated Soldier for acknowledgment and the opportunity to submit comments before sending it (and any signed comments) to HQDA (see address in app F).

Note. For ARNG Soldiers, the addendum will be forwarded to HQDA through the State AG. No changes will be made to the original evaluation report in the rated Soldier’s AMHRR, but the addendum will be appended to the OER or AER to which it has been prepared, along with any comments from the rated Soldier.

d. If not a member of the original rating chain, the CDR’s or commandant’s responsibility is only to coordinate the submission of the addendum. The CDR or commandant may not add comments to the addendum unless they were a member of the original rating chain.

e. If any of the rating officials have been reassigned, released from active duty, incapacitated, or are otherwise unable to complete their part of an addendum prior to an investigation involving the rated Soldier, the CDR or commandant will so indicate. If the rated Soldier cannot be contacted for review, the CDR or commandant will comment on the action taken and the inability to contact the rated Soldier before submitting the addendum to HQDA. Specific instructions for referral are detailed in paragraph 3–28.

Section VIII
Mandatory Evaluation Reports

3–39. Basic rules

a. The OERs listed in this section are required if the rated officer has completed at least 90 calendar days in the same position under the same rater during the same rating period. Periods when the rater is in a nonrated status and, therefore, ineligible to evaluate the rated officer (such as attendance at a school, when suspended, in a patient status, in a leave status for 30 days or more, and so forth) will not be counted in the 90 calendar-day period. On these OERs, the rater will complete the evaluation; however, intermediate raters and senior raters will evaluate only if they have the required 60 calendar days in the rating chain. “SR-Option” evaluation reports for officers who are due a mandatory OER within 60 calendar days of the change in senior rater will be treated as mandatory evaluation reports (see para 3–57b). Codes and reasons for submission are addressed in DA Pam 623–3. Authentication by all rating officials is mandatory.

Note. The minimum required rating period for USAR TPU, DIMA, and drilling IRR officers and ARNG officers is 120 calendar days; minimum senior rater qualification is 90 calendar days (apps G and H).

b. The NCOERs in this section are required if the rated NCO has completed at least 90 calendar days in the same position under the same rater during the same rating period. Periods when the rater is in a nonrated status and, therefore, ineligible to evaluate the rated Soldier (such as attendance at a school, when suspended, in a patient status, in a leave status for 30 days or more, and so forth) will not be counted in the 90 calendar-day period. On these NCOERs, senior raters will evaluate if they have the required 60 calendar days in the rating chain. “SR-Option” evaluation reports for NCOs who are due a mandatory NCOER within 60 calendar days of the change in senior rater will be treated as mandatory evaluation reports (see para 3–57b). No minimum time period is required for reviewer qualification. Codes and reasons for submission are addressed in DA Pam 623–3. Authentication by all rating officials is mandatory.

Note. The minimum required rating period for USAR TPU, DIMA, and drilling IRR NCOs and ARNG NCOs is 120 calendar days; minimum senior rater qualification is 90 calendar days (see apps G and H).

c. Continuous, extended periods of nonrated time on an OER or NCOER require special considerations. When a
Soldiers have received an OER or NCOER within 90 days (or 120 days for USAR TPU, DIMA, or drilling IRR Soldiers) of the start of a continuous nonrated period longer than 9 months (or 8 months for a USAR TPU, DIMA, or drilling IRR Soldiers) because of schooling, patient status, or any other reason covered by a nonrated code where the Soldier is not performing duties at an assigned unit, he or she will receive an “Extended Annual” evaluation report unless an event occurs that requires another type of OER or NCOER to be prepared. Resulting evaluation reports will reflect a “Period Covered” on the evaluation report that is greater than 1 calendar year (including nonrated time), but the “Rated Months” entry cannot exceed 12 months (365 rated days). Examples are shown in figure 3–1. See paragraphs 3–33 and 3–42 regarding nonrated time and extended evaluation reports and DA Pam 623–3.

Note. Special guidance exists for evaluation reports for Soldiers in WTUs and newly commissioned officers and/or newly appointed warrant officers (see para 3–34).

d. During periods of mobilization (for example, mobilized, temporary change of station (TCS), active duty for operational support-Reserve Component (ADOS–RC), ADOS, or contingency operations-active duty for operational support (CO–ADOS)) USAR and ARNG Soldiers will follow Regular Army rules for evaluation reports. When an entire unit is mobilized, and rating officials remain intact, an evaluation report is not required at the time of mobilization, unless otherwise required under this chapter (for example, “Change of Rater” or “Change of Duty”). Individual Soldiers who are mobilized will receive an evaluation report for example, “Annual,” “Change of Rater,” or “Change of Duty”) in accordance with the provisions of this chapter if minimum rating qualifications are met. See appendices G and H for USAR and ARNG specific evaluation reporting requirements.

3–40. “Change of Rater” evaluation report

a. A code 03, “Change of Rater” OER, is mandatory when the rated officer ceases to serve under the immediate supervision of the rater and minimum rating qualifications have been met.

b. A code 03, “Change of Rater” NCOER, is mandatory when—

1. The rated NCO ceases to serve under the immediate supervision of the rater and minimum rating qualifications have been met.

2. A rated NCO is reduced to the rank of specialist or below, if minimum rating qualifications have been met. Part I, block e will contain the reduced rank and part I, block d will reflect the effective date of the reduction. Reduction to another NCO grade does not require an NCOER (see DA Pam 623–3).

c. Rated officers and NCOs, upon retirement, discharge, or change of duty under the same rating chain, or reassignment to an IRR control group (for USAR Soldiers only), will use a code 04, “Change of Duty” evaluation report (see para 3–43) with the appropriate reason for submission instead of the code 03. Indicate the appropriate reason for submission in part I, block i on the OER and part I, block g on the NCOER in accordance with DA Pam 623–3. The “THRU” date of the OER or NCOER will be the last day of supervision/last work day before starting work in the new duty assignment, being released from active duty service, or beginning of transition leave. Exceptions for retirement OERs and NCOERs of less than 1 year are addressed in paragraph 3–43.

Note. A USAR or ARNG officer or NCO, upon release from active duty in one of the following statuses: annual training (AT), ADT, ADOS–RC, ADOS, or CO–ADOS, will receive a code 12 evaluation report that reflects the status from which they are being released (see para 3–47 and DA Pam 623–3 for the appropriate nomenclature for each type of evaluation report).

d. A “Change of Rater” evaluation report will be prepared for a rater’s subordinates when there is a loss of a rater as a rating chain member (described in para 2–19). The “THRU” date on these evaluation reports will be the date of the incident when the rater PCSs, dies, is declared missing, is relieved, or becomes incapacitated to such an extent that the CDR, with the advice of medical authorities, when necessary, believes the rater is unable to submit an accurate evaluation. Paragraph 2–19 addresses rating chain rules and restrictions.

e. When a rated officer or NCO is declared missing or becomes a prisoner or hostage, an OER or NCOER is required as of the date of the incident. Under these situations, rating chain time minimums do not apply. OERs or NCOERs will not be rendered on Soldiers for periods during which they are missing, prisoners of war, or hostages. The effect, if any, of a Soldier’s status on other personnel actions, favorable or unfavorable (such as letters of commendation or reprimand), and on actions under the UCMJ, will be governed by the laws and regulations pertaining to the particular action.

f. When an NCO is accepted for Warrant Officer Candidate School (WOCS), a “Change of Rater” NCOER will be prepared with a “THRU” date that is the day before the warrant officer departs for WOCS.

Note. If an NCO does not graduate from WOCS, the time will be counted as nonrated time (code S) on the next NCOER. Upon appointment as a warrant officer, the warrant officer’s first OER, which will begin after completion of WOBC, will have a “FROM” date that is the date of appointment. This paragraph does not apply to USAR TPU, DIMA, or IRR Soldiers (see paras 3–33 and 3–43) with the appropriate reason for submission instead of the code 03. Indicate the appropriate reason for submission in part I, block i on the OER and part I, block g on the NCOER in accordance with DA Pam 623–3. The “THRU” date of the OER or NCOER will be the last day of supervision/last work day before starting work in the new duty assignment, being released from active duty service, or beginning of transition leave. Exceptions for retirement OERs and NCOERs of less than 1 year are addressed in paragraph 3–43.

Note. A USAR or ARNG officer or NCO, upon release from active duty in one of the following statuses: annual training (AT), ADT, ADOS–RC, ADOS, or CO–ADOS, will receive a code 12 evaluation report that reflects the status from which they are being released (see para 3–47 and DA Pam 623–3 for the appropriate nomenclature for each type of evaluation report).

d. A “Change of Rater” evaluation report will be prepared for a rater’s subordinates when there is a loss of a rater as a rating chain member (described in para 2–19). The “THRU” date on these evaluation reports will be the date of the incident when the rater PCSs, dies, is declared missing, is relieved, or becomes incapacitated to such an extent that the CDR, with the advice of medical authorities, when necessary, believes the rater is unable to submit an accurate evaluation. Paragraph 2–19 addresses rating chain rules and restrictions.

e. When a rated officer or NCO is declared missing or becomes a prisoner or hostage, an OER or NCOER is required as of the date of the incident. Under these situations, rating chain time minimums do not apply. OERs or NCOERs will not be rendered on Soldiers for periods during which they are missing, prisoners of war, or hostages. The effect, if any, of a Soldier’s status on other personnel actions, favorable or unfavorable (such as letters of commendation or reprimand), and on actions under the UCMJ, will be governed by the laws and regulations pertaining to the particular action.

f. When an NCO is accepted for Warrant Officer Candidate School (WOCS), a “Change of Rater” NCOER will be prepared with a “THRU” date that is the day before the warrant officer departs for WOCS.

Note. If an NCO does not graduate from WOCS, the time will be counted as nonrated time (code S) on the next NCOER. Upon appointment as a warrant officer, the warrant officer’s first OER, which will begin after completion of WOBC, will have a “FROM” date that is the date of appointment. This paragraph does not apply to USAR TPU, DIMA, or IRR Soldiers (see paras 3–33 and 3–43) with the appropriate reason for submission instead of the code 03. Indicate the appropriate reason for submission in part I, block i on the OER and part I, block g on the NCOER in accordance with DA Pam 623–3. The “THRU” date of the OER or NCOER will be the last day of supervision/last work day before starting work in the new duty assignment, being released from active duty service, or beginning of transition leave. Exceptions for retirement OERs and NCOERs of less than 1 year are addressed in paragraph 3–43.

3–41. “Annual” evaluation report

a. A code 02, “Annual” evaluation report, is mandatory for a rated Soldier upon completion of 1 calendar year of duty, without periods of nonrated time, following the “THRU” date of the last OER or NCOER in the Soldier’s AMHRR (or, for USAR and ARNG Soldiers, following 1 calendar year out of the IRR or ING, see paras G–5a and
H–11b).

Note. A calendar year is 365 days or 366 days if the Leap Year date, 29 February, is included in the period covered.

(1) If 1 calendar year has elapsed and the rated Soldier has not performed the same duty under the same rater for 90 calendar days (120 days for USAR TPU, DIMA, and drilling IRR Soldiers and ARNG Soldiers), an “Extended Annual” evaluation report (see para 3–42b) will be submitted.

(2) If the rated Soldier has gone on temporary duty (TDY) to attend a school and the “Annual” evaluation report is due, the depart TDY evaluation report (see para 3–44) may be prepared and processed before the Soldier departs to reestablish an annual cycle or an “Extended Annual” evaluation report (see para 3–42) may be prepared upon return to the same duties with the same rating officials.

(3) An “Annual” evaluation report will not be submitted when the provisions for the “Change of Rater” (see para 3–40) or “Change of Duty” (see para 3–43) evaluation reports also apply.

b. Specific for NCOERs, an “Annual” report will be submitted—

(1) One calendar year after the effective date of promotion to SGT, unless another type of mandatory evaluation report is rendered before the year has elapsed.

(2) One calendar year after reversion to NCO status following service as a commissioned or warrant officer for 12 months or more.

(3) One calendar year after reentry on active duty in the rank of SGT or above after a break in service.

Note. When an annual OER or NCOER is due within 60 calendar days (90 days for USAR TPU, DIMA, or drilling IRR Soldiers) when a change in senior rater will occur, the senior rater will submit a “SR-Option” evaluation report in such cases to prevent an OER or NCOER from being submitted without a senior rater evaluation.

3–42. “Extended Annual” report

There are two types of “Extended Annual” evaluation reports; one is mandatory to cover any period of nonrated time since the previous evaluation report when 1 calendar year has elapsed, the other is optional and used only in exceptional situations.

a. A mandatory code 10, “Extended Annual” evaluation report will be prepared when any nonrated time periods have occurred since the “THRU” date of the previous OER or NCOER (for example, prior to the establishment of a new rating relationship between the rated Soldier and the rater). The “FROM” date of the period covered on the Extended Annual will be the day after the “THRU” date of the last OER or NCOER. The rating period begins the day the Soldier is assigned under an established rating chain (for example, the day a Soldier arrives at a new unit or the day the Soldier assumes their new duty position). The “THRU” date will be 12 “rated months” (365 rated days) after the arrival or assignment date while performing the same duties under the same rating officials during this rating period. There is no required length or type of nonrated time between the “THRU” date of the last OER or NCOER and the establishment of a new rating relationship in order to render an “Extended Annual” evaluation report. The “period covered” on the “Extended Annual” evaluation report will be longer than 1 calendar year, but the rating period or “rated months” (period covered minus nonrated time) will be no more than 12 months (365 rated days).

Note. Use of the electronic form in the Evaluation Entry System portal to document nonrated periods will calculate the number of rated months; nonrated codes are found in DA Pam 623–3. Additional information on nonrated time is found in paragraphs 3–33 and G–4. The intent of this type of evaluation report is to give a rated Soldier an evaluation report similar to an “Annual” containing 12 “rated months” after arrival in a new unit or position under a rater, unless another type of mandatory or optional evaluation report is warranted (for example, “Change of Rater,” “Change of Duty,” “Complete the Record,” or “SR-Option”). Normally, this type of evaluation report will be rendered as the first evaluation report for newly assigned Officers and NCOs in an organization. It will be followed successively by other types of evaluation reports (for example, “Annual,” “Change of Rater,” “SR-Option,” “Complete the Record” and “Relief for Cause”).

Note. When another type of report with an extended period covered is prepared, the standard reason code and reason for submission will be used (DA Pam 623–3).

Figure 3–1 contains example of timelines to show when an extended evaluation report is prepared.

1. All schooling periods, whether or not the Soldier receives an AER, will be accounted for as nonrated time on evaluation reports (see paras 1–8, 3–33, 3–39, 3–49, and 3–50) along with other types of nonrated time (for example, leave, lack of rater qualification, TDY, permissive TDY, and in transit travel).

2. Special circumstances, as outlined in paragraph 3–34 pertain to—

(a) Newly commissioned officers and newly appointed warrant officers who have not yet attended BOLC or WOBC.

Note. This does not apply to officers in the USAR (see para G–5m), JAGC (see paras D–3 and D–4), and AMEDD (see para E–2).

(b) Soldiers in a nonratable status (see para G–4), which will always appear as an acceptable gap in the rated Soldier’s evaluation report history.
Note. “Extended Annual” evaluation reports will not be used to cover unacceptable gap periods when an evaluation report should have been prepared by a rating chain but was not (see para 3–33e (1)).

(3) For rated Soldiers who attended Army-approved transition team training, the rater (and the rated Soldier) will certify the training dates as nonrated time on the “Extended Annual” evaluation report; therefore, no DA Form 87 will be submitted as an enclosure to the evaluation report.

(a) The appropriate nonrated codes to account for the nonrated period normally include, but are not limited to, nonrated code “Q” for lack of rater qualification and nonrated code “T” for TCS.

(b) If the Soldier’s rating chain is established during transition team training, the rating period may begin the day the rating chain is established and not the day of arrival in the location or country of assignment.

b. An optional “Extended Annual” evaluation report may be prepared under unique circumstances.

(1) When the rated Soldier has accumulated more than 10 months of consecutive non-rated time since the THRU date of the last completed evaluation report in the Soldier’s AMHRR an Extended Annual evaluation report may be rendered when the rated Soldier has served in the same duty position under the same rater for 90 days (120 days for USAR TPU, DIMA, or drilling IRR Soldiers or ARNG Soldiers). The “FROM” date on the “Extended Annual” evaluation report would be the day after the “THRU” date of the last evaluation report. The “THRU” date will include 90 rated days (120 rated days for USAR TPU, DIMA, or drilling IRR Soldiers or ARNG Soldiers). The appropriate nonrated codes (that is, Q for lack of rater qualification, S for school, and I for intransit) will be used for the nonrated periods captured on the evaluation. The number of rated months will not exceed 3 (4 for USAR TPU, DIMA, or drilling IRR Soldiers or ARNG Soldiers).

(2) When the rated Soldier is scheduled to depart within 90 days (120 days for USAR TPU, DIMA, or drilling IRR Soldiers or ARNG Soldiers) after an annual evaluation report is due, at the option of the senior rater, an extended Annual evaluation report may be rendered to preclude the accumulation of non-rated time by the rated Soldier prior to departure or having to rendered a 90 day (120 days for USAR TPU, DIMA, or drilling IRR Soldiers or ARNG Soldiers) “Change of Rater” evaluation when the Soldier departs. The number of rated months will not exceed 16.

Note. Use of the electronic form in the Evaluation Entry System portal to document nonrated periods will calculate the number of rated months; nonrated codes are found in DA Pam 623–3. This type of “Extended Annual” evaluation report allows the Soldier to get an evaluation report as soon as rating qualifications have been met following nonrated periods totaling 9 months or more (8 months or more for USAR TPU, DIMA, or drilling IRR Soldiers and ARNG Soldiers).

3–43. “Change of Duty” report

a. A code 04, “Change of Duty” evaluation report, is mandatory when a rated Soldier is reassigned to a different principal duty while still serving under the same rater or when he or she is separated from Army service. The reason for submission will reflect the event that warranted the generation of an evaluation report (that is, change of duty, discharge, separation, or retirement). No evaluation report is submitted when organizational changes merely alter the rated Soldier’s principal duty title but do not change the type of work performed (for example, personnel management staff officer to Assistant G–1). A mandatory code 03, “Change of Rater” evaluation report, will be prepared when a change of duty also results in a change of rater (see para 3–40).

b. An evaluation report is mandatory when a rated Soldier is separated from active duty. It is important for raters and senior raters to identify on the final evaluation report any unique skills or talents a rated Soldier possesses on which the Army can capitalize in the future if the Soldier is recalled to active duty service or mobilized in the USAR or ARNG.

c. As an exception, retirement evaluation reports of less than 1 calendar year will be rendered at the option of the rater or senior rater, or when requested by the rated Soldier. Retirement evaluation reports that conclude a Soldier’s military career will have a “THRU” date that is the final day of supervision or last duty day before beginning transition leave or before retiring (if no transition leave will be taken). Rating official minimum time requirements apply.

d. When the rated Soldier is declared missing or becomes a prisoner or hostage, an OER or NCOER is required as of the date of the incident. Under these situations, rating official minimum time requirements do not apply. Evaluation reports will not be rendered on officers for periods during which they are missing, prisoners of war, or hostages. The effect, if any, of a Soldier’s status on other personnel actions, favorable or unfavorable (such as letters of commendation or reprimand), and on actions under UCMJ will be governed by the laws and regulations pertaining to the particular action.

3–44. “Depart Temporary Duty, Special Duty, or Temporary Change of Station” report

A code 06, “Depart TDY/SD/ TCS” OER or NCOER will be submitted on a rated Soldier by the rating officials in the organization from which they depart on TDY, special duty (SD), or TCS to perform duties not related to his or her primary functions in the unit; and, while on TDY, SD, or TCS, they serve under a different immediate supervisor for a period of 90 or more calendar days. However, this evaluation report is not required before departure on TDY for schooling (AER-producing school or otherwise; for example, a course issuing a certificate of training).

a. In cases where it cannot be determined if such duty-related TDY, SD, or TCS will last for 90 days, a report may be submitted.
b. In cases when known mandatory reports (“Annual”, “Change of Rater”, and so forth) will be due while Soldiers are attending schooling (AERs counting as nonrated time on an evaluation report), this type of evaluation report may be submitted to alleviate the need for a mandatory report while at school. Also, in these circumstances an “Extended Annual” evaluation report is an option (see para 3–42).

c. A report is not authorized when the rated officer or NCO on TDY, SD, or TCS is still responsible to or receiving guidance or instruction from the chain of command of the parent unit or assigned organization.

d. A Soldier who is attached to an organization pending compassionate reassignment remains responsible to the parent unit and will not receive an evaluation report from the attached organization. A memorandum of input from the supervising officials of the attached organization to the Soldier’s rating officials is mandatory (see table 3–1).

3–45. “Temporary Duty, Special Duty, or Temporary Change of Station” report
Rated Soldiers on TDY, SD, or TCS who are not responsible to their parent organization will be rated by their TDY, SD, or TCS supervisors according to rating chain requirements (see paras 2–3 and 2–4). In these cases, the TDY, SD, or TCS supervisor is responsible for ensuring that a rating chain is published and that a DA Form 67–10–1A is initiated on the rated officer or a DA Form 2166–8–1 is initiated on the rated NCO. Supervisors of the TDY, SD, or TCS unit or location are not authorized to render any type of evaluation report for periods of fewer than 90 calendar days, unless otherwise authorized as an exception. Rated Soldiers on TDY, SD, or TCS who are in attendance at courses of instruction are evaluated on AERs and, as such, the period is counted as nonrated time on the next OER or NCOER.

Table 3–1
“Temporary duty, special duty, and temporary change of station” not related to principal duty

<table>
<thead>
<tr>
<th>Period of TDY, SD, or TCS</th>
<th>Required evaluation</th>
<th>Optional evaluation</th>
<th>Dispositions</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 to 59 days</td>
<td>None</td>
<td>Letter of input to rater</td>
<td>Note no. 1</td>
</tr>
<tr>
<td>60 to 89 days</td>
<td>Letter of input to normal rater</td>
<td>None</td>
<td>Note no. 1</td>
</tr>
<tr>
<td>90 days or more</td>
<td>Evaluation report</td>
<td></td>
<td>Note no. 2</td>
</tr>
</tbody>
</table>

Notes:
1 Letter of input is prepared by the TDY, SD, or TCS supervisor and sent to the rated Soldier’s normal rater. The normal rater will consider this information when preparing the rated Soldier’s next evaluation report. The letter of input will not be enclosed with the evaluation report when it is forwarded to HQDA.
2 A complete evaluation report is prepared as a code 04, “Change of Duty” evaluation report, by the TDY, SD, or TCS supervisor and forwarded to HQDA by the senior rater.

3–46. “Failed Promotion Selection” report (DA Form 67–10 series only)
The provisions of this paragraph do not apply to NCOs or USAR and ARNG officers.

a. An officer who fails to be selected for promotion by a Regular Army promotion board will receive a code 11, “Promotion” OER, prior to the next promotion board of the same type. The following conditions will be satisfied:

1. The rated officer has not received an OER since the convene date of the board that did not select the officer for promotion. Any other mandatory OER that is due prior to the required “THRU” date for a promotion OER as stated in the MILPER message announcing the promotion selection board will be prepared.

2. The rating period must cover 90 or more calendar days as of the date in an HQDA message announcing the zone of consideration for the next board that will consider the rated officer. This date will be the same as the date used for a “Complete Record” evaluation report (see para 3–56).

3. The minimum time requirements for the rater are satisfied.

b. This type of OER does not apply to officers who are not in a regular duty environment with an established rating chain (for example, officers attending school are not eligible for an OER).

c. This requirement does not apply to officers being considered by an HQDA selection board for promotion to the grade of BG.

3–47. “Release from Active Duty Service” report (U.S. Army Reserve and Army National Guard only)
This evaluation report is used only for USAR and ARNG Soldiers upon their release from service on active duty, in accordance with appendixes G and H. The reason for submission is code 12. The Soldier’s status during their service on active duty will determine the reason for submission (DA Pam 623–3) as follows (see DA Pam 623–3):

a. Release from annual training (“REFRAT”). Individual Ready Reserve (IRR) Soldiers who perform Annual training (AT) with an Army Reserve or Active Component unit will receive an evaluation report upon completion of their AT. Troop Program Unit (TPU) and Drilling Individual Mobilization Augmentee (DIMA) Soldiers who perform
their AT with a unit other than their parent unit will be rendered a letter of input by the unit where AT was performed (see app G).

b. Release from active duty for training ("REFRADT").
c. Release from Active Duty Operational Support-Reserve Component ("REFRADOS–RC").
d. Release from Active Duty Operational Support ("REFRADOS").
e. Release from contingency operations-Active Duty Operational Support ("REFRCO–ADOS").

Section IX
Mandatory Evaluation Reports Other Than 90–Day Minimum

3–48. Basic rule
Reports will be prepared on the following occasions. Specific time requirements, if any, are listed with each condition causing a report to be written.

Note. A mandatory “Senior Rater Option” report will be prepared under the conditions stated in paragraph 3–57b. Authentication by all rating officials is mandatory.

3–49. Service school academic evaluation report (DA Form 1059)
DA Form 1059 is used to report the performance of students attending Army schools, DOD schools, USAR and ARNG Schools, NCO academies, allied nation schools, and RC chaplain candidates for training (IDT), as well as formal schooling as prescribed below. All of these are considered “Service schools.”

Note. The time covered in AER-S producing schools will be shown as nonrated time on the OER or NCOER that covers the same period. Comments pertaining to accomplishments during the period covered by an AER-S will not be included in OERs or NCOERs (DA Pam 623–3 contains DA Form 1059 preparation and processing instructions). AER-S will be forwarded to the proper headquarters in accordance with appendix F and will be posted in the rated Soldier’s AMHRR.

a. The CG, TRADOC; the CDR, U.S. Army Medical Department Center and School; TJAG; and the Chief of Chaplains determine course structure and which Service schools or courses will provide DA Forms 1059 to students. This is particularly true for multi-phased courses.

b. A DA Form 1059 is required for students attending the following courses (this list in not all-inclusive):

(1) Regular Army officers attending the U.S. Army War College or taking senior service college courses sponsored by other Services or allied nations. Students who are awarded the Master of Strategic Studies degree will have an entry entered on the DA Form 1059 in item 14 (see DA Pam 623–3).

(2) Regular Army commissioned officers attending basic and advanced branch officer courses. The DA Form 1059 will address both the basic core course and the Army Operations Center training when the latter course follows the first. Only if the Army Operations Center is scheduled for 60 or more days may a separate AER-S be rendered.

(3) Officers enrolled in the U.S. Army War College Correspondence Studies Course upon graduation.

(4) All branch transition courses.

(5) Regular Army warrant officer basic and advanced courses and all staff and senior staff warrant officer training courses.

(6) Army Medical Department Academy of Health Sciences courses.

(a) Students participating in dietetic internships, occupational therapy clinical affiliation, and the U.S. Army-Baylor Program in Physical Therapy.

(b) Phases I and II of the Physician Assistant Training Program, which are exceptions to the prohibition against requiring OERs for pre-commissioning or appointment courses.

c. A DA Form 1059 is required for NCOs attending the following courses (this list is not all-inclusive):

(1) An MOS-producing school when the primary MOS was awarded due to previous training, advanced individual training, or on-the-job training (OJT).

(2) NCO education system courses (regardless of length or component), including the following:

(a) Warrior Leader Course (WLC).

(b) Advanced Leaders Course (ALC).

Note. A DA Form 87 will be awarded to Soldiers who complete the ALC common curriculum (phase 1). A DA Form 1059 is not awarded to Soldiers unless there is no ALC technical phase for a Soldier’s MOS.

(c) Senior Leaders Course (SLC).

(d) U.S. Army Sergeants Major Course.

(e) First Sergeant Course, 521–SQIM.

(f) Battle Staff NCO Course, 000–ASI2S at the U.S. Army Sergeants Major Academy.

(g) USAR and ARNG NCOs taking courses at Army schools or colleges (except trainees attending their initial ADT).

d. DA Form 1059 is not authorized for students meeting the following conditions:
(1) Regular Army students in good academic standing who voluntarily withdraw from an elective course of instruction requiring a DA Form 1059, short of completion. A letter explaining the reasons for termination will be sent, instead of a DA Form 1059, from the school commandant to HQDA (AHRC-(appropriate career branch)), for use as deemed appropriate by the CG, HRC; TJAG; and the Chief of Chaplains, as appropriate. The time will be declared nonrated on the next OER or NCOER.

(2) Students in good academic standing who are eliminated from Initial Entry Rotary Wing for flight deficiency only. A letter explaining the reasons for termination will be sent, instead of a DA Form 1059, from the elimination approval authority to HQDA (AHRC–OBE–V), for use as deemed appropriate by CG, HRC. The time will be declared nonrated on the next OER or NCOER.

(3) Students who volunteered for, but either withdrew or were eliminated from, the Special Forces, Civil Affairs, or Psychological Operations Qualification Course (and related corollary courses) and were unable to complete all of the required training. A letter explaining the reasons for termination will be sent, instead of a DA Form 1059, from the respective regimental commandant to HQDA (AHRC-(appropriate career branch)), for use by the CG, HRC. The time will be declared nonrated on the next OER or NCOER.

(4) Courses for which TRADOC has deemed a DA Form 1059 inappropriate, AMEDD first-year postgraduate medical and dental education internships, residencies, and fellowships at Army installations (see AR 351–3).

(5) Officers in the TJAG’s FLEP require only a transcript of grades while attending law school.

(6) Enlisted personnel attending initial military training courses (basic training) or advanced individual training leading to the award of their initial MOS to include reentry personnel.

(7) Defense Language Institute courses for enlisted personnel in the ranks of specialist or CPL and below at the time of graduation.

(8) Pre-commissioning/appointment courses (that is, USMA Preparatory School, OCS, and WOCS with follow-on proponent certification course), except phase I and II of the Physician Assistant Training Program, which are exceptions and require OERs.

e. DA Form 1059 is not authorized for USAR or ARNG Soldiers participating in—
   (1) ALC (phase I).
   (2) Enlisted initial active duty for training.
   (3) USMA Preparatory School.
   (4) OCS.
   (5) Refresher courses of fewer than 80 hours.
   f. Regular Army personnel may be granted constructive or equivalent school credit by the CG, HRC; TJAG; the Chief of Chaplains; or CG, TRADOC. Requests will be forwarded to the appropriate career management division in accordance with AR 350–1.
   g. All RC chaplain candidates in IDT status will receive an AER-S every 6 months for unit training assemblies, one completed after annual training, and others, as required, under regulations for resident and nonresident courses.
   h. For courses of instruction that exceed 12 months, an interim DA Form 1059 will be prepared annually. The interim AER-S will comment on the student’s progress at the time of preparation. A final AER-S will be prepared and submitted to HQDA (AHRC–PDV–ER) to arrive no later than 90 days after completion or termination of schooling or training.

Note. DA Forms 1059 prepared using the ATRRS may be submitted electronically to HQDA; these DA Forms 1059 will be visible in the Evaluation Entry System. As an exception, for courses that exceed 1 calendar year, but are 15 months or less, only one DA Form 1059 will be submitted to cover the entire duration of the course.

As an exception, for courses that exceed 1 calendar year, but are 15 months or less, only one DA Form 1059 will be submitted to cover the entire duration of the course.

i. The APFT, height and weight, including verification of compliance of AR 600-9 data will be entered on the DA Form 1059 for courses that require an APFT to be taken in accordance with AR 350–1 (DA Pam 623–3 discusses these entries on DA Form 1059).

j. Address and contact information for AER-Ss are found in appendix F.

3–50. DA Form 1059–1
An AER-C will be submitted for Regular Army, USAR, and ARNG Soldiers in active duty statuses who participate in a full-time (on duty) degree or degree completion program at an educational, medical, or industrial institution.

Note. The time covered in AER-C producing schools will be shown as nonrated time on the OER or NCOER that covers the same period. Additionally, AER-Cs will be submitted for—

a. Regular Army Soldiers who participate in a part-time (after-duty) degree program if—
   (1) Formally approved for participation in a degree completion program (see AR 621–1).
   (2) The degree completion program is a Soldier’s primary duty.

AR 623–3 • 31 March 2014 65
b. Voluntary participation of rated Regular Army and USAR Soldiers serving in an active status, and ARNG serving in 10 or 32 USC active status and—
   (1) Attending night classes at a civilian institution or university and the Soldier’s primary place of duty is performing full-time or part-time military duties with a unit or organization.
   (2) This information will not be used against the rated Soldier to indicate a down-turn in performance.

   c. Courses of instruction that exceed 12 months. An interim DA Form 1059–1 will be prepared annually. The interim AER-C will comment on the Soldier’s progress at the time of preparation. A final AER-C will be prepared and submitted to HQDA (AHRC–OML–M) to arrive no later than 90 days after completion or termination of schooling or training. As an exception, for courses that exceed 1 calendar year, but are 15 months or less, only one DA Form 1059–1 will be submitted to cover the entire duration of the course. Master’s degree-level programs will receive only one final AER-C, unless schooling exceeds 24 months.

   Note. Address and contact information for civilian institution DA Forms 1059–1 are found in paragraph 3–15 and appendix F.

3–51. Judge Advocate General’s Corps on-the-job training evaluation report
   a. An OER will be required when an officer participating in TJAG’s FLEP completes OJT of 31 or more calendar days. The reason for submission, code 17, “JAGC–OJT”, will be used.
   b. CDRs, in coordination with JAGC officials at the OJT sites, will establish rating chains that ensure rating officials are present and available during OJT, to ensure at least one OER per year. OERs for officers who perform OJT of 30 or fewer days may be submitted at the option of the rating officials. Rating chain time minimums do not apply (see app D).
   c. DA Form 1059–1 will be prepared at least annually for TJAG’s FLEP officers attending a civilian academic institution if not performing OJT (for example, a JAGC officer taking classes to complete a legal degree or affiliated with a civilian university pending successful completion of a state bar examination. The period covered by the DA Form 1059–1 will be reflected as nonrated time on the initial tour of extended active duty OER following the completion of schooling.
   d. The provisions of this paragraph do not apply to warrant officer OERs or NCOERs.

3–52. Initial tour of extended active duty evaluation report
   A code 14, “Initial” evaluation report, will be prepared for JAGC commissioned officers under specified circumstances following their completion of BOLC. The provisions of this paragraph do not apply to NCOs.
   a. Specified circumstances requiring a code 14 “Initial” evaluation report include officers who are—
      (1) Serving an initial tour of active duty in the Army (other than ADT or USAR or ARNG officers serving on statutory tours under 10 USC 175, 3021, 10211, 12301(d), and 12402).
      (2) Reentering active duty after a break in service of at least 1 year.
      (3) Completing law school under TJAG’s FLEP (AR 27–1) (see app D).
   b. This code 14 “Initial” evaluation report will not be prepared for—
      (1) Any officer not included in paragraph a.
      (2) Any officer included in paragraph a, above, who has already received an OER under some other provision of this regulation during their current tour of duty. Other OERs due prior to completion of 120–day initial evaluation reports take precedence over the initial tour evaluation report. In those cases, the 120-day initial evaluation report will not be completed.
      (3) The “FROM” date of the period covered by an initial OER will begin with the rated officer’s date of entry on current active duty or the “THRU” date of any previously received OER. The rating period will begin when the rated officer arrives at his or her unit of assignment following BOLC. The rating period will end upon the completion of 120 calendar days (excluding nonrated days) in the same principal duty assignment under the same rater (“THRU” date on OER). Other rating official qualification and minimum time requirements apply for the 120-day initial time under the rater.

   Note. The periods covered by DA Form 1059–1 for law school attendance and periods following successful graduation from law school before successfully completing a state bar examination and DA Form 1059 for attendance at BOLC, and time before the rated officer’s assignment to a unit, organization, or agency will be reflected as nonrated time on the initial OER (paras 1–8, 3–33, 3–39, 3–49, and 3–50).

3–53. U.S. Army Human Resources Command-directed evaluation report
   a. When the CG, HRC, decides there is a need for an evaluation report (para 1–4a(3) and other provisions of this chapter do not apply), an “AHRC Directed” evaluation report will be submitted on the rated Soldier. The reason for submission, code 19, “AHRC Directed,” will be used.
   b. In extremely rare instances, CDRs may request that an evaluation report to be directed under provisions of this paragraph. Requests will be sent to HRC (AHRC–PDV–E) (see app F for address).
c. An “AHRC Directed” evaluation report will also be used for Army Medical Department Professional Management Command (APMC) officers as indicated in paragraph G–5k.

3–54. “Relief for Cause” report (DA Form 67–10 series)

Note. Rating officials are reminded AR 600-8-2 explains procedural requirements for a nontransferable flag for “Relief for Cause” evaluation reports.

A code 05, “Relief for Cause” OER, is required when an officer is relieved for cause, regardless of the rating period involved (for example, information pertaining to a previous reporting period that did not come to light until a later rating period). “Relief for Cause” is defined as an early release of an officer from a specific duty or assignment directed by superior authority and based on a decision that the officer has failed in his or her performance of duty. In this regard, duty performance will consist of the completion of assigned tasks in a competent manner and compliance at all times with the accepted professional officer standards consisting of attributes and competencies as part of the Leadership Requirements Model. These standards will apply to conduct both on and off duty. The following are additional considerations for “Relief for Cause” OERs:

a. If, for whatever reasons, the relief does not occur on the date the officer is removed from duty position responsibilities, the period of time between the removal and the relief will be nonrated time included in the period of the “Relief for Cause” OER. The published rating chain at the time of the relief will render the “Relief for Cause” OER at the time of the relief; no other OER will be due on this officer during this nonrated period.

b. Cases where the rated officer has been suspended from duties pending an investigation will be resolved by the chain of command as expeditiously as possible to reduce the amount of potential nonrated time involved. Every effort will be made to retain the established rating chain, with the officer performing alternate duties under that rating chain, until the investigation is resolved. If the rated officer is suspended and subsequently relieved, the period between the suspension and the relief is nonrated time. The suspended officer will not render evaluation reports or receive an OER until his or her status (and, thus, their ability to serve as a rating official) is decided (that is, if relieved the rated officer will not render reports as a rating official). While no OER will be rendered on a suspended officer during the period of suspension, for an officer who is suspended and subsequently returned to duty (not relieved), the period of suspension is recorded as evaluated time on the next OER.

c. If a relief for cause is contemplated on the basis of an informal AR 15–6 investigation, referral procedures contained in that regulation will be followed before the act of initiating or directing the relief. This is irrespective of the fact that the resultant OER will also be referred to the rated officer as described in paragraph 3–28. This does not preclude a temporary suspension from assigned duties pending application of the procedural safeguards contained in AR 15–6. Action to relieve an officer from any command position will not be taken until after obtaining written approval from the first general officer in the chain of command of the officer being relieved, as required by AR 600–20.

d. The “Relief for Cause” OER must specifically indicate who directed the relief of the rated officer and the rating official directing the relief will clearly explain the reason for the relief in his or her portion of the OER. See DA Pam 623–3 for instructions and procedural guidance that apply to completing a “Relief for Cause” evaluation report.

e. If the relief is directed by someone other than the rating officials, the official directing the relief will describe the reasons for the relief in an enclosure to the OER (see fig 3–2).

f. If, after a “Relief for Cause” evaluation report has been submitted to HQDA, rating officials become aware of additional significant information, the provisions of paragraphs 3–36, 3–37, and 3–38 will apply.

g. A rating official may relieve an officer because of information received about a previous reporting period. For example, a rating official who receives information from a completed investigation regarding a past incident plans to relieve the officer from their present position or process him or her for elimination. When this occurs, the following provisions apply:

(1) A “Relief for Cause” evaluation report will be prepared.

(2) The rated officer will be evaluated only on performance during the current rating period, with the exception of the statement clarifying the relief.

(3) Rating restrictions described in DA Pam 623–3 do not apply.

(4) The reason for the relief will be cited in the report.

(5) If necessary, the new information will be forwarded to the previous rating chain when submitting an addendum, as described in paragraphs 3–36, 3–37, and 3–38.

h. The minimum time requirements for rating officials do not apply. All rating officials will evaluate the rated Soldier; however, any rating official who has not directed the relief, and does not agree with the relief, may state nonconcurrence in the proper narrative portion of the “Relief for Cause” OER.

3–55. “Relief for Cause” evaluation report (DA Form 2166–8)
Note. Rating officials are reminded AR 600-8-2 explains procedural requirements for a nontransferable flag for “Relief for Cause” evaluation reports.

A code 05, “Relief for Cause” NCOER, is required when an NCO is relieved for cause. An NCO can be relieved for cause regardless of the rating period involved; however, a waiver is required to render “Relief for Cause” NCOERs covering a period of less than 30 days. Relief for cause is defined as the removal of an NCO from a specific duty or assignment based on a decision by a member of the NCO’s chain of command or supervisory chain. A relief for cause occurs when the NCO’s personal or professional characteristics, conduct, behavior, or performance of duty warrants removal in the best interest of the U.S. Army. Additional considerations for the “Relief for Cause” NCOER are described below.

a. If the relief does not occur on the date the NCO is removed from the duty position or responsibilities, the suspended period of time between the removal and the relief will be nonrated time included in the period of the “Relief for Cause” NCOER. The suspended NCO will not render NCOERs and AERs or receive NCOERs until his or her status (and, thus, his or her ability to serve as a rating official) is decided. The published rating chain at the time of the relief will render the “Relief for Cause” NCOER; no other NCOER will be due on the rated NCO during this nonrated period.

b. Cases where the rated NCO has been suspended from duties pending an investigation will be resolved by the chain of command as expeditiously as possible to reduce the amount of nonrated time involved. Every effort will be made to retain the established rating chain, with the NCO performing alternate duties under that rating chain, until the investigation is resolved. If the rated NCO is suspended and subsequently relieved, the period of suspension is nonrated time. If the rated NCO is suspended and subsequently placed back to duty (not relieved), the period of suspension is recorded as evaluated time on the next NCOER.

c. If a “Relief for Cause” evaluation report is contemplated on the basis of an informal AR 15–6 investigation, the referral procedures contained in that regulation will be followed before the act of initiating or directing the relief. This does not preclude a temporary suspension from assigned duties pending application of the procedural safeguards contained in AR 15–6. A “Relief for Cause” evaluation report will be the final action after all investigations have been completed and a determination made.

d. The “Relief for Cause” NCOER must specifically indicate who directed the relief of the rated NCO and the rating official directing the relief will clearly explain the reason for the relief in his or her portion of the NCOER (see DA Pam 623–3 for instructions and procedural guidance that apply to completing a “Relief for Cause” evaluation report).

e. If the relief is directed by an official other than the rater or senior rater, the official directing the relief will describe the reasons for the relief in an enclosure to the NCOER (see fig 3–2).

f. The minimum rater and senior rater qualifications and the minimum rating period are 30 rated days. The fundamental purpose of this restriction is to allow the rated NCO a sufficient period of time to react to performance counseling during each rating period. Authority to waive this 30–day minimum rating period and rater and senior rater qualification period in cases of misconduct is granted to the first general officer in the chain of command or an officer having general court-martial jurisdiction over the relieved NCO. The waiver approval will be in memorandum format and attached as an enclosure to the NCOER (see para 3–35 and fig 3–3).

Note. For USAR and ARNG NCOs, authority to waive the 60-day minimum rating period and rater and senior rater qualification periods in cases of misconduct is granted to a general officer in the chain of command or an officer having general court-martial jurisdiction over the relieved NCO.

Section X
Optional Reports

These evaluation reports are submitted at the option of rating officials, provided all requirements are met. Authentication by all rating officials is mandatory.

Note. An exception to the optional nature of these evaluation reports is the “SR- Option” evaluation report as discussed in paragraph 3–57b.

3–56. “Complete the Record” report

“Complete the Record” evaluation reports are optional. Therefore, the absence of such an evaluation report from the AMHRR at the time of a selection board’s review will not be a basis to request standby reconsideration unless the absence is due to administrative error or a delay in processing at HQDA.

Note. This paragraph is also applicable to the USAR and ARNG CSM Programs and USAR and ARNG promotion boards centralized at a major USARC headquarters, the State, and NGB.

a. DA Form 67–10 series. A code 09, “Complete the Record” OER, may be submitted on a rated officer who is about to be considered by an HQDA-level selection board (for promotion, project manager, school, or command) provided the following conditions are met:

(1) The rated officer will be in or above the zone of consideration for a centralized promotion selection board or in the zone of consideration for a school or command selection board.
Note. Officers being considered in the below the zone category are not eligible for a “Complete the Record” OER.

(2) The rated officer will have served for a minimum of 90 calendar days (120 calendar days for USAR TPU, DIMA, or drilling IRR Soldiers or ARNG Soldiers), excluding nonrated periods, in the same position under the same rater as of the “Complete the Record” evaluation report “THRU” date stated in the HQDA MILPER message announcing the zones of consideration. The MILPER message announcement provides additional eligibility criteria for “Complete the Record” OERs.

Note. All error-free OERs received by the required receipt date stated in the MILPER message will be completed in time for viewing by the selection board.

(3) All other rating chain time minimums apply.

(4) An officer who was previously considered, but not selected for promotion, by an HQDA promotion selection board may prepare a code 09 “Complete the Record” OER, provided that the officer does not qualify for a code 11, “Promotion” OER, as required by paragraph 3-46.

b. DA Form 2166–8. A code 09, “Complete the Record” NCOER, may be submitted on a rated NCO who is about to be considered by an HQDA-level selection board (for promotion, school, or CSM selection) provided the following conditions are met:

(1) The rated NCO will be in the zone of consideration (primary or secondary) for a centralized promotion board or in the zone of consideration for a school or CSM selection board.

(2) The rated NCO will have served for a minimum of 90 calendar days (120 calendar days for USAR TPU, DIMA, or drilling IRR Soldiers or ARNG Soldiers), excluding nonrated periods, in the same position under the same rater as of the “Complete the Record” evaluation report “THRU” date stated in the HQDA MILPER message announcing the zones of consideration. The rated NCO must not have received a previous NCOER for the current duty position.

Note. All error-free NCOERs received by the required receipt date stated in the MILPER message will be completed in time for viewing by the selection board.

(3) All other rating chain time minimums apply.

3–57. “Senior Rater Option” report

a. A code 08, “SR-Option” evaluation report, may be rendered when a change in senior rater occurs. The senior rater may direct that a “SR Option” evaluation report be made on any Soldier whom they senior rate when a change in senior rater occurs. This will apply only if the following conditions are met:

(1) The senior rater has served in that position for at least 60 calendar days. In cases where a general officer is serving as both rater and senior rater, the minimum rater requirement will also be 60 days versus the normal 90-day requirement.

Note. The minimum rating requirement for evaluating USAR TPU, DIMA, or drilling IRR Soldiers or ARNG man-day (M–DAY) Soldiers is 90 days (apps G and H).

(2) The rater meets the minimum 90–day requirement (120–day requirement for drilling USAR TPU, DIMA, or drilling IRR Soldiers or ARNG (M–DAY) Soldiers).

(3) The Soldier has not received an OER or NCOER in the preceding 90 calendar days (120 calendar days for USAR TPU, DIMA, or drilling IRR Soldiers or ARNG Soldiers). As an exception, if a general officer is serving as both rater and senior rater, the Soldier must not have received an OER or NCOER in the preceding 60 days (90 days for USAR TPU, DIMA, or drilling IRR Soldiers or ARNG (M–DAY) Soldiers).

b. As an exception, a mandatory “SR-Option” evaluation report will be prepared when an evaluation report is due within 60 calendar days (90 days for USAR TPU, DIMA, or drilling IRR Soldiers) after the date the change in senior rater will occur or when in accordance with para 3-60d below. The senior rater will submit a “SR-Option” report in such cases to prevent an OER or NCOER being submitted without a senior rater evaluation.

3–58. “60–Day Option” report

A code 07, “60 day Opt” evaluation report, may be rendered when one of the conditions described in paragraphs 3–40 through 3–43 occurs, and the rater has served in his or her capacity fewer than 90 days, but more than 59 days (excluding nonrated periods), in the rating period. A “60 day Opt” evaluation report may be initiated at the option of the rater when the following conditions have been met:

a. The rated Soldier will be serving in an overseas designated short tour for a period of 14 months or less (see JFTR, Appendix Q, Table 1, for “all others” tour identification by area) or as designated in the Personnel Policy Guidance.

b. The senior rater will meet the minimum time-in-position requirements to evaluate (60 days) and will approve or disapprove submission of the “60 day Opt” evaluation report. When the senior rater disapproves the submission of the “60 day Opt” evaluation report, the basis for the disapproval will be stated and the “60 day Opt” evaluation report and
3–59. **“Rater Option” evaluation report (DA Form 67–10 series only)**

A code 13, “Rater Option” OER, may be rendered when one of the conditions described in paragraphs 3–40 through 3–43 occurs but there are fewer than 90 calendar days in the rating period (120 days for USAR TPU, DIMA, and drilling IRR officers and ARNG officers not on an active duty tour for 90 days or more), excluding nonrated periods. An OER may be submitted at the option of the rater. However, the rated officer will have served continuously under the same rater in the same position for 90 or more calendar days in the previous rating period. All other rating chain minimums apply. For example: An officer received an annual OER on 31 March. The rated officer departs on a PCS on 22 May. The rating period is 51 days (1 April – 21 May). If those 51 days were spent in the same duty position under the same rater as shown on the previous annual OER ending 31 March, the rater may, at his or her option, render a “Rater Option” OER for the period 1 April to 21 May. The senior rater (and intermediate rater, if applicable) will sign the “Rater Option” OER but may not provide comments because minimum rating qualifications have not been met.

3–60. **Memorandum of input**

The provisions of this paragraph only apply to OERs.

a. At the senior rater’s discretion, officers who change raters, but continue to perform the same duties under the same senior rater, may receive a memorandum of input from their departing rater (rater of record) in lieu of a “Change of Rater” evaluation under certain circumstances.

1. The rater meets the minimum time-in-position requirements to evaluate, as described in paragraph 2–5, but has less than 135 days as a rater within the rating period.

2. The senior rater meets the minimum time-in-position requirements to evaluate as described in paragraph 2–7.

3. The senior rater must obtain authorization from the rating chain approval authority outlined in paragraph 2–4 within the organization before directing use for the memorandum of input.

b. When a request for use of a memorandum of input is disapproved by the rating chain approval authority, the mandatory “Change of Rater” OER will be prepared in accordance with paragraph 3–40.

c. When authorization is approved to use a Memorandum of Input, the senior rater will direct the current rater of record to complete a memorandum of input on the rated officer as outlined below:

1. The memorandum of input will include the following information: date, grade, name, SSN of the rated officer, the period covered for the assessment with current and future contact information for the rater of record (telephone and .mil email address).

2. The text will contain a description of the rated officer’s duties and an assessment of their performance during the period covered.

*Note.* Memorandums of input will not be forwarded or attached to the final OER when submitting to HQDA.

d. In instances when the memorandum of input option is initiated and the relationship between the rated officer and the senior rater terminates due to departure of the senior rater, a mandatory code 08 “SR-option” report is required. Memorandum of inputs will not transfer between senior raters.

e. Senior raters will be aware of future changes in a rated officer’s duties prior to directing use of a memorandum of input to preclude a situation where the rated officer receives a memorandum of input from a departing rater of record only to change duties before his or her next rater of record meets minimum rating eligibility requirements (90 days or 120 days for USAR TPU, DIMA, and drilling IRR Soldiers or ARNG Soldiers).

f. The senior rater will remain aware if the rated officer is pending departure or will have a change in duties before the next rater of record meeting rater eligibility requirements. In these instances, the senior rater will not exercise the use of the memorandum of input option and the appropriate OER will be rendered.

g. In instances where any rater of record does not meet minimum requirements to serve as a rater (90 days or 120 days for USAR TPU, DIMA, and drilling IRR Soldiers or ARNG Soldiers) during the rating period, that period of time will be considered as nonrated time when the final OER is completed by the last rater of record.

h. If a rated officer has received a memorandum(s) of input and their current rater of record dies, is declared missing, is relieved, or becomes mentally or physical incapacitated, provisions of paragraph 2–19 will apply.

i. If the senior rater dies, is declared missing, is relieved, or becomes mentally or physical incapacitated, the provisions of paragraph 2–19 will apply.

j. The period covered by memorandum(s) of input cannot exceed 135 days.

k. Memorandum(s) of input cannot be used when a mandatory report (other than a “Change of Rater”) is required.

l. When the final OER is rendered, the period covered will commence on the day following the “THRU” date of the last completed OER and end on the date of the event requiring the report to be rendered. The rated months should
include all rated and nonrated time covered by the memorandum(s) of input. The “Rated Months” cannot exceed a total of 12 months.

Chapter 4  
Evaluation Report Redress Program  
Section I  
Managing the Redress Program  

4–1. Overview  

a. The Evaluation Report Redress Program consists of several elements at various levels of command (for example, field, HRC, DCS, G–1, and HQDA). The program is both preventive and corrective, in that it is based upon principles structured to prevent, and provide a remedy for, alleged injustices or regulatory violations, as well as to correct them once they have occurred.

b. The first program element is the communication process fostered by the DA Form 67–10–1A and DA Form 2166–8–1, which affords the rated officer or NCO a forum for establishing duty requirements and a discussion of actual accomplishments (see chap 3, sec II, and DA Pam 623–3). A second element is the various regulatory requirements, such as each evaluation report standing on its own without reference to facts or events occurring prior or subsequent to the rating period (para 3–16) and the prohibition against command influence on rating officials during the preparation of evaluation reports (see para 1–11 and DA Pam 623–3).

c. If an OER or AER is referred, there is the evaluation referral and acknowledgment process (para 3–28 and DA Pam 623–3).

d. Beyond regulatory remedies, elements of the Redress Program, CDR’s or Commandant’s Inquiry (sec II, this chap), the Appeals System (sec III, this chap), and application to the Army Board for Correction of Military Records (ABCMR) under the provisions of AR 15–185 are available.

e. This chapter focuses on the policies, procedures, preparation, and submission of a CDR’s or Commandant’s Inquiry and an evaluation report appeal.

4–2. Information  

a. An OER, NCOER, or AER-S may have administrative errors or may not accurately record the rated Soldier’s potential or the manner in which he or she performed his or her duties. The Evaluation Report Redress Program protects the Army’s interests and ensures fairness to the evaluated officer or NCO. At the same time, it avoids impugning the integrity or judgment of the rating officials without sufficient cause. A CDR’s or Commandant’s Inquiry and an evaluation report appeal are separate and distinct actions. Rated Soldiers may seek an initial means of redress through a CDR’s or Commandant’s Inquiry; however, a CDR’s or Commandant’s Inquiry is not a prerequisite for the submission of an appeal.

b. DA Pam 623–3 amplifies and clarifies the policies outlined in this chapter by providing detailed guidance on the preparation of an appeal. Rated Soldiers considering submission of an appeal are strongly encouraged to read the appeals section of this pamphlet in its entirety prior to preparing and submitting one. A thorough understanding of the appeals system can save considerable time and effort and reduce the anxiety associated with having an appeal returned without consideration.

Section II  
Commander’s or Commandant’s Inquiry  

4–3. Applicability  

CDRs (OER and NCOER) or commandants (AER) are required to look into alleged errors, injustices, and illegalities in evaluation reports. This section does not pertain to AERs or other evaluation reports provided by civilian educational, medical, or industrial institution because there is no military command structure available.

4–4. Purpose  

Alleged errors, injustices, and illegalities in a rated Soldier’s evaluation report may be brought to the CDR’s or commandant’s attention by the rated Soldier or anyone authorized access to the report (para 1–11).

a. The primary purpose of a CDR’s or Commandant’s Inquiry is to provide a greater degree of command involvement in preventing obvious injustices to the rated Soldier and correcting errors before they become a matter of permanent record.

b. A secondary purpose is to obtain command involvement in clarifying errors or injustices after the evaluation is accepted at HQDA. However, in these after-the-fact cases, this paragraph is not intended to be a substitute for the appeals process, which is the primary means of addressing errors and injustices after they have become a matter of
permanent record (para 3–36 provides restrictions on modifications to previously submitted reports already accepted by HQDA).

c. The provisions of AR 15–6 do not normally apply to inquiries of this type. However, the CDR or commandant may determine that the provisions of AR 15–6 apply in specific instances.

4–5. Policy

a. A CDR’s or Commandant’s Inquiry will not be used to document differences of opinion among members of the rating chain about a rated Soldier’s performance and potential. The evaluation system establishes rating chains and normally relies on the opinions of the rating officials. Rating officials will evaluate a rated Soldier and their opinions constitute the organization’s view of that Soldier. However, the CDR may determine through inquiry that the report has serious irregularities or errors. Examples include:

(1) Improperly designated, unqualified, or disqualified rating officials (that is, a rating official not in the published rating chain; a rating official without the minimum required time to render an evaluation report; or a rating official who, through an official investigation, has had a substantiated adverse finding against him or her that results in his or her relief or calls into question the rating official’s objectivity).

(2) Inaccurate or untrue statements.

(3) Lack of objectivity or fairness by rating officials.

b. The inquiry will be made by a CDR in the chain of command or military school commandant above the designated rating officials involved in the allegations. In headquarters and other military organizations lacking a CDR or commandant, the inquiry will be conducted by the next higher official in the rating chain above the designated rating officials involved in the allegations.

c. The official conducting the inquiry will not pressure or force rating officials to change their evaluations.

d. The official conducting the inquiry may not evaluate the rated Soldier, either as a substitute for, or in addition to, the designated rating officials’ evaluations.

e. The rating chain or official conducting the inquiry will not use the CDR’s Inquiry (OER or NCOER) or Commandant’s Inquiry (AER) provisions to forward information derogatory to the rated Soldier. For OERs and AERs only, if the inquiry reveals matters that might have resulted in a lower evaluation of a rated Soldier, the information will be addressed in the memorandum outlining the results of the inquiry by the CDR or commandant responsible for the inquiry in accordance with paragraph 3–38. No changes will be made to an evaluation report to reflect a lower evaluation of a rated Soldier following the results of a CDR’s or Commandant’s Inquiry.

f. To ensure the availability of pertinent data and timely completion of an inquiry conducted after the evaluation in question has been accepted at HQDA for inclusion in the rated Soldier’s OMPF, the inquiry will be conducted by either the CDR or commandant at the time the evaluation was rendered who is still in the command position, or by a subsequent CDR or commandant in the position. The results of the inquiry will be forwarded to HQDA not later than 120 days after the signature date of the senior rater (OER) or reviewer (NCOER) or authenticating official (AER).

g. The results of the inquiry forwarded to HQDA will include the findings, conclusions, and recommendations in a memorandum that will be filed with the evaluation report in the rated Soldier’s OMPF for clarification purposes (see fig 4–1). The results will include the CDR’s or commandant’s signature, will stand alone without reference to other documentation, and will be limited to one page. Sufficient documentation, such as reports and statements, will be attached to justify the conclusions.
MEMORANDUM FOR U.S. Army Human Resources Command (AHRC-PDV-E),
1600 Spearhead Division Avenue, Dept. #470, Fort Knox, KY 40122-5407

SUBJECT: Commander's/Commandant's Inquiry Report on an Officer Evaluation Report (or Academic Evaluation Report) for (Rated Officer's Name, Rank, SSN, Report Period Covered)

1. In accordance with AR 623-3, Evaluation Reporting System, paragraph 4-5g, a Commander's/Commandant's inquiry was conducted to look into alleged errors, injustices, or legalities pertaining to the subject officer evaluation report (OER) or academic evaluation report (AER). My inquiry focused on (identify what portion(s) of the OER/AER were specifically addressed and/or allegations made in the request for an inquiry).

2. As a result of my inquiry, I have concluded/determined that (state if the findings from the inquiry revealed that the evaluation report is accurate as written, indicates bias/lacks objectivity and fairness, consistent with/inconsistent with the requirements of AR 623-3, requires administrative correction, etc. If necessary, include brief comments on background details, such as pertinent events that occurred during the preparation of the OER/AER).

3. I recommend that this OER/AER (state whether the OER/AER should be processed as written and filed in the rated Soldier's Official Military Personnel File, administratively corrected, be appealed by the rated Soldier, etc.). The rated Soldier has been informed of my findings and recommendations and his/her right to file an appeal to the OER/AER.

4. The point of contact for this memorandum is (POC's name, phone number, email address).

(Signature block of the commander or commandant)

Note: The Commander’s/Commandant’s Inquiry report will be limited to a one-page memorandum that can be filed with the DA Form 67-10 series OER/DA Form 1059. The memorandum must stand alone without reference to other documentation.
If the CDR finds no fault with the evaluation, then the CDR’s or Commandant’s Inquiry is filed locally and a copy given to the rated Soldier. There is no requirement to send the CDR’s or Commandant’s Inquiry forward to HQDA.

4–6. Tasks
Operating tasks for conducting a CDR’s or Commandant’s Inquiry are outlined in table 4–1.

<table>
<thead>
<tr>
<th>Step</th>
<th>Work center</th>
<th>Action required</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Requester</td>
<td>Submit a written request for a CDR's or Commandant’s Inquiry indicating specifically the injustices and/or regulatory violations contained in the OER, NCOER, or AER in question. Request is to be submitted to a CDR above the designated rating chain.</td>
</tr>
<tr>
<td>2</td>
<td>CDR or commandant</td>
<td>If, after looking into the allegations, no error, violation of the regulation, or wrongdoing is found, advise the individual requesting the inquiry and take no further action other than ensuring that the evaluation is forwarded to HQDA, as expeditiously as possible. If the CDR desires, he or she may retain a written record of the inquiry (for example, a memorandum for record). It is not necessary for the CDR to notify HQDA if there are no discrepancies found in the evaluation report.</td>
</tr>
<tr>
<td>3</td>
<td>CDR or commandant</td>
<td>If an error, violation of the regulation, or wrongdoing has occurred and the evaluation has not been forwarded to HQDA, the CDR or commandant will return the evaluation with the inquiry results to the senior rater or reviewer, as applicable. The CDR or commandant will ask that the report be corrected to account for matters revealed in the inquiry. This will be done with regard for the restrictions on command authority and influence (paras 1–11 and 4–5c). When the report has been corrected, it will be sent to HQDA with no reference to the action taken by the CDR or commandant (for example, the OER, NCOER, or AER only is forwarded); the results of the inquiry will remain with the CDR.</td>
</tr>
<tr>
<td>4</td>
<td>CDR or commandant</td>
<td>If the report has not yet been forwarded to HQDA and the CDR or commandant and the rating chain members cannot agree on the need for change in the report, the CDR or commandant will forward the evaluation report and the results of the inquiry to the appropriate agency (app F).</td>
</tr>
<tr>
<td>5</td>
<td>CDR or commandant</td>
<td>If the CDR or commandant finds that a report already forwarded to HQDA contains errors, or is in violation of this regulation, he or she will forward the results of the inquiry to the address indicated in step 4, above. Sufficient documentation, such as report and statements, will be attached to justify the conclusion.</td>
</tr>

</table>

Section III
Evaluation Appeals

4–7. Policies
a. An evaluation report accepted for inclusion in the official record of a rated Soldier’s OMPF is presumed to—
   (1) Be administratively correct.
   (2) Have been prepared by the proper rating officials.
   (3) Represent the considered opinion and objective judgment of the rating officials at the time of preparation.

b. Appeals based solely on statements from rating officials claiming administrative oversight or typographical error of an OER, NCOER, or AER will normally be returned without action unless accompanied by additional substantiating evidence.

c. The rated Soldier or other interested parties who know the circumstances of a rating may appeal any report that they believe is incorrect, inaccurate, or in violation of the intent of this regulation.
   (1) Other interested parties are limited to representatives of the following:
      (a) DCS, G–1.
      (b) AHRC.
      (c) Office of the Surgeon General.
      (d) Office of TJAG.
      (e) Office of the Chief of Chaplains.
      (f) NGB.
   (2) Other individuals knowing of an alleged rating injustice will contact one of the above agencies or the rated Soldier.

d. An appeal begun by any party on behalf of an appellant will be referred to the appellant for concurrence and comment before it is submitted.
e. The results of a CDR’s or Commandant’s Inquiry under paragraph 1–11 do not constitute an appeal. They may be used, however, in support of an appeal.

f. An appeal will be supported by substantiated evidence (see para 4–11). An appeal that alleges an evaluation report is incorrect, inaccurate, or unjust without usable supporting evidence will not be considered. The determination regarding adequacy of evidence may be made by HQDA, Evaluation Appeals Branch (AHRC–PDV–EA), NGB–ARP–C (Appeals Section), or the appropriate State AG (ARNG).

g. The BN/BDE S1 or administrative office servicing the rated Soldier’s unit may request minor administrative changes to an accepted report. However, the request will be accompanied by substantiating evidence. The type of evidence that could be used includes an official copy of DA Form 4037 (Officer Record Brief) or enlisted record brief, orders, or duty appointment documents. These requests are not appeals. See DA Pam 623–3 for information on appeals.

h. Appeals based on administrative error only will be adjudicated by HQDA, Evaluation Appeals Branch (AHRC–PDV–EA), for Regular Army and USAR evaluation reports. Appeals based on administrative error for ARNG evaluation reports will be adjudicated by NGB (NGB–ARP).

(1) Claims of administrative error pertain to—
   (a) DA Form 67–10 series, parts I, II, III, block a, III, block b, and IV, block a.
      Note. Request for administrative corrections to the “P” identifier utilized in part I, block c “Rank” after 180 days of the OER completing to the AMHRR, will not be supported. Requests for administrative corrections to alter the “P” identifier in part I, block c “Rank” will only reflect changes to the Rater and/or Senior Rater profile within 180 days of an OER completing to the AMHRR. Requests that are received 180 days or later for OERs completed to the AMHRR will result in corrections made only to the administrative data contained within the part I, block c, however, no change will occur to the Rater and/or Senior Rater’s profile.
   (b) DA Form 2166–8, parts I, II, and III.
   (c) DA Form 1059, items 1 through 12.
   (d) DA Form 1059–1, items 1 through 10.
   (2) Such claims may include, but are not limited to, deviation from the established rating chain, insufficient period of observation by the rating officials, errors in the evaluation report period, and errors in the APFT and/or height and weight entries.
   (3) Nonrated periods of time and missing evaluation reports require special consideration—
      Note. For evaluation reports on IMA and IRR Soldiers not performing duty, gaps will occur.
      (a) A period of undocumented nonrated time resulting in a gap between completed evaluation reports in a Soldier’s OMPF may be administratively corrected upon request from the rated Soldier, unless the period reflects a chain of command’s failure to render a mandatory report that was due (paras 3–40 through 3–55). In some cases, administratively correcting a “FROM” date on a report may cause it to be out of accordance with the rules of AR 623–3. When this occurs, the Evaluation Appeals Office will mark “Corrected Copy per HQDA Appeals Office” so the altered “FROM” date will be understood by future selection boards and career managers.
      (b) A period of time for which an evaluation report should have been prepared by the rating officials, but was not, will be left as a gap between reports in the Soldier’s file. The Soldier should make every effort to obtain missing evaluation reports from the rating officials. If the Soldier is unable to obtain a missing evaluation report, the Soldier should submit a request for a nonrated time statement in accordance with paragraph 3–33e. Requests submitted under these circumstances will be adjudicated on a case-by-case basis.
      Note. ARNG-specific nonrated time and missing evaluation reports are addressed in appendix H.
   (c) Requests for the administrative correction of evaluation reports at HQDA for nonrated time will be mailed to HRC (AHRC–PDV–EA) (mailing and e-mail addresses are in app F).

   (4) It should be noted that the rated Soldier’s authentication in part II of an OER or NCOER verifies the information in part I. It also confirms that the rating officials named in part II are those established as the rating chain and authenticates the accuracy of the APFT and height and weight entries made by the rater. Appeals based on alleged administrative errors in those portions of an evaluation report previously authenticated by the rated Soldier (parts I, II, and III, block a) will be accepted only under the most unusual and compelling circumstances. The rated Soldier’s signature also verifies that the rated Soldier has seen a completed evaluation report. Correction of minor administrative errors seldom serves as a basis to invalidate an evaluation report. Removal of an evaluation report for administrative reasons will be allowed only when circumstances preclude the correction of errors, and then only when retention of the evaluation report would clearly result in an injustice to the Soldier (see fig 4–2 for an example format for a request for minor administrative correction; see DA Pam 623–3 for an example memorandum format for an administrative appeal).
Alleged bias, prejudice, inaccurate or unjust ratings, or any matter other than administrative error are substantive in nature and will be adjudicated by the Army Special Review Board (ASRB) (see para 4–12).

1. Claims of inaccuracy of a substantive type pertain to—
   (a) DA Form 67–10 series, parts III, block c, parts IV, blocks b, c, d, and e, V, VI, and OER addenda.
   (b) DA Form 2166–8, parts IV and V.
   (c) DA Form 1059, parts 11–15.
   (d) DA Form 1059–1, parts 10–13.

2. These are generally claims of an inaccurate or an unjust evaluation of performance or potential or claims of bias on the part of the rating officials (see DA Pam 623–3 for examples of formats of substantive appeals).

After resolution of the appeal, the appropriate reviewing agency (HQDA for Regular Army and USAR, NGB for ARNG) amends the rated Soldier’s records, if appropriate. If the rated Soldier has been nonselected for promotion, the ASRB will also determine if promotion reconsideration is warranted as a result of the change to the evaluation report.
4–8. Timeliness
   a. Because evaluation reports are used for personnel management decisions, it is important to the Army and the rated Soldier that an erroneous evaluation report be corrected as soon as possible. As time passes, people forget and documents and key personnel are less available; consequently, preparation of a successful appeal becomes more difficult.
   b. Substantive appeals will be submitted within 3 years of an evaluation report “THRU” date. Failure to submit an appeal within this time will require the appellant to submit his or her appeal to the ABCMR, in accordance with AR 15–185. Soldiers may apply online to the ABCMR, http://arba.army.pentagon.mil.
   c. The ASRB will not accept appeals that are over 3 years old or appeals from Soldiers who are no longer on active duty or part of the USAR or ARNG. Retirees and/or those who were separated from service should make applications to the ABCMR online at http://arba.army.pentagon.mil.
   d. Administrative appeals will be considered regardless of the time that has elapsed since the period of the evaluation report and a decision will be made in view of the regulation in effect at the time the evaluation report was rendered. The likelihood of successfully appealing an evaluation report diminishes, as a rule, with the passage of time. Prompt submission is recommended.

4–9. Processing and resolution
   a. Receipt of appeals will be acknowledged directly to the originator or requestor. The time required to process an appeal varies greatly depending on the complexity of the issues involved, the age of the evaluation report being appealed, and so on. Appeals are processed in order of priority (see para 4–10) and by date of receipt. Appeals should be submitted no later than 9 months prior to a promotion board convene date.
   b. Reviewing officials will screen appeals to separate claims of administrative error from claims of inaccuracy or injustice of a substantive nature. Claims of substantive inaccuracy or injustice will be forwarded directly to the ASRB for adjudication. The Evaluation Appeals Branch (HQDA or NGB) (see app F) will verify the priority of the case by obtaining the information from either the Soldier’s AMHRR or the Soldier’s career branch.
   c. An appeal may be approved in whole or in part, or may be denied, depending upon the merits of the case. The result of a partially approved appeal may not be that requested by the appellant. For example, the board may decide that the evidence justifies removal of the rater’s evaluation, but that the senior rater’s evaluation will remain, as it was not proven inaccurate or unjust. The board will not usually take action that might worsen an appealed evaluation report.
   d. When the board grants an appeal, in whole or in part, resulting in the removal or substantive alteration of an evaluation report that was seen by one or more promotion boards that previously failed to select the appellant, the ASRB will make a determination whether promotion reconsideration by one or more special boards is justified.
   e. The reviewing agency will notify each appellant by memorandum of the appeal decision and promotion reconsideration eligibility, if applicable. When an appeal is denied, a copy of the board’s memorandum of notification will be filed in the AMHRR with the contested evaluation report. The appeal correspondence that resulted in a denied or a partially approved appeal will be placed on the restricted portion of the AMHRR. Documents that apply to appeals that are returned without action because of a lack of usable evidence will not be filed in the AMHRR. In the case of an invalidated evaluation report, a memorandum will be placed in the performance portion of the AMHRR declaring the period as nonrated time. In the case where a portion of an evaluation report is removed or corrected, the evaluation report will be corrected and placed in the performance portion of the AMHRR. A notation is placed at the bottom of the report to indicate the evaluation report is a “corrected copy.”
   f. If the appeal is denied, an appellant may seek new or additional evidence and submit a new appeal, or may submit an application to the next agency in the Army’s redress system, the ABCMR. The ABCMR is governed by AR 15–185.

4–10. Priorities
Appeals are processed in the order of priority established by the Evaluation Appeals Branch (HQDA or NGB). The Evaluation Appeals Branch (HQDA or NGB) will assign the level of priority for all evaluation appeals. Reviewing agencies will notify Appellants of the priority level upon preparation and forwarding appeals to Army Special Review Board Agency. Appellants are responsible for notifying the appropriate reviewing agency (HQDA or NGB) of any change in their status that would affect the priority. The Evaluation Appeals Branch (HQDA or NGB) will coordinate with the Army Special Review Board Agency to established priorities and update appropriately when priority levels require change based on Department of the Army mission requirements. Below represents example priorities, for use as a guide, on how levels of priority are determined.
   a. For officers appealing DA Form 67–10 series, DA Form 1059, and DA Form 1059–1.
      (1) First in priority are appeals pertaining to officers who have been—
         (a) Twice nonselected for promotion and given a directed discharge, release, or mandatory retirement date within 6 months.
         (b) Selected for release within 6 months by an HQDA elimination board or an AGR continuation board.
(c) Recommended for elimination within 6 months. This also applies to officers who have applied for and have been denied voluntary indefinite category.

(d) Notified for eligibility of a HQDA selection command board within 6 months.

(2) Second in priority are appeals pertaining to officers who—

(a) Have not been selected for promotion at least once but who do not have a mandatory release date within 6 months as a result.

(b) Are on a pending promotion list removal as stated in AR 600–8–29.

(3) Third in priority are appeals not eligible for higher priority.

b. For noncommissioned officers appealing DA Form 2166–8 and DA Form 1059.

(1) First in priority are appeals pertaining to NCOs who have been—

(a) Twice nonselected for promotion in the primary zone of consideration and are within 6 months of discharge, release from service (expiration term of service), or mandatory retirement date.

(b) Selected for release under the HQDA Qualitative Management Program or ARNG or USAR Qualitative Retention Program.

(c) Selected for release from AGR by an AGR continuation board.

(d) Identified for referral within 6 months to an AGR continuation board.

(2) Second in priority are appeals pertaining to NCOs who have been nonselected for promotion in the primary zone of consideration at least once, but who do not have a mandatory release date within 6 months.

(3) Third in priority are appeals not eligible for higher priority.

4–11. Burden of proof and type of evidence

a. The burden of proof rests with the appellant. Accordingly, to justify deletion or amendment of an evaluation report, the appellant will produce evidence that establishes clearly and convincingly that—

(1) The presumption of regularity referred to in paragraphs 3–36a and 4–7a will not be applied to the evaluation report under consideration.

(2) Action is warranted to correct a material error, inaccuracy, or injustice.

b. Clear and convincing evidence will be of a strong and compelling nature, not merely proof of the possibility of administrative error or factual inaccuracy. If the adjudication authority is convinced that an appellant is correct in some or all of the assertions, the clear and convincing standard has been met with regard to those assertions.

c. For a claim of administrative error, appropriate evidence may include the following:

(1) The published rating scheme used by the organization during the period of the report being appealed.

(2) Assignment, travel, or TDY orders.

(3) Electronic BN/BDE S1, military personnel office, or administrative human resources documents.

(4) Leave records.

(5) Organization manning documents.

(6) Hospital admission, diagnosis, and discharge sheets.

(7) Statements of military personnel officers or other persons who know about the situation pertaining to the evaluation report in question. (See DA Pam 623–3 for samples of formats for a letter requesting a third-party support statement and a prepared third party support statement.)

(8) The results of a CDR’s or Commandant’s inquiry.

(9) Other relevant documents.

d. For a claim of inaccuracy or injustice of a substantive type, evidence will include statements from third parties, rating officials, or other documents from official sources (see DA Pam 623–3). Third parties are persons other than the rated officer or rating officials who have knowledge of the appellant’s performance during the rating period. Such statements are afforded more weight if they are from persons who served in positions allowing them a good opportunity to observe firsthand the appellant’s performance as well as interactions with rating officials. Statements from rating officials are also acceptable if they relate to allegations of factual errors, erroneous perceptions, or claims of bias. To the extent practicable, such statements will include specific details of events or circumstances leading to inaccuracies, misrepresentations, or injustice at the time the evaluation report was rendered. The results of a CDR’s or Commandant’s Inquiry may provide support for an appeal request.

e. To be acceptable, evidence will be material and relevant to the appellant’s claim. In this regard, note that support forms or academic counseling forms may be used to facilitate writing an evaluation report. However, these are not controlling documents in terms of what is entered on the evaluation report form. Therefore, no appeal may be filed solely because the information on a support form or counseling form was omitted from an evaluation, or because the comments of rating officials on the evaluation report are not identical to those in the applicable support form or counseling form. While there will be consistency between a rating official’s comments on both forms, there may be factors other than those listed on a support form or counseling form to be considered when evaluating a rated Soldier. In addition, no appeal may be filed solely based on the contention that the appellant was never counseled. Evaluation reports written based on the findings of an AR 15–6 investigation will include a copy of the AR 15–6 investigation as
Steps for the preparation of an appeal are contained in table 4–2. Additional guidance is provided in DA Pam 623–3.

4–13. Appeals based on substantive inaccuracy

a. A decision to appeal an evaluation report will not be made lightly. Before deciding whether or not to appeal, the prospective appellant will analyze the case dispassionately. This is difficult, but unless it is done, the chances of a successful appeal are reduced. The prospective appellant will note that—

(1) Pleas for relief citing past or subsequent performance or assumed future value to the Army are rarely successful.

(2) Limited support is provided by statements from people who observed the appellant’s performance before or after the period in question (unless performing the same duty in the same unit under similar circumstances); letters of commendation or appreciation for specific but unrelated instances of outstanding performance; or citations for awards, inclusive of the same period.

b. Once the decision has been made to appeal an evaluation report, the appellant will state succinctly what is being appealed and the basis for the appeal. For example, the appellant will state—

(1) Whether the entire evaluation report is contested or only a specific part or comment.

(2) The basis for the belief that the rating officials were not objective or had an erroneous perception of their performance. Note that a personality conflict between the appellant and a rating official does not constitute grounds for a favorable appeal; it must be shown conclusively that the conflict resulted in an inaccurate or unjust evaluation.

c. Most appellants will never be completely satisfied with the evidence obtained. A point is reached, however, when the appellant will decide whether to submit with the available evidence or to forgo the appeal entirely. The following factors are to be considered:

(1) The evidence must support the allegation. The appellant needs to remember that the case will be reviewed by impartial board members who will be influenced only by the available evidence. Their decision will be based on their best judgment of the evidence provided.

(2) Correcting minor administrative errors or deleting one official’s rating does not invalidate the report.

4–14. Preparation

Steps for the preparation of an appeal are contained in table 4–2. Additional guidance is provided in DA Pam 623–3.
<table>
<thead>
<tr>
<th>Step</th>
<th>Work center</th>
<th>Action required</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Appellant or interested party</td>
<td>Review this chapter and DA Pam 623–3 to determine if an appeal submission is warranted.</td>
</tr>
<tr>
<td>2</td>
<td>Appellant or interested party</td>
<td>Prepare the appeal in memorandum format on letterhead or white bond paper.</td>
</tr>
<tr>
<td>3</td>
<td>Appellant or interested party</td>
<td>Ensure the appeal identifies the full name, SSN, rank, branch of the rated Soldier, return mailing address (home address is preferred), defense switched network (DSN) or commercial phone number, and official .gov or .mil email address of the appellant.</td>
</tr>
</tbody>
</table>
| 4    | Appellant or interested party | Ensure the first paragraph indicates the appeal is being submitted under the provisions of AR 623–3. The appeal will also—  
(a) Indicate the period of the report being appealed.  
(b) State the basis for the appeal (administrative error, inaccuracy of a substantive type, or both).  
(c) Cite the processing priority.  
(d) Reference supporting evidence. |
| 5    | Appellant or interested party | Follow the guidelines outlined below when submitting evidence in support of the appeal:  
(a) Administrative appeals will be proven by original or certified true copies of appropriate documents.  
(b) Substantive appeals will be supported by originals of typed, signed statements from knowledgeable observers or rating officials during the report period.  
(c) Statements from rating officials will not be the sole basis of the appeal.  
(d) Documents such as Army Training and Evaluation Program, annual general inspection, command inspection results, and so on may be useful in supporting a substantive appeal.  
(e) Statements provided in support of appeals will be original statements or official copies, if the original document is not provided.  
(f) A copy of the evaluation report in question will be included in the appeal.  
(g) Each appeal will be complete when received. An appeal will not be forwarded or considered until all supporting documentation is enclosed. Officials wishing to provide statements in support of an appeal will provide them to the officer concerned and not to the reviewing authority. No action will be taken on miscellaneous, unaccompanied statements or documents received at HQDA. They will be forwarded to the appellant. |
| 6    | Appellant or interested party | Submit completed appeal in original and one duplicate copy directly to the appropriate agency:  
(a) For all Regular Army and USAR appeals:  
U.S. Army Human Resources Command (AHRC–PDV–EA), Evaluation Appeals, 1600 Spearhead Division Avenue, Department 470, Fort Knox, KY 40122–5407  
(b) For ARNG officer and NCO appeals: Chief, National Guard Bureau (ARNG–HRH-A) Evaluation Appeals, 111 South George Mason Drive, Arlington, VA 22204–1373 |
| 7    | Appellant or interested party | Before mailing, review to ensure all enclosures are included, all signatures and dates are on all documents, and address and phone number are present. Enclose a copy of the complete original evaluation report and copy of appeal in a secure container, mailing envelope, or heavy wrapping, as required. |
| 8    | Appellant or interested party | Notify the appropriate agency promptly if mailing address or priority changes. Appellants are notified, in writing, of appeal decisions. Appellants will receive a copy of the ASRB's case summary. If appropriate, the appellant may submit a second appeal strengthened by additional evidence. As an alternative to reconsideration, appellants may apply to the ABCMR under the provisions of AR 15–185. |

Appendix B
Evaluation of Warrant Officers

B–1. Overview

a. Warrant officers are self-aware and adaptive technical experts, combat leaders, trainers, and advisors. Through progressive levels of expertise in assignments, training, and education, the warrant officer administers, manages, maintains, operates, and integrates Army systems and equipment across the full range of Army operations. Warrant officers are innovative integrators of emerging technologies, dynamic teachers, confident Warfighters, and developers of specialized teams of Soldiers. They support a wide range of Army missions throughout their careers. When assessing performance and potential, the rating chain will recognize the basic differences between warrant officers and commissioned officers. This appendix describes the differences, policies, and instructions to consider when evaluating warrant officers.

b. Warrant officer definition: “An officer appointed by warrant (or by commission to the chief warrant grades) by the Secretary of the Army, based on a sound level of technical and tactical competence. The warrant officer is the highly-specialized expert and trainer, who, by gaining progressive levels of expertise and leadership, operates, maintains, administers, and manages the Army’s equipment, support activities, or technical systems for an entire career.”
B–2. Warrant officer evaluation considerations

a. Warrant officer status. Warrant officers are comparable to commissioned officers in that both will be technically and tactically competent and are authorized to perform similar functions (such as, commanding a station, unit, or detachment; certifying vouchers; administering oaths; disbursing funds; and imposing discipline). Despite these similarities, the professional development, use, and evaluation of warrant officers are different from those of commissioned officers. The following differences will be considered when evaluating warrant officers:

(1) Warrant officers are appointed to serve in technical MOSs. Thus, their professional development is aimed at increasing competence in their specialties.

(2) Warrant officers will not be evaluated on their potential to fill positions of responsibility outside their specialties, except for DA/Army Command levels (for example, Army Material Command, Army Forces Command, and TRADOC levels) or MOS immaterial positions within the Army where duties require broad-spectrum knowledge of the organization and the functions of the Warrant Officer Corps, but are not directly associated with any specific branch or MOS.

b. Career patterns. Career patterns will be considered when evaluating warrant officers. DA Pam 600–3 contains general models that can aid in assessing self-development, professional preparation, and potential.

(1) Military occupational specialty. Warrant officers are skilled technicians whose career patterns are focused on MOS qualifications. They will be assigned principal duties for their grade or next higher grade in their primary or additional MOS. Exceptions require HQDA approval and will be explained in DA Form 67–10 series OER, part III, block c.

(2) Special emphasis areas. In addition to the requirement to maintain technical and tactical competence in their MOS, warrant officers will demonstrate performance and potential as Army officers. They will display leadership qualities, managerial talents, and technical and tactical competence in both their principal duty and in special emphasis areas involving other missions, tasks, and objectives that support the primary organizational mission. These areas include the following:

(a) Effective communication (brief supervisors and counsel subordinates).

(b) Sensitive interaction with people.

(c) Efficient performance of a variety of tasks (special emphasis areas as well as principal duties).

(d) Development of plans and supervision of their execution. Note that when evaluating warrant officers’ performance it will not be assumed that they are able to do all types of technical work. Their training and experience in their area of expertise will be considered. If warrant officers perform duty in areas outside their technical specialty, the evaluation will be based on willingness to assume responsibility, innovation, organizational ability, supervisory talents, and thoroughness.

(3) Career progression. When evaluating potential for selections (for example, promotion, retention, professional development, significant assignments), rating officials need to understand the progression pattern in the officer’s specific career field.

(a) Like commissioned officers, warrant officers’ careers progress in positions of increased responsibility. Unlike commissioned officer positions, the skill hierarchy in warrant officer positions of responsibility is not always parallel to organizational echelons. For example, in some MOSs, company-level technical and tactical skill requirements may be greater than those required in the same MOS at the BN level.

(b) Progression within an MOS is aimed at preparing the officer to assume positions of increased responsibility within their career field and is not always associated with progression in the Army’s organizational structure.

(c) Developmental opportunities to consider when evaluating potential in each career field are found in DA Pam 600–3. The highest potential evaluations will go to those who have, by demonstrated performance, shown that they are qualified for appropriate training and assignment.

(d) Performance evaluation will include the full range of warrant officer duties, technical and tactical expertise in the MOS, and leadership and managerial skills.

c. Education. Rating officials will be aware of educational requirements in the warrant officer’s career field when evaluating potential.

(1) The Officer Education System, described in DA Pam 600–3, summarizes the training warrant officers receive to become qualified as leaders, technical operators, maintainers, administrators, and managers.

(a) Technical qualification may be obtained through formal civilian or military schooling, OJT, and/or individual study.

(b) The minimum civilian education prerequisite for appointment as a warrant officer is normally high school completion.

(c) The HQDA civilian education objective is attainment of an associate degree in a MOS-related discipline by the 5th year of warrant officer service and a baccalaureate degree prior to promotion to CW4.

(2) The relationship of the evaluation to a warrant officer’s educational career pattern will be recognized. Technical advances and new equipment and concepts dictate that warrant officers stay technically and tactically proficient.

(a) The functional and career training requirements of warrant officers’ MOSs are determined by MOS proponents and approved by HQDA under the Total Warrant Officer System.
When evaluating educational progress and potential for future schooling, rating officials will refer to DA Pam 600–3 for requirements in each career field. Rating officials will comment in the performance section of the OER on any recently-increased educational qualifications and on individual efforts to attain HQDA civilian educational goals. Comments will be made on DA Form 67–10 series OER part VI, block c, on whether individual warrant officers are to attend a specific functional course in their career pattern.

B–3. DA Form 67–10 series OER
The basic forms used to evaluate commissioned officers and warrant officers are the same. There are; however, some differences.

a. Part III. Enter the MOS of the warrant officer’s principal duty in part III, block b. If this entry is not the same as the primary MOS or is an additional MOS held by the warrant officer, refer to the HQDA career management approval in part III, block c.

b. Part IV. The rater will compare the rated officer’s performance and professionalism with attributes and competencies established within the Leadership Requirements Model that apply to all officers regardless of rank or duty position.

c. Parts V and VI. These are the same for warrant officers and commissioned officers. Warrant officers, however, will also be rated on their potential for the technical positions in which they are qualified and not those positions with responsibilities outside their specialties.

Appendix C
Evaluation of U.S. Army Chaplains
This appendix provides an overview of the requirements, performance, and attributes of religious support in the military and guidance for effective use of DA Forms 67–10 series OER and 67–10–1A. It is essential for personnel involved in the evaluation process to have a clear understanding of both this appendix and AR 165–1.

C–1. Chaplain religious support roles
The needs and roles pertaining to military religious support in any given situation must be clearly defined. Primary responsibility for religious support belongs to the CDR. CDRs will fulfill their responsibility for the total religious welfare of their command by ensuring that DA Form 67–10–1A is used to discuss the performance of chaplains (to include staff officer and religious support responsibilities). Chaplains fulfill their responsibilities for military religious support by—

a. Realizing that each opportunity for religious support is unique.

b. Carefully analyzing their capabilities.

c. Understanding their denominational obligations and responsibilities.

d. Engaging in the organizational planning and execution processes for all operations and programs to meet the religious support needs of the organization.

e. Meeting the various religious needs of the community of faith and the represented distinctive faith groups.

f. Executing assigned unit and area coverage responsibilities.

C–2. Chaplain professional training and experience
Chaplains are normally ordered to active duty as 1LTs and are promoted to CPT within a few months after coming on active duty. Some chaplains may enter active duty as a CPT based on their number of years of civilian pastoral experience or a USAR rank. Rating officials will understand that chaplains, with a given date of rank, generally have less military experience than their Army competitive category officer peers with the same date of rank. This will be considered when evaluating initial-tour chaplains. Additionally, the requirements for seminary training and pastoral experience before entry on active duty will vary among denominations. As a result, chaplains with the same date of rank and similar military experience may have significant variations in age, training, and professional experiences. These unique differences will not influence evaluations in ERS; evaluations will be based on the chaplain’s performance and experience.

C–3. Chaplain rating chain
There will be a supervisory chaplain in the rating chain when possible. For example, a BDE chaplain, as the supervisory chaplain, will be the intermediate rater for a BN chaplain. In the absence of a supervisory chaplain, a senior chaplain familiar with the rated chaplain’s performance will be designated as the intermediate rater if qualifications are met (see para 2–6 for intermediate rater qualifications).

C–4. Religious support coverage
Chaplains are assigned in accordance with the Command Master Religious Program to provide unit, area, and
denominational coverage. Because of the dispersion of troops and a shortage of particular denominational chaplains, CDRs need to support chaplains required to perform area religious support in their performance of area religious support coverage.

C–5. Chaplaincy attributes and Army Values
Certain skills and attributes are important for professional development of the chaplain and will be considered by the rating officials when completing DA Form 67–10 series OER and DA Form 67–10–1A. The following are some examples of chaplain leadership potential:

a. The ability to support the professionalism of other chaplains. There is a diversity of ministry and pastoral styles and denominational requirements among Army chaplains. The chaplain’s supervisor will understand and appreciate the diversity, and support those involved in religious support different from their own. Chaplains will be constructive and objective in their supervision of other chaplains.

b. Consultation and confrontation skills. Chaplains will raise questions that enable CDRs to understand the religious, moral, and ethical impact of issues. This relationship will be issue-oriented, non-blaming, and specific.

c. Accountability. Chaplains will accept responsibility for success or failure and learn from the experiences.

d. Integration. Chaplains will seek to integrate specific military staff skills with their professional religious convictions, practices and the Chaplain Leadership Skills and Attributes, Army and Chaplaincy Values. Chaplains will demonstrate an ability to function in crisis and under stress.

e. Spiritual discernment. Chaplains, as men and women of faith, will need to identify and enumerate the diverse possibilities of spiritual significance of common life experiences among the people they support, and access the diverse spiritual significance and interpretation of common life experiences among the people they support.

f. Risk-taking ability. In meeting the distinctive and diverse needs of Soldiers and Families, the chaplain will possess maturity and skills to make change even at the risk of being criticized for exercising their convictions.

g. Development of a “systems sense.” Chaplains will understand and appreciate the Army systems in which religious support is performed and how the chaplain can influence the spiritual, ethical, and moral good of the community. The systems sense normally develops as chaplains progress in rank and staff experience. This sense of systems integration is a primary contribution of the chaplain to the CDR’s ability to plan for and support the free exercise of religion within an organization through the full range of operations.

h. Performance counseling. Performance counseling is a supervisory skill. Performance counseling is objective and conveys to the supervised person the nature and quality of his or her functioning on the job.

C–6. Professional skills and responsibilities
Every chaplain has professional skills and responsibilities under the chaplaincy’s two core capabilities of religious support and special staff work. The chaplain’s assignment will indicate the balance of work performed under these capabilities. In some cases, the chaplain will be responsible for a preponderance of religious support responsibilities and will require the support, training, and evaluation suitable for this work. In other cases, the chaplain will be assigned to a preponderance of staff work and will require the support, training, and evaluation appropriate for the assignment. In every assignment, as part of the core mission of the chaplaincy, chaplains will perform some functions under religious support and staff work. The following functions are often performed by chaplains. Knowledge of these functions will assist rating officials in evaluating effective religious support programs, which will—

a. Provide religious services and programs designed to meet the needs of diverse and distinctive faith groups in the organization and community.

b. Speak with a credible and prophetic voice on military procedures and policies that violate the ethical and moral values of the Army or that isolate or unjustly treat individuals or groups.

c. Support and respect the distinctive requirements and religious professionalism of other chaplains.

d. Cooperate in the total command religious program and ensure religious support for units that have no assigned chaplains.

e. Assist the CDR in planning for the resourcing and execution of all items of the Religious Support Program.

f. Help identify for the command potentially disruptive social patterns that violate federal standards for EO.

g. Enlist, train, and involve persons in programs of worship, community involvement, and religious education.

h. Facilitate healthy interpersonal relationships in congregational activities, work groups, Family life, and community activities.

i. Use creative methods of instruction that involve people in personal and spiritual growth.

j. Establish rapport with personnel (to include military personnel, authorized civilians, retired personnel, and their Families) of varied religious, cultural, and social backgrounds.

k. Effectively manage current resources and identify additional resources needed to implement religious programs.

l. Advise and assist RC units and personnel concerning military religious support.

m. Perform religious support in crisis.

n. Provide ethical and moral leadership across the full spectrum of operations.
C-7. DA Form 67–10 series OER

The following guidance will assist the rating officials to complete certain portions on DA Form 67–10 series OER:

a. Part III, block a. Select the most appropriate, specific functional duty position title. The following representative duty position titles may be used, although the list is not all inclusive:

1. Chaplaincy resources manager.
2. Clinical pastoral education supervisor.
3. Command, unit (that is, BN, BDE, brigade combat team (BCT), division, Army command), or organization chaplain.
4. Community pastor.
5. Confinement facility chaplain.
6. Family life center chaplain.
7. Chaplain hospital clinician.
8. Chaplain pastoral coordinator.
9. USAR chaplain coordinator.
10. Chaplain Service school instructor.
11. Plans and operations chaplain.
12. Operations and staff support chaplain.
13. Other areas of interest that do not require full-time activity but provide significant ministries will be added to the above list as additional duties. The following list is representative:
   a. Supervisory chaplain (number of chaplains supervised).
   b. Staff and parish development consultant.
   c. Chaplain training manager (supervises planning and execution of unit ministry team training).
   d. Religious education supervisory chaplain.
   e. Area ministry.

b. Parts IV, V, and VI. The list below represents some of those areas in which the chaplain may be rated to be the most competent and have the greatest potential:

1. Preaching and leading in worship.
2. Religious education.
3. Pastoral counseling.
4. Staff officer.
5. Supervision of other chaplains and staff.
6. Staff and parish development.
7. Pastoral visitation of troops and Families.
8. Human relations and small group ministry.
9. Program or project management.
10. Administration.
11. Civilian community relations.
12. Reserve component chaplain coordinator.
14. Unit ministry team leader.

c. Parts IV, V, and VI. If the rated chaplain is well qualified for advanced professional (civilian) training, identify no more than two areas for which they will be recommended using the list in paragraph a, above. If appropriate, cite instances of the chaplain’s specific performance using paragraph C–6.

d. Clinical pastoral education or Family Life Chaplain Training Supervisory in Training Program. Chaplains participating in the clinical pastoral education or Supervisory in Training Program will receive an AER for the 1st year in the program and OERs for subsequent evaluations during the program.

Appendix D
Special Considerations for Rating Judge Advocate General’s Corps Officers
D–1. Overview
The mission of the JAGC is to develop, employ, and retain One Team of proactive professionals, forged by the warrior ethos, who deliver principled counsel and mission-focused legal services to the Army and the Nation. This legal service encompasses six core legal disciplines: administrative law; civil law (including contract, fiscal, and environmental law); claims; international and operational law; legal assistance; and military justice. All judge advocates are bound by a strict code of professional responsibility, and therefore are required at all times to provide legal, accurate, and competent advice. Refer to DA Pam 600–3 for more details on the roles and responsibilities of JAGC officers.

D–2. Evaluation of Judge Advocate General’s Corps officers
a. Only TJAG, the Deputy Judge Advocate General, and commissioned officers of the U.S. Army judiciary may serve as rater, intermediate rater, or senior rater of a JAGC officer assigned to the U.S. Army judiciary as a military judge or to the U.S. Army Legal Services Agency as a military magistrate.

b. No convening authority or any member of their staff may evaluate a JAGC officer assigned additional duties as a military judge or as military magistrate on the performance of his or her duties in that capacity.

c. No rating official will give an adverse or less favorable rating or comment regarding a rated officer because they zealously represented, in any official capacity, an eligible individual with whom the rated officer had formed an attorney-client relationship.

d. JAGC officers assigned to BCTs will have a rating chain that is in accordance with paragraph 2–3 and will normally be considered as serving under dual supervision; therefore, paragraph 2–21 applies.

(1) BDE judge advocates will, whenever possible, be rated by their local staff judge advocate and senior rated by the BCT CDR.

(2) Trial counsel officers will normally be rated by the BDE judge advocate, intermediate rated by the BCT executive officer, and senior rated by the staff judge advocate.

D–3. Evaluating officer detailed to on-the-job training
a. Officers attending law school under TJAG’s FLEP will be evaluated for periods of OJT, as described in paragraph 3–51. When evaluating these officers, consider their grade, experience, and schooling. They will not be compared with experienced lawyers.

b. For officers taking part in the FLEP, the following entry will be placed in DA Form 67–10 series, part III, block c: “Officer is a full-time, active-duty student attending law school at Government expense under AR 27–1. On-the-job training continues in the summer when school is not in session.”

c. Upon completion of FLEP, and while still affiliated with a university education program pending successful completion of a state bar exam, DA Form 1059–1 will be used to comment on any non-judge advocate duties performed after the officer successfully graduates law school but before the officer successfully completes a state bar examination. A FLEP officer completing BOLC is required to receive a DA Form 1059.

Note. This period of time will also be accounted for as nonrated time using the appropriate nonrated time codes on the rated officer’s initial tour of extended active duty OER. It will cover the period since the “THRU” date of the last JAGC–OJT OER and before the first duty days performed as a JAGC officer.

D–4. Initial tour of extended active duty
a. A code 14, “Initial” OER will be rendered upon completion of 120 duty days as a JAGC officer, regardless of prior service in a branch other than JAGC, in a principal duty assignment under a single rater as detailed in paragraph 3–52. This applies only if no OER has been made during the current period of service.

b. A code 14, “Initial” OER applies only to officers who complete law school under TJAG’s FLEP.

c. Officers programmed for attendance at BOLC will not be evaluated in accordance with this paragraph before completing the course.

D–5. Judge Advocate General’s Corps officers assigned to the U.S. Army Trial Defense Service
These officers are not considered to be under dual supervision (see para 2–21).

Appendix E
Evaluation of U.S. Army Medical Department Officers

E–1. Evaluation of Army Medical Department residents, interns, and fellowship students
The OER has a unique purpose when used to evaluate the performance and potential of medical corps (MC), dental corps (DC), veterinary corps (VC), Army nurse corps (AN), medical specialty corps (SP), medical service corps (MS) resident, intern, and fellowship students in graduate health education (also referred to as Long Term Health Education and Training). Special instructions for rating MC, DC, VC, AN, SP, and MS residents, interns, and fellowship students
are specified below. The OERs will be completed as prescribed in chapter 3, unless indicated otherwise in this appendix.

a. DA Form 67–10–1A.
   (1) Part I will be completed by servicing administrative office.
   (2) Part IV will be completed by the servicing administrative office. The duty title will be specific (for example, intern, first-year surgical resident, dietetic intern, dental general practice resident, veterinary preceptorship, clinical pathology). The duty area of concentration for this assignment will reflect the specialty for which the rated officer is being trained.
   (3) Part V will describe the program goals (to include academic and practicum requirements) and achievements during the rating period.

b. DA Form 67–10 series. This form will be completed in accordance with DA Pam 623–3.
   (1) Part II, Authentication, will be completed in accordance with DA Pam 623–3.
   (2) Part III, Duty Description, comprised of three parts:
      (a) Part III, block a, Principal Duty Title. The duty title will parallel the duty title shown on the DA Form 67–10–1A.
      (b) Part III, block b, Duty Area of Concentration. Enter the specialty for which the rated officer is being trained.
      (c) Part III, block c, Significant Duties and Responsibilities. Refer to DA Form 67–10–1A, part IV, block c. This portion allows the rater to describe the rated officer’s program, to include academic and practicum requirements during the rating period. When utilized, most raters will use part IV, block c of DA Form 67–10–1A to help them complete this section. This information is particularly important to HQDA selection boards; therefore, raters will record it with thought and detail.
   (3) Part IV, Performance Evaluation-Professionalism, Competencies and Attributes. The rater completes these items as directed in DA Pam 623–3.
      (a) Performance Comments (part IV, block c, on CGP-OERs; part IV, blocks d, on FGP-OERs; part IV, blocks c, on SGP-OERs). Comment on specific aspects of performance during the rated period. This portion is most significant because it provides HQDA with a detailed account of the participants’ progress in their graduate health education. These comments will describe the rated officer’s academic and practicum achievements. In the case of MC and DC officers, the house staff evaluation report, as required by AR 351–3, will assist the rating official. These comments will be brief but will provide DA with a clear description of the officer’s graduate education progress.
      (b) Performance Ratings and Overall Performance Comments (part IV, blocks b on CGP-OERs and part IV, block e on FGP-OERs). Complete as directed in DA Pam 623–3. Comment on the performance of the rated officers compared with their contemporaries during the evaluation period. The focus is on the results achieved and the manner by which they were achieved.
   (4) Part V, Intermediate Rater will be completed as directed in DA Pam 623–3.
   (5) Part VI, Senior Rater, will be completed as directed in DA Pam 623–3.

c. DA Form 1059 and DA Form 1059–1. These forms will be prepared by Service schools and civilian institutions in accordance with DA Pam 623–3.

d. Rating officials for medical corps, dental corps, veterinary corps, Army nurse corps, medical specialty corps, and medical service corps resident, intern, and fellowship students in graduate health education.
   (1) Medical corps and dental corps officers. CDRs will designate as rating officials those staff officers directly responsible for the education program of the rated officer at the lowest practical level. Exceptions to paragraphs 2–5, 2–6, and 2–7 are—
      (a) The rating officials need not be senior to the rated officer; however, the senior rater will be senior in grade or date of rank to the rater.
      (b) The teaching chiefs for the Dental Graduate Education Programs are authorized to rate officers senior to them in grade and date of rank. This exception will be used only when the teaching chief totally supervises the student’s graduate level instructions and day-to-day duties in the educational environments.
   (2) Other Army Medical Department officers. These evaluation reports are completed as directed by the proper authority.
   (3) Change in type of internship. Change in type of internship. If an officer changes from a rotating (or flexible) internship to a straight internship in an expanded residency specialty after 90 days but before completion of the internship year, an OER will be submitted. If the officer has already been selected for a residency in the specialty to which the internship is changed, submit a “Change of Duty” evaluation report showing the new duty as first-year graduate medical education; otherwise, submit a “Change of Rater” evaluation report.

E–2. Newly commissioned Army Medical Department officers
Newly commissioned AMEDD officers begin their military careers with the necessary skill sets to perform their assigned duties even before successfully completing the Officer Basic Leaders Course (phases I and II). These officers are entitled to receive mandatory and optional OERs as detailed in chapter 3. In order to receive an OER, the rated
Provisions apply only if the requirement of paragraph
senior raters. CDRs who are junior by date of rank to the rater and senior rater may serve as the reviewer. These
(see para 2–5).

The following conditions will be met in order for a junior AMEDD COL CDR to senior rate or review officers and
E–4. Junior Army Medical Department colonel commanders as senior raters or reviewers
The following conditions will be met in order for a junior AMEDD COL CDR to senior rate or review officers and
NCOs in their command.

a. Officer evaluation reports. As an exception to paragraph 2–7a(10) and table 2–1, CDRs junior by date of rank to
the rated officer and rating chain may serve as senior raters, provided—
(1) They have been appointed as a CDR by the direction of the President of the United States (see AR 600–20).
(2) They are authorized to rate the rated officer’s rater and/or intermediate rater in accordance with this regulation
(see para 2–5).
b. Noncommissioned officer evaluation reports. CDRs who are junior by date of rank to the rater may serve as
senior raters. CDRs who are junior by date of rank to the rater and senior rater may serve as the reviewer. These
provisions apply only if the requirement of paragraph a(1) is met and they are authorized to rate the rated NCO’s rater
and/or senior rater.

E–5. Rating officials for U.S. Army Medical Command, subordinate Army Medical Commands,
activities, and field operating agencies
The following rules apply to US Army Medical Command (MEDCOM) and its Field Operating Agencies (FOAs),
Regional Medical Commands (RMCs), US Army Medical Department Center and School (AMEDDC&S), U.S. Army
Medical Research and Materiel Command (MRMC), US Army Public Health Command (PHC), US Army Dental
Command (DENCOM), Warrior Transition Command (WTC), and their respective subordinate activities.
a. Major subordinate CDRs, MEDCOM, will be evaluated as follows:
(1) The CDRs of Southern, Northern, and Western RMCs will be rated and senior rated by the CG, MEDCOM.
However, when the CDR of an RMC also serves as the Hospital Commander, then a case of dual-supervision exists
and the CDR, RMC/Hospital will be rated by the Installation Commander and senior rated by the CG, MEDCOM,
regardless of date of rank.
(2) The CDR, Europe RMC, will be rated by the Dep CDR, USAREUR, and senior rated by the CG, MEDCOM,
regardless of date of rank. The CDR, USAREUR may serve as the intermediate rater at their option.
(3) The CDR, Pacific RMC, will be rated by CDR, U.S. Army Pacific and senior rated by CG MEDCOM,
regardless of date of rank.
(4) The CDRs, AMEDDC&S, MRMC, PHC, and WTC will be rated and senior rated by the CG, MEDCOM.
b. When none of the above rules can be applied, the CG, MEDCOM, will be the rater and senior rater for the major
subordinate CDR concerned. The installation CDR will submit written comments concerning the rated officer’s duty
performance to the CG, MEDCOM, in accordance with paragraph 2–21. When serving as both rater and senior rater,
The CG, MEDCOM, may delegate rater and/or senior rater responsibility to his or her DSG or DCG, provided the
DSG or DCG meet the grade or date of rank requirements to serve as raters.
c. The CDR, Health Facility Planning Agency (HFPA) will be rated by the Dep Chief of Staff, G-9, MEDCOM, and
senior rated by the DCG -SPT, MEDCOM. The CDR, US Army Medical Information Technology Center (USAMITC)
will be rated by the Dep CoS, G-6, and senior rated by the DCG-Spt.
d. The CDR, US Army Health Care Acquisition Activity (HCAA) will be rated by the Senior Acquisition Corps
Officer, as designated by DOD, and senior rated by the CG, MEDCOM. HCAA officers will be rated by the CDR,
HCAA, grade permitting, and senior rated by the Senior Acquisition Corps Officer in accordance with DOD policy.
e. CDRs, US Army Medical Centers (MEDCEN), and Medical Department Activities (MEDDACs), are considered
to be under dual-supervision. Under the provisions of paragraph 2–21, the rater and senior rater responsibilities will
be shared between the CDRs, Installation/community, and the CDRs, RMC. The senior CDR will serve as the senior rater.
f. The CDR, DENCOM, and subordinate dental units will be evaluated as follows:
   (1) The CDR, DENCOM, will be rated by the DCG-Opns, MEDCOM, and senior rated by the CG, MEDCOM.
   (2) The CDRs, Regional Dental Commands, will be rated by the CDR, DENCOM, and senior rated by the DCG-Opns, MEDCOM.
   (3) The CDRs, Dental Commands (DENTAC) will be rated by the CDRs, Regional Dental Commands, grade permitting, and senior rated by the installation CDR.

(4) Dental Clinic CDRs (DCC) are considered to be under dual supervision. The CDRs, DENTAC and installation will serve as rater and senior rater. The senior CDR will senior rate.

   g. The Director, Preventive Health Services Office (POPM) is considered to be under dual-supervision. The rater and senior rater responsibilities will be shared between the parent unit, PHC, and Office of the Surgeon General/ MEDCOM. The DCS, G–3/5/7, MEDCOM, will serve as the rater and the CG, PHC, will serve as the senior rater as the Functional Proponent. Officers assigned to POPM will be rated in accordance with the rating chain policies of chapter 2.

   h. Commanders junior by grade to their subordinate commanders are not authorized to serve as rater or senior rater to those commanders senior by grade. Accordingly, major subordinate commands will ensure that junior officers are not assigned to command positions whereby they will be junior in grade to their subordinate CDRs.

   i. Deputy CDRs for Administration (DCA) will be rated as follows:
      (1) General officer RMC CDRs will rate and senior rate RMC DCAs. If the RMC CDR is a field grade officer, the RMC DCA will be rated by the RMC CDR and senior rated by the DCG-Opns, MEDCOM.
      (2) The Medical Center (MEDCEN) and Medical Department Activity (MEDDAC) DCAs will be rated by the MEDCEN/MEDDAC CDR and senior rated by the RMC CDR. When applicable, the installation CDR will serve as the intermediate rater under the dual-supervision provisions of paragraph 2–21.

   j. Deputy CDRs for Clinical Services (DCCS) will be rated as follows:
      (1) General officer RMC CDRs will rate and senior rate RMC DCCSs. If the RMC CDR is not a general officer, the RMC DCCS will be rated by the RMC CDR and senior rated by the DCG-Opns, MEDCOM.
      (2) The MEDCEN/MEDDAC DCCSs will be rated by the MEDCEN/MEDDAC CDR and senior rated by the RMC CDR. When applicable, the installation CDR will serve as the intermediate rater under the dual-supervision provisions of paragraph 2–21.

   k. The Chief Nurse will be rated as follows:
      (1) The Senior Nurse Executive, MEDCOM, will be rated by the Director, Patient Care Integration, grade or date of rank permitting. If the DCS, G–3/5/7 is a general officer, he or she will senior rate; otherwise, the CofS, MEDCOM, will serve as the senior rater.
      (2) The RMC Regional Nurse Executive will be rated and senior rated by the general officer RMC CDR. If the RMC CDR is not a general officer, the RMC CDR will rate and the DCG-Opns, MEDCOM, will senior rate.
      (3) The MEDCEN/MEDDAC Deputy CDR for Nursing (DCN)/Chief, Nurse will be rated by the MEDCEN/MEDDAC CDR and senior rated by the RMC CDR.
      (4) The CDR, U.S. Army Health Clinic, will rate the DCN/Chief Nurse. The senior rater will be the MEDDAC or RMC CDR, depending on who is the MTF’s next higher command.

   l. Certified Registered Nurse Anesthetists serve under dual-supervision. Accordingly, the rater and senior rater role will be shared between the Chiefs, Nursing and Surgery Departments. Seniority will determine the rater and senior rater responsibilities.

   m. CDRs, chiefs, or officers-in-charge of health clinics, or installations where there is no RMC or MEDDAC, and who also serve as the installation CDR’s director of health services will be rated as follows:
      (1) The installation CDR will serve as rater when senior to the rated officer but junior by grade or date of rank to the MEDDAC or RMC CDR exercising command and control over the health clinic. The MEDDAC or RMC CDR, whichever applies, will serve as the senior rater.
      (2) The Dep CDR or member of the installation CDR’s staff, as designated by the installation CDR, will serve as the rater when the installation CDR is senior to the RMC or MEDDAC CDR that exercises command and control over the health clinic. The MEDDAC or RMC CDR, whichever applies, will serve as the senior rater.
      (3) In instances where the installation CDR is junior by grade to the rated officer, the MEDDAC or RMC CDR, whichever applies, will serve as the rater. The installation CDR will provide a memorandum of input for the rater’s use in preparing the OER. If the RMC CDR serving as the rater is a general officer, the RMC CDR will also serve as the senior rater. If a field grade RMC CDR is the rater, the senior rater will be the DCG-Opns, MEDCOM. If the MEDDAC CDR is serving as the rater, the RMC CDR will serve as the senior rater.

   n. The Director, U.S. Army Aeromedical Center, will be rated by the DCS, G–3/5/7, MEDCOM, grade or date of rank permitting, and senior rated by CofS, MEDCOM.

   o. The Chiefs, Department of Dentistry, MEDDAC, will be rated as follows:
      (1) The MEDDAC DCCS will serve as rater, grade or date of rank permitting and the DENTAC CDR will serve as
the senior rater. The MEDDAC’s Chief, Department of Surgery will serve as the intermediate rater, grade or date of rank permitting.

(2) When neither the MEDDAC DCCS nor chief of surgery or are qualified to serve in the rating chain, they will provide a letter of input to the DENTAC CDR who will serve as the rater. The CDR, District or Regional Dental Command, whichever serves as the next higher command, will serve as the senior rater, grade permitting.

p. Unless otherwise specified in this Appendix, the rating schemes for Dental Corps officers will include only Dental Corps officers.

q. Unless otherwise specified in this appendix, the rating chain for all MEDCOM personnel will be in MEDCOM channels.

r. Where compliance with this paragraph cannot be accomplished because of grade or date of rank structure, or dual-supervision is questionable, contact the Evaluations Branch, Mil HR Div, MEDCOM for assistance in obtaining the proper rating scheme.

E–6. Rating officials for Army Reserve and Army National Guard Army Medical Department officers

The following rules apply to USAR AMEDD IMA, DIMA, TPU, IRR, and Standby Reserve AMEDD officers assigned or attached to Regular Army AMEDD units for AT, ADT, IDT, ADOS–RC, ADOS, or CO–ADOS:

a. An exception to the requirement for the rater to be senior to the rated officer by date of rank is granted, provided the rater is the immediate supervisor and he or she meets the minimum time requirements.

b. The senior rater will be senior to the rated officer and the rater, except as indicated below:

(1) COL CDRs may serve as senior raters for COL USAR and ARNG AMEDD officers assigned or attached to their unit for duty.

(2) In instances where the VETCOM or DENCOM CDR is serving as the rater, the senior rater will be the CG, MEDCOM.

c. COL CDRs serving as senior raters for COL USAR and ARNG AMEDD officers will cite this paragraph as authority to senior rate on DA Form 67–10 series OER, part VI, block c. Under no circumstances will a COL CDR serve as both rater and senior rater.

d. See paragraph G–5k for USAR AMEDD officers who are attached to and managed by the APMC.

Requests for nonrated time statements (for ARNG service only) will be sent to the rated Soldier’s State officer personnel manager (OPM) or EPM. |
| **Chief, National Guard Bureau** | Appeals and addenda for ARNG officer:  
DA Form 67–10 series, DA Form 1059, DA Form 1059–1 and substantive appeals for ARNG NCO DA Form 2166–8 and enlisted DA Form 1059 |
| **Evaluation Appeals (ARNG–HRH)**  
111 South George Mason Drive, Arlington, VA 22204–1373 | Note. Administrative appeals for ARNG DA Form 2166–8 and DA Form 1059 will be addressed to the rated NCO’s State EPM. |
Appendix G
Managing U.S. Army Reserve Evaluation Reports

G–1. Overview
Evaluation reports for AGR Soldiers within the USAR will follow the rules established for Regular Army Soldiers. Unique USAR and AGR evaluation report preparation and processing instructions are also found in DA Pam 623–3. This appendix addresses exceptions to policy and procedures found in chapters 1, 2, and 3 that are required to meet the unique characteristics of the USAR. All other provisions of the regulation apply, unless otherwise indicated.

a. This appendix applies to the following USAR Soldiers:
   (1) TPU, DIMA, IMA, IRR, reinforcement training unit, and Standby Reserve (active list) Soldiers.
   (2) Soldiers on ADOS, ADOS–RC, and CO–ADOS, on AT, IDT, and ADT tours.

b. Evaluation reports for Soldiers in sanctuary or AGR status will be submitted under the same guidance as for Regular Army Soldiers.

c. Where situations do not appear to be covered by this chapter, send requests for clarification to the Evaluation Systems and Policy Office (see app F).

G–2. The evaluation process
The evaluation process starts with a counseling discussion between rater and the rated Soldier.

a. For TPU, DIMA, and drilling IRR Soldiers: The initial counseling session will be conducted at the first available
drill (within 30 days whenever possible). Follow-up counseling for IRR Soldiers will be conducted when performing an active duty tour for more than 180 days or when attached for IDT for more than 180 days.

b. For ADOS–RC, ADOS, and CO–ADOS: The initial counseling session will be conducted within 30 days of reporting to a unit of assignment or beginning a new rating period.

G–3. Designation and qualification of rating officials
Rating officials must be qualified to serve in their rating official capacity using chapter 2 along with the USAR-specific modifications below.

a. Rating schemes for military technicians. When establishing rating schemes and designating rating officials for Soldiers in the MT program there are restrictions when a condition, normally referred to as “grade inversion” exists. Grade inversion is defined as a condition where an MT who, in his or her civilian MT capacity, is designated as a rating official over a military subordinate who, when the MT serves on military duty in the same unit, is the military supervisor of that MT in his or her military capacity. Such arrangements are contrary to military order and discipline. MTs in their civilian capacity will not be designated as rating officials over Soldiers when a grade inversion exists. However, when it is not practical and no other alternative exists, the first general officer in the chain of command may approve an exception to policy for resulting rating schemes. Approval memoranda for such exceptions to policy will be maintained at the unit level. As soon as an MT stops being an active unit member there is no restriction with regard to his or her service as rating officials.

b. Rating schemes for USAR Soldiers on active duty tours. For Soldiers on AT, ADT, ADOS–RC, ADOS, CO–ADOS, and IDT tours of specified periods less than 90 days, all rating officials will have served in that capacity for a minimum of 12 or more consecutive calendar days.

Note. For Soldiers on tours of specified periods greater than 90 days, chapter 2 rules apply.

c. Rating schemes for Soldiers assigned or attached to organizations for indefinite periods. The following rules will apply:
   (1) The rater will have served in that capacity for 120 days.
   (2) The intermediate or senior rater will have served in that capacity for 90 days.
   (3) This does not apply to officers when mobilized; chapter 2 rules apply during mobilization periods.
   (4) General officers who are qualified and serving as both rater and senior rater may render evaluation reports on rated Soldiers after meeting a 90–day, versus a 120–day, rating requirement.

d. Rating schemes for Individual Ready Reserve Soldiers. Rating schemes for IRR Soldiers attached to a unit for points only will follow the same guidance as for TPU Soldiers.

e. Authorized rating scheme exception. The USAR deputy CG or Deputy Commander Army Reserve for Operations, Readiness, Training, and Mobilization (DCAR, ORT&M), an MG, may rate other subordinate USAR MGs who are senior in date of rank to the deputy CG or DCAR, ORT&M. The deputy CG or DCAR, ORT may also senior rate or review subordinate officers and NCOs of these senior officers.

f. Requests for exceptions to policy. In rare cases when it is necessary to obtain an exception to policy for designating rating officials—
   (1) Requests for exceptions to policy will be in accordance with paragraph 2–7a(7).
   (2) Any HQDA-approved exception to rating officials must be cited in published rating schemes. The rating official serving under exception will cite the authority to evaluate by exception on the evaluation report and will attach a copy of the approval memorandum as an enclosure at the time of submission (see paras 3–33 and 3–35).
   (3) The HQDA memorandum of exception states the rated Soldier’s name and rank, the position in which the rated Soldier serves, the specific period covered by the exception, the rating official’s name and position authorized to evaluate by the exception, and the reason for the exception.

G–4. Continuity of rating periods
Reports rendered on IRR or IMA Soldiers may cause interruptions, or gaps, in a Soldier’s evaluation report history. Gap times will be either acceptable or unacceptable.

a. Acceptable gap times in a Soldier’s evaluation report history include non-drilling IRR, APMC-managed officers released from attachment or assignment for the purpose of mobilization, Ready Reserve status, breaks in service, or Soldiers (excluding TPU Soldiers) who are “no-shows” to a unit. During gap times, Soldiers are not in a ratable status (there is no rater/rated Soldier relationship and the Soldier is not drilling) and there is no expectation of an evaluation report.

Note. Soldiers assigned to the IRR or the Ready Reserve are not in a ratable status, unless drilling. Periods when there is no rater/rated Soldier relationship are acceptable gaps in these Soldiers’ evaluation report history. The gap is supported by the orders assigning him or her to the IRR or Ready Reserve or subsequent mobilization orders. The FROM date of an evaluation report will be the date the Soldier is assigned to a TPU.

b. Unacceptable gap times include periods when a rated Soldier was in a status that warranted an evaluation report
but rating officials failed to render a report. Such gap times will be resolved by the rating chain with responsibility for the rated Soldier.

c. Periods when a rated Soldier is in a “medical hold” status may be either rated time or nonrated time depending what the Soldier is doing (for example, Soldiers in a hold status may be assigned to a rating chain for evaluation report purposes, unless otherwise prohibited by this regulation; however, periods of specialized training, in-transit travel, and schooling are nonrated time on evaluation reports). See paragraph 3–34 for some special evaluation report situations.

d. Periods of nonparticipation will be documented as nonrated time on evaluation reports (nonrated code “Z” in accordance with DA Pam 623–3).

e. When a Soldiers’ participation is unsatisfactory due to failure to participate in any battle assemblies or AT, and the Soldier is declared an unsatisfactory participant, they can no longer be evaluated; thereafter, until he or she returns to an active status and begin participating, the time period covered by the unsatisfactory performance will be documented as nonrated time on evaluation reports (nonrated code “A” in accordance with DA Pam 623–3). No report will be rendered until the Soldier returns to an active status and meets minimum rater qualifications (see para G–5g).

f. Rating official instructions in chapter 2 discuss rating officials’ and the rated Soldier’s responsibilities.

g. Rating officials will not comment on the Soldier’s performance during gap times as well as nonrated periods as indicated in paragraphs 3–16, 3–17, and 3–33.

G–5. Reporting periods and types of evaluation reports

Reports covered in chapter 3, sections VIII and IX take precedence over other optional reports. USAR-specific reporting requirements are as follows:

a. Soldiers will receive “Annual” evaluation reports following 1 calendar year out of the IRR, Regular Army, or ARNG.

b. Soldiers in the Selected Reserve (TPU, IMA, and DIMA Soldiers) will receive evaluation reports annually, at a minimum, from the unit of assignment or attachment.

c. IRR Soldiers attached to a unit for points only will receive evaluation reports under the same criteria as TPU Soldiers.

Note. The Soldier can only be attached to one unit at a time for points only.

d. For Soldiers in an active status for 30 days or more at a military or civilian school, an AER will be prepared upon completion of military or civilian schools for which a USAR Soldier is authorized to receive an AER.

Note. Instead of a DA Form 1059, a DA Form 87 will be awarded to Soldiers for completing the ALC common curriculum (phase I); unless there is no ALC technical phase established for a Soldier’s MOS.

e. When minimum rater qualifications are met, USAR Soldiers entering duty with the Regular Army in an individual status will receive an evaluation report prior to departing the USAR unit. This does not apply to Soldiers in an IRR status or those attached or assigned to the APMC. The “THRU” date of the evaluation report will be the day before the effective date of active duty. When an entire unit mobilizes, however, a report is not required unless otherwise required by chapter 3.

f. For general officer IMA personnel, OERs will be prepared annually or upon completion of 12 cumulative days of AT, as desired by the rated officers in coordination with their proponent agencies (see AR 140–145). The rating period will begin on the date of assignment to an IMA position or the AT start date.

g. Periods of unsatisfactory participation will be nonrated time on evaluation reports. Evaluation reports cannot be prepared on Soldiers who have not met minimum rater qualification due to nonparticipation in battle assemblies.

Note. IRR time is not a ratable status; therefore, it will appear as an acceptable gap in a Soldier’s evaluation report history.

h. For Soldiers assigned or attached to TPU s or Rotational Training Units (RTUs), an evaluation report will be submitted per chapter 3. However, in lieu of the 90–day requirement to qualify as a rater, the minimum period of time for an “Annual” evaluation report will cover the following:

(1) If units are authorized 48 annual drills: 120 calendar days or more in the same position under the same rater.
(2) If units are authorized 24 annual drills: 16 or more regularly scheduled drills, in the same position under the same rater.

i. DIMA Soldiers assigned to a proponent agency will normally receive evaluation reports under the same guidance as for TPU Soldiers. If events occur that require the preparation of an evaluation report before 1 calendar year (365 days or 366 days if the Leap Year date, 29 February, is included in the period covered) has elapsed, a evaluation report with the appropriate reason for submission will be prepared. Evaluation reports will cover performance and potential demonstrated in IDT status throughout the year and AT.

Note. If AT is hosted by a second agency other than proponent agency, the AT host agency will provide letter input to proponent agency for the period of time on AT. This input from the second agency will be considered for inclusion in the evaluation report prepared by the host unit. Alternatively, the supervisor from the organization where AT was conducted may serve as an intermediate rater on an OER for a DIMA officer.

j. For IMA and IRR officers attached to the USMA Liaison Program, known as military academy liaison officers,
“Annual” evaluation reports will be submitted on 30 September of each year. For TPU officers serving military academy liaison officers, letter input for an OER prepared by the rated officer’s host unit will be provided, upon request.

k. For officers attached or assigned to the APMC.

(1) Army Medical Department officers who do not complete annual training or extended combat training. Officers attached or assigned to the APMC who have not completed at least 12 consecutive days of AT or extended combat training but who have accumulated 50 or more retirement points will receive a DA Form 67–10 series OER using code 19, “AHRC-Directed”, as the reason for submission.

(a) For rated officers who perform AT or extended combat training with the APMC the following data will be included on the OER in order to allow it to be processed:

1. Part I, all administrative data.
2. Part II, authentication data for the CDR, APMC, as both the rater and senior rater (unable to evaluate the rated officer because he or she has not served as the senior rater for the required number of days).
3. Part III, duty title “APMC–Managed Officer,” duty description for the officer’s area of concentration, and area of concentration code.
4. Parts IV, all blocks except block b for CGP-OERs, block e for FGP-OERs, and block c2 “potential comments” for SGP-OER will be completed.
5. Parts IV performance comments will be based on relevant training performed, other than duties mentioned in the duty description, which may have some impact in the event of mobilization.

Note. In part VI, block e using the electronic form in the Evaluation Entry System, the CDR, APMC will check the “NO” box in response to the question, “Have you been the senior rater for this officer for at least 60 days?” The comment “I am unable to evaluate the rated officer because I have not been his or her senior rater for the required number of days.” will populate in part VI, block c. The senior rater will also check the “NO” box in response to the question, “Is the rated officer available for signature?”

(b) The “FROM” date on an initial OER for an APMC officer will begin on the date of attachment and will be adjusted to the officer’s retirement year ending date. The “THRU” date will be the anniversary of the officer’s retirement year end date. The “FROM” date of successive reports will be the day after the “THRU” date of the previous OER.

(c) The CDR, APMC, will evaluate the rated officer as the rater and there will be no other rating officials. The CDR, APMC, will enter authentication data as the rater and senior rater and they will digitally sign the OER. The rated officer will not sign the completed DA Form 67–10 series OER in part II, block d before submission to HQDA.

Note. Submission of OERs requires the entry of the required statement “The rated officer is unavailable to sign.”

(d) Comments on the duties performed and training accomplished will be based on information provided on the DA Form 67–10–1A, DA Form 1380 (Record of Individual Performance of Reserve Duty Training), and other pertinent documents provided to the CDR, APMC by the APDC officer and/or their chain of supervision at their duty location.

(e) A statement regarding APFT failure, noncompliance with weight standards, and/or the omission of these data, will be entered in part IV, block a, if applicable. When applicable, the OER will be marked as a referred OER; however, as an exception to policy, referred OERs on APMC-managed officers will not be referred to the rated officer as indicated for all other OERs in paragraph 3–28 or DA Pam 623–3.

(f) Newly commissioned officers who have not completed the BOLC (phases I and II) must meet all of the requirements stated in paragraph k(1)to receive an OER.

(g) See DA Pam 623–3, for specific items to complete on OERs for APMC-managed AMEDD officers.

(2) Army Medical Officers who complete annual training or extended combat training with a unit other than Army Medical Department Professional Management Command. For rated officers who perform AT or extended combat training with a unit other than the APMC, the unit where the duty is performed will prepare and submit the OER in accordance with chapter 3.

l. The code 43, USAR general officer nomination OER, will only be used for nominative positions as directed by the Secretary of the Army.

m. Newly commissioned officers or newly appointed warrant officers who have not yet completed their respective officer basic course (BOLC or WOBC) and are assigned or attached to a TPU or reinforcement training unit are entitled to receive mandatory and optional OERs as detailed in chapter 3. In order to receive an OER, the rated officer must have been assigned under a rater for a minimum of 120 days (or 90 days for USAR Soldiers on ADT or ADOS–RC tours). The senior rater will enter a comment in the OER, part VI, block c, indicating that the officer has not yet completed the basic course as of the “THRU” date of the report. The “FROM” date on the rated officer’s first OER will be his or her commissioning date.

n. During periods of mobilization, when an entire unit is mobilized, and the rating chain remains intact, an OER will not be prepared unless otherwise required under chapter 3 (for example, “Annual”, “Change of Rater” or “Change of Duty”).

o. CDR, USARC, 7th Civil Support Command, and the 9th Mission Support Command may direct reports required for board actions when the officer has not received an OER since being commissioned or appointed, provided the
officer has served in the same position under the same rater for 120 days. A copy of the USARC letter directing the OER will be attached to the OER when it is forwarded to HQDA.

Appendix H
Managing Army National Guard Evaluations

H–1. Overview
This appendix addresses exceptions to policy and procedures found in chapters 1, 2, and 3 that apply to the ERS within the ARNG. Unique ARNG and AGR evaluation report preparation and processing instructions are also found in DA Pam 623–3.

a. This appendix applies only to traditional (M-day) ARNG Soldiers with either temporary or permanent Federal recognition serving on ADT, active duty support (ADS), ADOS–RC, AT, IDT, and full-time National Guard duty special work. However, this chapter does not apply to ARNG members on ADOS/CO–ADOS duty or on statutory tours of active duty under the provisions of 10 USC 10211, 12301, and 12402. The term “ARNG Soldier” refers to officers, warrant officers, and NCOs collectively, unless otherwise specified.

b. This chapter does not apply to ARNG Soldiers serving on active duty or full-time ARNG duty under 10 USC and 32 USC AGR tours, to include Presidential Selective Reserve Call-up, partial or full mobilization for emergency or war, or ADOS. ARNG Soldiers in these groups receive their mandatory and optional OERs or NCOERs under the same guidance as for Regular Army Soldiers in accordance with chapter 3.

c. The term “States” as used in this chapter applies to the 50 United States, the territories of Guam, Puerto Rico, the U.S. Virgin Islands, and the District of Columbia. The term “State Adjutant General (AG)” refers to the CG of each of those States that use such a designation for officers of equivalent positions.

H–2. Command roles

a. The CNGB will—

(1) Act for the Secretary of the Army and direct the effective operation of the ERS in the ARNG.
(2) Delegate final review authority on all ARNG evaluation reports arriving at the ARNG readiness center to DCS, G–1 staff at NGB. This includes the following:
   (a) Return to the State those reports that appear to be in error or violate the provisions of this regulation.
   (b) Request the State submit addenda to reports needing clarification.
   (c) Collect information to be attached as addenda to reports when such action is necessary by—
      1. Requesting reports when the circumstances warrant and other provisions, of this regulation, do not apply.
      2. Providing clarification of policy, exceptions to policy, and/or form new policy, as the need arises.
      3. Disposing of CDR’s inquiries according to chapter 4.

b. State AGs and CDRs will ensure that—

(1) Each rating official is fully qualified to meet his or her responsibilities (see chap 2).
(2) Reports are completed by rating chain officials named in the published rating scheme.
(3) Rating schemes are published by name showing the rater, intermediate rater (if applicable), the senior rater, and the reviewer (if applicable) and the effective date on which they assumed the role. Rating schemes will be given an effective date, and distributed to the rated officer and each member of his or her rating chain. Changes to existing rating chains will also be dated, published, and distributed. Changes to rating chains will not be retroactive.
(4) Rating officials give timely counseling to subordinates on professionalism and job performance and encourage self-improvement, when needed.
(5) Each rating official knows how the subordinates he or she evaluates have performed.
(6) Each senior rater understands that he or she will examine the entries on evaluation reports to ensure that objectivity and fairness have been maintained. When doing so, they will keep in mind the interests of the Army, the ARNG, and the rated ARNG Soldier. The senior rater will also understand that if discrepancies are noted, clarifying or corrective action will be taken (see paras 2–15, 2–17, and 2–18).
(7) All rated Soldiers are provided a copy of their completed evaluation reports.
(8) Referred OERs and AERs (paras 3–26 and 3–27) will be provided to the rated Soldier for acknowledgment or comment before being sent to HQDA (OERs) or the State OPM or EPM office (AERs), as appropriate. This also applies to OER or AER addendums containing newly received derogatory information and submitted under the provisions of paragraphs 3–36 and 3–38 (also see chap 3, sec III). The referred evaluation report provision above does not apply to NCOERs.
(9) State military personnel officers comply with BN or BDE administrative office procedures outlined in this regulation or DA Pam 623–3.
(10) Completed OERs arrive at HQDA no later than 90 calendar days after the “THRU” date of the report.
A comment will be made in the rater’s portion of the OER or NCOER regarding the rated ARNG Soldier’s military education status.

c. In addition to the above, State AGs and CDRs will perform the duties described in paragraph 1–11 and chapter 4 when a evaluation report by one their subordinates appears illegal, unjust, or otherwise in violation of this regulation.

d. State AGs may also request from the CNGB, clarification of policies, exception to policies, or new policies when situations arise that—

(1) Are not clearly and adequately covered by this regulation.

(2) Would result in an injustice to a Soldier or a disservice to the Army if a new policy is not made or an exception is not granted.

H–3. Rating chain

a. Rating chains for OERs and NCOERs will correspond as nearly as practicable to the chain of command and supervision within an organization.

b. Rating chains will normally consist of the rated ARNG Soldier, the rater, and the senior rater (see para 2–3).

When a rating chain is established, the rater, intermediate rater (if applicable, for OERs only), senior rater, and reviewer (primarily for NCOERs) are the first officials designated (see table 2–1 and paras 2–4, 2–6, 2–7, and 2–8). Some OER rating chains may have an intermediate rater (see para 2–6) and/or a supplementary reviewer (paras 2–7 and 2–8). Rating schemes and all subsequent changes will be published with an effective date and distributed in accordance with paragraph H–2b(3). No changes to rating chains may be retroactive.

Note. Pooling, or elevating the rating chain beyond the senior rater’s ability to have adequate knowledge of each Soldier’s performance and potential, in order to provide an elevated assessment protection for a specific group, runs counter to the intent of the ERS. Rating schemes based on pooling erode Soldiers’ confidence in the fairness of the ERS and in their leaders. CDRs at all levels must ensure rating chains correspond as nearly as practical to the chain of command or supervision within an organization. Senior raters must evaluate and identify their best Soldiers based on performance and potential, regardless of the particular position they occupy.

c. In rare cases when it is necessary to obtain an exception to policy for designating rating officials—

(1) Requests for exceptions to policy will be in accordance with paragraph 2–7a(7).

(2) Any HQDA-approved exception to rating officials must be cited in published rating schemes. The rating official serving under exception will cite the authority to evaluate by exception on the evaluation report and will attach a copy of the approval memorandum as an enclosure at the time of submission (see paras 3–33 and 3–35).

(3) The HQDA memorandum of exception states the rated Soldier’s name and rank, the position in which the rated Soldier serves, the specific period covered by the exception, the rating official’s name and position authorized to evaluate by the exception, and the reason for the exception.

d. Rules for establishing rating chains for general officers are in table H–1.

Notes:

1 No OER or NCOER will be rendered for a State AG unless a Governor of the State or Territory—or in the case of the CG of the District of Columbia National Guard, the Secretary of the Army—desires to write an OER or NCOER.

2 Or overseas CDR, if applicable.
H–4. Rated Soldier
   a. The rated Soldier is discussed in detail in paragraph 2–10.
   b. In order to be eligible for an evaluation report, ARNG Soldiers will complete 120 calendar days (excluding nonrated periods) in the same duty position under the same rater.

   Note. No comments pertaining to any nonrated periods will be included on OERs or NCOERs
   c. A newly commissioned officer or newly appointed warrant officer will not be rated on an OER prior to completing BOLC or WOBC in accordance with paragraphs 3–2i and 3–34b.

H–5. Rater
   a. The roles of the rater are discussed in detail in paragraphs 2–5 and 2–12.
   b. The rater, who is the immediate supervisor of the rated ARNG Soldier, will serve for a minimum period of 120 rated days in order to render an OER or NCOER for all cases except “Relief for Cause” reports involving misconduct. The 120–day period may be waived by a general officer in the chain of command or an officer having general court-martial jurisdiction over the relieved Soldier, including the State AG.
   c. For NCOs on a Key Personnel Upgrade Program or similar tour of fewer than 16 days, the supervisor will provide the normal rater with a memorandum providing input for the NCO’s next NCOER.

H–6. Intermediate rater (DA Form 67–10 series only)
   a. The roles of the intermediate rater are discussed in detail in paragraphs 2–6 and 2–13.
   b. The intermediate rater will be designated and serve for at least 90 calendar days in order to render an OER on a rated ARNG officer.

H–7. Senior rater
   a. The roles of the senior rater are discussed in detail in paragraphs 2–7 and 2–14.
   b. The senior rater will serve for a minimum period of 90 calendar days in order to render an OER or NCOER on a rated ARNG Soldier. However, the senior rater may, at his or her option, evaluate a rated Soldier after being in the position 60 calendar days (see para 3–57).
   c. Senior raters for OERs must meet the grade requirements specified in table 2–1.

H–8. Exceptions to rating chain qualifications and program responsibilities
   The following are exceptions to the rating chain qualifications of paragraph 2–5c:
   a. The assistant AG, Army, or the State CSM may rate an ARNG CSM serving as an NCO academy commandant.
   b. The State AG will rate the State CSM.

H–9. Review requirements and roles
   a. Review requirements and roles are given in paragraphs 2–8 and 2–14.
   b. For OERs, there are two exceptions to the provisions of this paragraph:
      (1) All OERs requiring supplementary reviews will be sent to the address listed in appendix F.
      (2) All OERs will be sent to the ARNG Officer Management Branch (see app F).
   c. For NCOERs, a separate reviewer is always required (para 2–15). There is no minimum time-in-position requirement for the reviewer to review the report.

H–10. Evaluation report forms and processing
   a. In addition to the evaluation principles and forms outlined in this regulation and DA Pam 623–3, nonrated time statements will be used by ARNG Soldiers to account for acceptable gaps between existing ARNG OERs or NCOERs, missing ARNG reports, and for OERs or NCOERs periods covered by approved appeals. Requests for nonrated time statements (para 3–33) will be submitted in memorandum format through the rated Soldier’s State OPM (OERs) or EPM (NCOERs) (address in table H–3).
   b. If a Soldier has undocumented nonrated time, the rated Soldier’s unit may request a nonrated time statement. Requests for the issuance of nonrated time statements for qualifying periods will be processed as follows:
      (1) For OERs, the rated officer’s State OPM will prepare a nonrated time statement, signed by the State OPM, and will forward it to NGB (NGB–ARP–C) (address in app F).
      (2) For NCOERs, the rated NCO’s State EPM will prepare a nonrated time statement, signed by the State G–1, to be processed at the state level.
   c. Intermediate-level activities will review requests to determine the accuracy of the information provided to substantiate the need for issuance of a nonrated time statement. Endorsements will be construed as certification by that activity of the accuracy of the request. Requests that do not have a state-level endorsement will be returned without action. The request will include the rated Soldier’s name, rank, SSN, branch, state of assignment during the rating period in question, the applicable dates, and a brief narrative summary of the facts and circumstances. Copies of OERs
or NCOERs that serve to document a gap between periods covered need not be submitted if the reports have been previously forwarded for processing. If the nonrated time request is rejected, the State AG will receive an explanation along with the original request for a nonrated time statement.

d. If 2 years or more have elapsed since the “THRU” date of the OER or NCOER in question, the period will be evaluated by the State OPM or EPM and a nonrated time statement will be issued, if deemed appropriate.

e. If the nonrated period was served in a component other than ARNG, the rated Soldier’s unit or component at the time of the nonrated period will prepare and forward a request for a nonrated time statement to HQDA in accordance with paragraph 3–33f.

f. To the greatest extent possible, gaps of nonrated time between successive OERs or NCOERs will be accounted for by requesting changes in “FROM” and “THRU” dates and entering the corresponding nonrated codes (see para 3–33d).

g. As an exception, for periods of ING status, an OER or NCOER is not expected and a nonrated time statement is not necessary.

Note. A nonrated time statement will not be issued for periods when an OER or NCOER was due, but the rating officials failed to prepare an OER or NCOER.

H–11. Mandatory evaluation reports, 120–day minimum

Reports listed in this paragraph and in chapter 3 are required if the rated Soldier has at least 120 calendar days, excluding nonrated periods, in the same duty position under the same rater during the rating period.

Note. The time period covered by an AER is counted as nonrated time on OERs and NCOERs covering the same period.

a. All reassignments not involving a change of component. This includes transfer (PCS) to another State, another unit within the same State, or another duty position within the same unit. A “Change of Duty” evaluation report will be prepared in these cases, provided that the minimum rating qualifications are met. Transfer to other component OERs or NCOERs, in accordance with DA Pam 623–3, will be used to reflect a change in component (Regular Army or USAR).

b. Annual reports. The following rules apply:

1. An “Annual” evaluation report is mandatory upon completion of 1 calendar year of duty following the “THRU” date of the last OER or NCOER submitted, as long as the 120–day minimum rating requirement is met. The “THRU” date on the OER or NCOER will be extended until these minimums are met, when required. Soldiers will receive “Annual” evaluation reports following 1 calendar year out of the ING, Regular Army, or USAR.

2. An “Annual” evaluation report will not be submitted if the rated officer is in a patient detachment, a student at a resident service school over 30 days, in a transient status, or in confinement; the OER or NCOER will be prepared after the officer returns to duty and completes the 120–day requirement.

c. Departure for 30 days or more. When an officer who has met the 120–day requirement departs on AGR, ADS, ADOS–RC, or ADT for 30 calendar days or more with the NGB, State headquarters, or another organization or agency, an OER will be prepared. The parent unit will render a “Change of Duty” evaluation report if the 120–day rule has been met prior to the officer’s departure. The unit or agencies to which the rated individual is assigned for AGR, ADS, ADOS–RC, or ADT will render the OER covering those periods, to include nonrated periods prior to a change in status, if the 120–day rule was not met.

d. Officer recommended for elimination. An OER is mandatory when an officer has been recommended for elimination by—

1. A board of inquiry that met under AR 135–175. This applies only if the officer has not received a an OER during the 120 days immediately preceding the date the major CDR’s recommendation is forwarded through the State military personnel officer to the ARNG Personnel Services Division (see address in AR 135–175).

2. A selection board. This applies only if the officer has fewer than 3 years of service and an OER has not been submitted during the 120–day period immediately preceding the date of the officer’s letter of rebuttal through the State OPM office to the Officer Management Branch.

e. Officer failing selection for promotion. An officer who fails to be selected for promotion in the ARNG will receive an OER prior to the next promotion board that will consider his or her records. However, the following conditions will be satisfied:

1. The rated officer has not received an OER since the announcement that they are not selected for promotion.

2. The rating period will cover 120 or more calendar days as of the date in the ARNG Personnel Services Division letter announcing the zone of consideration for the next board that will consider the rated officer. This date will be the same as the date used for a “Complete the Record” evaluation report.

3. The minimum time requirement for the rater is satisfied.

f. For Army National Guard officers entering on duty with the Regular Army. The “THRU” date of the OER will be the day before the effective date of active duty.

g. Mobilization. During period of mobilization, when an entire unit is mobilized and the rating chain remains intact,
an OER is not required unless otherwise required under chapter 3 (for example, “Annual,” “Change of Rater,” and “Change of Duty”).

H–12. Mandatory evaluation reports, other than 120–day minimum
Evaluation reports will be prepared as discussed in the following paragraphs and in chapter 3. Specific time requirements, if any, are listed in the descriptions of each occasion or event.

a. Nomination for promotion to general officer. An OER will be submitted when an officer is being nominated for promotion to general officer.

b. Active duty for training, active duty support, and Active Duty for Operational Support–Reserve Component. An OER or NCOER will be submitted for any period of 30 continuous calendar days or more spent on ADT, ADS, or ADOS–RC, at NGB, State headquarters, or another organization or agency. The preparing organization or agency and the rated Soldier are jointly responsible to ensure that the OER or NCOER has the correct nonrated code(s) annotated with any nonrated period that may have accrued if the rated officer was not entitled to an OER or NCOER upon departure.

c. By direction of the National Guard Bureau. An OER or NCOER will be submitted when directed by the NGB to fill a need when other types of reports in this regulation do not apply. In rare instances, State AGs may request the NGB direct an OER or NCOER under specific situations. Such requests will be sent to the ARNG Readiness Center. The 120–day requirement does not apply to NGB-directed reports.

d. Inactive national guard status (officer evaluation report). An OER will be prepared upon an officer’s transfer to the ING. Once transferred to the ING, the officer is not in a ratable status and an OER will not normally be prepared.

H–13. Mandatory noncommissioned officer reports

a. “Relief for Cause” reports. A “Relief for Cause” evaluation report is required if an NCO is relieved for cause. The policy and guidance in paragraph 3–55 and DA Pam 623–3, apply to all ARNG NCOs, except that the minimum rating period is 90 rated days (3 continuous months).

b. “Change of Rater” reports. “Change of Rater” evaluation reports are optional for ARNG NCOs whose rater transfers within the unit. A “Change of Rater” evaluation report is required when—

(1) An ARNG NCO or the rater transfers to another unit.

(2) An ARNG NCO or the rater transfers to the IRR or another component.

(3) Directed by the chain of command in conjunction with a change-of-rater or change-of-duty assignment.

c. Inactive national guard status (noncommissioned officer evaluation reports). An NCOER will be prepared upon an NCO’s transfer to the ING.

(1) Once transferred to the ING, the NCO is not in a ratable status and an NCOER is not normally be prepared.

(2) However, NCOERs will be prepared for SGTs and above who attend AT of more than 11 days and return to ING upon completion of the AT period. A copy of the completed NCOER will be forwarded to the State (or Territory) EPM no later than 30 days after the ending date of the NCOER. A copy will be given to the rated NCO and the original will be filed in the NCO’s AMHRR.

H–14. Optional reports
Reports in this paragraph and in chapter 3, section X, may be submitted at the option of rating officials.

a. “Complete the Record” (officer evaluation report only). At the option of the rater, an OER may be submitted on a rated officer who is about to be considered by an HQDA selection board for promotion or schooling (for example, officers competing for Senior Service College). However, the rated officer will have served for a minimum of 120 calendar days (excluding nonrated periods) in the same position under the same rater as of the date of the memorandum announcing the zone of consideration.

b. “Senior Rater Option” evaluation report. When a change in the senior rater occurs, the senior rater may direct that a “Senior Rater Option” evaluation report be made on any officer or NCO he or she senior rates. This applies only if the following conditions are met:

(1) The senior rater has served in that position for at least 60 days.

(2) The rater meets the minimum requirements to give a report.

(3) The rated Soldier has not received a report in the preceding 6 months.

c. “Rater Option” (officer evaluation report only). When one of the conditions described in paragraphs 3–40 through 3–43 occurs but there are fewer than 120 calendar days (excluding nonrated periods) in the rating period, a “Rater Option” may be submitted on a rated officer at the option of the rater. However, the rated officer will have served continuously under the same rater in the same position for 120 or more calendar days in a previous rating period.

H–15. Special officer and academic evaluation report processing at unit level

a. Referred reports.

(1) If the referral of a negative or derogatory OER or AER is required (paras 3–26 or 3–27), the senior rater will
personally refer the OER or AER to the rated officer for acknowledgment and comment before sending it through the State OPM or EPM Office to HQDA.

(2) Other procedures for referred evaluation reports are as described in paragraph 3–28 and DA Pam 623–3.

b. “Relief for Cause” reports. “Relief for Cause” evaluation reports will be referred to the rated officer as described above (see paras 2–17 and 3–55).

(1) If the relief is directed by the rater or intermediate rater, senior raters will do the review provided they are ARNG officers (see chap 2). Otherwise, the first ARNG officer in the chain of command above the individual directing the relief will review “Relief for Cause” evaluation reports.

(2) The procedures for reviewing “Relief for Cause” evaluation reports are as follows:

(a) If the senior rater is satisfied that the “Relief for Cause” evaluation is clear, accurate, complete, and fully in accordance with the provisions of this regulation, he or she will indicate in the narrative that the “Relief for Cause” evaluation complies with this regulation.

(b) If the senior rater finds that the “Relief for Cause” evaluation report is unclear, contains factual errors, or is otherwise in violation of this regulation, he or she will return the “Relief for Cause” evaluation report to the rater or intermediate rater indicating what is wrong. The senior rater will avoid all statements and actions that may influence or alter an honest evaluation by the rater or intermediate rater. When the “Relief for Cause” evaluation report has been corrected, it will be returned to the senior rater.

(c) If the corrected “Relief for Cause” evaluation report is satisfactory to the senior rater, he or she will indicate in the narrative that the “Relief for Cause” evaluation report complies with this regulation.

(d) If the corrected “Relief for Cause” evaluation report is not satisfactory to the senior rater or if the other rating officials disagree with the need for changes in the “Relief for Cause” evaluation report, he or she will indicate objections to the “Relief for Cause” evaluation report in a narrative and forward the “Relief for Cause” evaluation report. When indicating objections, the senior rater is restricted to the issues listed in paragraph 2–17.

(e) If the relief was directed by the senior rater or someone above the senior rater in the chain of command, the “Relief for Cause” evaluation report will be reviewed by the first ARNG officer in the chain of command above the individual directing the relief. This officer will perform the review functions described in paragraph 2–17 using an enclosure to the OER in the format shown in figure 2–4.

H–16. Preparation and processing of forms

a. Preparation. Evaluation report forms will be prepared electronically on current form versions within the Evaluation Entry System portal. Distinct, clear impressions are required so that legible copies of the evaluation report can be provided to the rated officer, State headquarters, and HQDA. Authorized abbreviations may be used; however, avoid acronyms. Facsimile signatures are not authorized (see DA Pam 623–3 for procedural guidance).

b. Processing. Procedures for processing ARNG evaluation reports differ from those for Regular Army and USAR report. After evaluation reports are completed by the rating officials and provided to the rated Soldier for signature, the forms are either forwarded to HQDA (officer AERs and OERs) or retained by the State OPM or EPM office (NCO AERs and NCOERs) (addresses in app F). Disposition procedures for ARNG evaluation reports are shown in table H–2.

(1) When rated ARNG Soldiers digitally sign evaluation reports, the electronic copy is their copy. Soldiers who manually sign evaluation reports will receive a paper copy of the evaluation report. Soldiers who fail to receive a completed evaluation report within 90 days after the “THRU” date of the evaluation report will request the evaluation report from the senior rater or reviewing official or the appropriate State OPM/EPM office. A Soldier may view evaluation reports that have been fully processed and filed in his or her online AMHRR.

(2) The ARNG Readiness Center will reproduce and provide an ARNG Soldier with one or more copies of his or her official evaluation reports upon written request from the Soldier or an authorized representative in accordance with AR 600–8–104, chapter 2. Soldiers can send requests to the NGB (address in app F).

c. State officer personnel manager or enlisted personnel manager office requirements. The State OPM or EPM office will ensure that—

(1) Evaluation reports are complete and administratively correct.

(2) Evaluation reports will be submitted to the appropriate office (HQDA or State OPM or EPM office) to arrive no later than 90 days after the “THRU” date of the evaluation report. Timely submission of reports is a consideration in view of their impact on personnel actions. Because personnel actions are based on available records, the late submission of an evaluation report may result in inequity to either the Soldier or the ARNG. The schedule of centralized selection, promotion, and school boards will be closely monitored to ensure eligible reports, both mandatory and optional, are received in sufficient time to be included in a Soldier’s board file for consideration by the board.

(3) A copy of completed evaluation reports will be retained in suspense for 120 days.

(4) Once the evaluation has been placed on Soldier’s AMHRR, administrative changes will be accomplished only by the Officer Management Branch, when requested by the State military personnel officer. No changes or removal of an Officer’s Evaluation will be made at State level.

(a) Officer evaluation reports. The following rules apply:

1. Completed, digitally signed OERs, in original format, prepared on the most current form version available in the Evaluation Entry System portal, will be routed in accordance with table H–2 and submitted to HQDA using the Evaluation Entry System portal to the greatest extent possible.

2. Manually signed OERs will be placed, unfolded, in an envelope with letter of transmittal and routed in accordance with table H–2 for mailing to HQDA (AHRC–PDV–ER) (address in app F). Classified reports will be handled as described in paragraph 3–22.

3. Referred OERs will be prepared and referred in accordance with paragraphs 2–15 through 2–17, 3–26, 3–28, and DA Pam 623–3.

(b) Noncommissioned officer evaluation report. The following rules apply:

1. Completed, digitally signed NCOERs, in original format, prepared on the most current form version available in the Evaluation Entry System portal will be sent in accordance with table H–2 to the rated NCO’s State EPM office (address in table H–3).

2. Manually signed NCOERs will be placed, unfolded, in an envelope with a letter of transmittal and sent in accordance with table H–2 to the rated NCO’s State EPM Office (address in table H–3).

(c) Academic evaluation report.

1. ARNG Soldiers who receive an AER will ensure a copy is sent to the State OPM or EPM office (address in table H–3).

2. Referred AERs will be prepared and referred in accordance with paragraphs 2–16 through 2–18, 3–27, 3–28, and DA Pam 623–3.

d. Enclosures. See paragraph 3–35 for policy on authorized enclosures to evaluation reports.

e. Access to reports. Access to reports at the NGB and State headquarters is limited to individuals responsible for maintaining the file or authorized to use it for personnel management purposes. Access to reports at the local level is limited to those having command, administrative, or rating official responsibility for the report.

H–17. Processing appeals
Policy and procedures for processing evaluation appeals are in chapter 4. The CNGB is responsible for screening and acting on, or forwarding, all appeals submitted by ARNG members for periods of ARNG service.

H–18. Submission of documents

a. Procedures for processing CDR’s or Commandant’s Inquiries are as described in chapter 4; however, inquiries will be forwarded as necessary to NGB (NGB–ARP–C), through the State OPM or EPM office (address in table H–3).

b. Appeals will be submitted in memorandum format as discussed in chapter 4. They will be sent directly to the NGB (NGB–ARP–PE) (address in app F) by the appellant. There is no requirement to process appeals through command channels, nor will any element subordinate to NGB establish such a policy. Every attempt will be made to avoid the use of command channels for communications concerning the appeal in order to protect the interest of the command elements, witnesses and the appellant. Inclusion of the appellant’s current home address and phone number will allow for direct contact between appellant and the Officer Management Branch appeals technician assigned to the case for questions that may arise during the adjudication process. Therefore, appeals that do not include a home address and phone number will be returned without action unless the memorandum of appeal clearly states that the appellant prefers the use of official channels in lieu of direct contact. Any questions concerning actual or anticipated appeals will be addressed to the Appeals and Analysis Section, the Officer Management Branch, or the Enlisted Management Branch.

Appendix I
Internal Control Evaluation

I–1. Function
The function covered by this evaluation is the administration of the Army ERS.

I–2. Purpose
The purpose of this evaluation is to assist assessable unit managers, internal control administrator, and test control officers in evaluating the key internal controls outlined. It is not intended to cover all controls.

I–3. Instructions
Answers must be based on the actual testing of key internal controls (for example, document analysis, direct observation, sampling, simulation, or other). Answers that indicate deficiencies must be explained and the corrective action identified in supporting documentation. These internal controls must be evaluated at least once every 5 years. Certification that the evaluation has been conducted must be accomplished on DA Form 11-2 (Internal Control Evaluation Certification).

I–4. Test questions

a. Are rating chains being established by the CDR, commandant, or leader of an organization and maintained by rating officials?

b. Is the rated Soldier participating in counseling, providing and discussing with the rating chain the duty description, performance objectives or academic standards and/or course requirements with the rater within 30 days after the beginning of each new rating period and at least quarterly thereafter?
c. Is the rater providing a copy of his or her support form, along with the senior rater’s support form, to the rated Soldier at the beginning of the rating period?

d. Are senior raters ensuring rating officials counsel the rated Soldier, individually and throughout the rating period, on meeting his or her objectives and complying with the professional standards of the Army?

e. Are evaluation reports being submitted in accordance with the requirements outlined in paragraph 3–2?

f. Are rating officials utilizing DA Form 2166–8–1 (for NCOs) and DA Form 67-10-1A (for Officers) in accordance with the process outlined in DA Pam 623–3?

g. Are local units maintaining copies of submitted classified evaluation reports in accordance with AR 380–5?

h. Are most recent versions of evaluation report forms found in the Evaluation Entry System portal being utilized for preparation and submission requirements?

I–5. Supersession
This checklist is the initial Internal Control Evaluation Checklist for the Army ERS.

I–6. Comments
Help make this a better tool for evaluating internal controls. Submit comments to Commander, U.S. Army Human Resource Command, (AHRC–PDV–E), 1600 Spearhead Division Avenue, Department 470, Fort Knox, KY 40122–5407.

U.S. Army Reserve

USARC
U.S. Army Reserve Command
Section II
Terms

Appeal
The procedure taken by the rated Soldier or another interested party to correct administrative or substantive type errors for evaluation reports accepted for inclusion in the rated officer’s or NCO’s AMHRR.

Appointed duties
Additional responsibilities not normally associated with the duty description.

Army competitive category
Regular Army officers in the basic branches. This category does not include the specialty branches of the Chaplain’s Corps, JAGC, or the AMEDD.

Attributes
Describe the leaders that the Army wants and how an individual behaves and learns within an environment. The leader attributes are character, presence, and intellect. These attributes represent the values and identity of the leader (character) with how the leader is perceived by followers and others (presence), and with the mental and social faculties, the leader applies in the act of leading (intellect). Character, a person’s moral and ethical qualities, helps a leader determine what is right and gives a leader motivation to do what is appropriate, regardless of the circumstances or consequences. Actions, words, and the manner in which leaders carry themselves convey presence. Presence is not just a matter of showing up; it involves the example that the leader projects to inspire others to do their best and follow their lead. An Army leader’s intelligence draws from conceptual abilities and is applied to one’s duties and responsibilities. Conceptual abilities enable effective problem-solving and sound judgment. See also ADRP 6–22.

Bullet comments
Short, concise, to-the-point comments starting with action words (verbs) or possessive pronoun (his or her). Bullet comments will not be longer than two lines, preferably one, and no more than one bullet to a line.

Calendar year
A period that is 365 days, or 366 days if the Leap Year date, 29 February, is included.

Capable
Meets requirements of position and additional duties. Capable of demonstrating Soldier attributes and competencies and frequently applies them; actively learning to apply them at a higher level or in more situations. Aptitude, commitment,
competence meets expectations. Actions have a positive impact on unit or mission but may be limited in scope of impact or duration.

**Chain of command**
The succession of military CDRs, superior to subordinate, through which command is exercised. Normally, CDRs evaluate CDRs.

**Chain of supervision**
The individuals (military and/or civilian) involved in providing operational, functional, and/or technical supervision of a rated Soldier.

**Competence**
The knowledge, skills, and abilities necessary to be an expert in the current duty assignment and to perform adequately in other assignments within the MOS when required. Competence is both technical and tactical and includes reading, writing, speaking, and basic mathematics. It also includes sound judgment, ability to weigh alternatives, form objective opinions, and make good decisions. Closely allied with competence is the constant desire to perform better, to listen and learn more, and to do each task completely to the best of one’s ability. Competence is exemplified through learning, growing, setting standards and achieving them, creating and innovating, taking prudent risks, and never settling for less than the best. A Soldier’s demonstration of a commitment to excellence.

**Commander’s or commandant’s inquiry**
Investigation into a Soldier’s evaluation report made by an official in the chain of command or supervisory chain above the designated rating officials involved in the allegations to determine if an illegality, injustice, or regulatory violation has occurred. The appointing official for a CDR’s or Commandant’s Inquiry into an OER will normally be the CDR, commandant, or civilian supervisor who rates the senior rater. The appointing official for an NCOER will normally be the CDR, commandant, or civilian supervisor who rates the reviewer.

**“Complete the Record”**
An optional evaluation report intended to update a Soldier’s file with performance and potential information that has not previously been documented in the Soldier’s evaluation history since the time of the most recent evaluation report. MILPER messages clearly specify the criteria for “Complete the Record” reports (“THRU” date and required receipt date at HQDA).

**Core leader competencies**
Leader competence develops from a balanced combination of institutional schooling, self-development, realistic training, and professional experience. Competencies provide a clear and consistent way of conveying expectations for Army leaders. Current and future leaders want to know how to be successful leaders. The core leader competencies apply across all levels of leader positions and throughout careers, providing a good basis for evaluation and focused multisource assessment and feedback. A spectrum of leaders and followers (superiors, subordinates, peers, and mentors) can observe and assess competencies demonstrated through behaviors. See also ADRP 6-22.

**Dual supervision**
A situation in which an officer or warrant officer who, during the entire period of evaluation, is assigned separate responsibilities and receives supervision from two different chains of command or supervision. This provision does not apply to NCO rating schemes, NCOERs, or AERs.

**Energy-informed actions**
Actions which improve energy performance through techniques, behaviors, and organizational culture by integrating operational energy considerations into planning, requirements development, acquisition, construction, operations, research, development, technology and evaluation, reporting, and management programs.

**Evaluation report timeliness**
A resulting equation (percentage of reports submitted on time) that is correlated to individual senior raters on those reports and reflects submission to HQDA within regulatory guidelines.

**Excels**
Results far surpass expectations. The officer readily (fluently/naturally/effortlessly) demonstrates a high level of the all attributes and competencies. Recognizes and exploits new resources; creates opportunities. Demonstrates initiative and adaptability even in highly unusual or difficult situations. Emulated; sought after as expert with influence beyond unit.
Actions have significant, enduring, and positive impact on mission, the unit and beyond. Innovative approaches to problems produce significant gains in quality and efficiency.

**FROM date**
The beginning date of the period covered; the day following the “THRU” (ending) date of the previous evaluation report period.

**Headquarters, Department of the Army electronically generated label**
A label placed over the senior rater’s potential box check on an OER, part VII, block b. This label is used only for OERs for officers (2LT through COL) and warrant officers (WO1 through CW4). It shows a comparison of the block check on the OER to all box checks for a given grade in a senior rater’s profile. This does not apply to NCOERs or AERs.

**Intermediate rater**
A supervisor in a rated officer’s chain of command or supervision between the rater and senior rater. This level of supervision may be in the rated officer’s organization or in a separate organization if under dual supervision.

**Leadership**
Influencing others to accomplish the mission. It consists of applying leadership attributes (beliefs, values, ethics, character, knowledge, and skills). It includes setting tough but achievable standards and demanding that they be met; caring deeply and sincerely for subordinate Soldiers and civilian employees and their Families and welcoming the opportunity to serve them; conducting counseling; setting the example by word and act or deed; can be summarized by skills, attributes and traits as exhibited on the front side of the OER and NCOER, able to instill the spirit to achieve and win; and inspiring and developing excellence. A Soldier who is cared for today is a Soldier who leads tomorrow.

**Misfire**
When the percentage of ACOM assessments in a senior rater’s profile meets or exceeds 50 percent of the total number of OERs for a particular grade. This does not apply to NCOERs or AERs.

**Nonrated time**
Time periods when the rated Soldier cannot be evaluated by the rating officials. Such time periods include but are not limited to school attendance, in-transit travel, hospitalization or patient status, convalescent leave, leave periods of 30 days or more, and periods when the rater has not met minimum qualifications. Periods such as breaks in service or time spent in an IRR, Ready Reserve, or ING status are not ratable periods; therefore, these periods will appear as gaps in a rated Soldier’s evaluation report history.

**Performance counseling**
Planned method to inform Soldiers about their duties and expected performance standards and provide feedback on actual performance. Soldiers’ performance includes appearance, conduct, mission accomplishment, and the manner in which duties are carried out. Honest feedback lets Soldiers know how well they are performing compared to the expected standards.

**Performance evaluation**
Assessments of how well the rated Soldier met their duty requirements and adhered to Army professional leadership standards. Performance is evaluated by observing a rated Soldier’s actions, demonstrated behavior, and results in terms of adherence to the Army Values and their responsibilities. Due regard is given to the experience level of the rated Soldier, efforts made, and results achieved.

**Period of report**
Time period covered by an evaluation report, which includes rated and nonrated time. The period begins the day following the “THRU” (ending) date of the most recent evaluation report and ends on the day of the event causing the current report to be rendered or the last day of supervision or duty day before a Soldier’s departure.

**Physical fitness and military bearing**
Physical fitness is the physical and mental ability to accomplish the mission, that is, combat readiness. Total fitness includes weight control, diet and nutrition, smoking cessation, control of substance abuse, stress management, and physical training. It covers strength, endurance, stamina, flexibility, speed, agility, coordination, and balance. Soldiers are responsible for their own physical fitness and that of their subordinates. Military bearing consists of posture, dress, overall appearance, and manner of physical movement. Bearing also includes an outward display of inner feelings,
fears, and overall confidence and enthusiasm. An inherent responsibility of all leaders is concern with Soldiers’ military bearing and making on-the-spot corrections, as needed.

**Pooling**
Elevating the rating chain beyond the senior rater’s ability to have adequate knowledge of each Soldier’s performance and potential, in order to provide an elevated assessment protection for a specific group, runs counter to the intent of the evaluation system.

**Potential evaluation**
An assessment of the rated Soldier’s ability, compared with that of other Soldiers of the same grade, to perform in positions of greater responsibility and/or higher grades.

**Proficient**
Consistently produces quality results with measurable improvement in unit performance. Consistently demonstrates a high level of performance for each attribute and competency. Proactive in challenging situations. Habitually makes effective use of time and resources; improves position procedures and products. Positive impact extends beyond position expectations.

**Rated Soldier**
A rated officer, warrant officer, or NCO.

**Rated time**
Time when a rated Soldier has been assigned under a valid rating chain for the purposes of counseling, guidance, and evaluation of performance and potential.

**Rater**
First-line supervisor of the rated Soldier who is designated as the rater on the rating scheme. Primary role is that of evaluating, focusing on performance, and performance counseling. Conducts face-to-face performance counseling with the rated Soldier on duty performance and professional development within the first 30 days of each rating period and, for a majority of Soldiers, at least quarterly thereafter; for others, periodically, as needed.

“**Rater Profile**” report
For OERs only, a documented rating history, compiled at HQDA; it displays the senior rater’s rating history by grade.

“**Rater Profile**” restart
For OERs only, the deletion of an established rating history for all grades or a specific grade or grade grouping, if the rater meets all requirements for a restart. When accomplished, a new rating history (profile) is structured based on OERs rendered following the restart.

**Rating chain**
The rated Soldier’s rating officials (rater, senior rater, and reviewer) as published on the rating scheme. For officer evaluations only, for specialty branches and dual supervisory situations, an intermediate rater may be placed on a published rating scheme.

**Rating officials**
Designated individuals (rater, intermediate rater, senior rater, and reviewer) as published on the rating scheme who render an evaluation on the rated Soldier.

**Rating scheme**
Written, published document showing rated Soldiers, their rating officials, and the effective date on which the rating officials assumed their role.

**Redress**
Procedures by which rated Soldiers can address errors, bias, or injustices during and after the preparation of an evaluation report and have them corrected.

**Referral**
The process of formally providing a completed evaluation report to a rated officer for review and acknowledgment. Referral is accomplished by the senior rater. This procedure ensures the rated officer is advised they are permitted to comment on adverse information contained in the OER before it becomes a matter of permanent record. The referral
may be accomplished face-to-face, but a written referral method is recommended when the Soldier is not present to accomplish the process in person. This provision does not apply to NCOERs or NCO AERs.

**Relief**
The removal of a rated Soldier from an assigned position based on a decision by a member of the Soldier’s chain of command/ supervisory chain that his or her personal or professional characteristics, conduct, behavior, or performance of duty warrant his or her removal from the position in the best interests of the U.S. Army. Relief actions require the completion of a “Relief for Cause” OER or NCOER. A relieved officer cannot prepare or submit an evaluation report on their subordinates during the suspension period leading up to the relief or after the relief is final.

**Responsibility and accountability**
The proper care, maintenance, use, handling, and conservation of personnel, equipment, supplies, property, and funds. Maintenance of weapons, vehicles, equipment, conservation of supplies and funds is a special leadership responsibility because of its links to the success of all missions, especially those on the battlefield. It includes inspecting Soldier’s equipment often, using a manual or checklist; holding Soldiers responsible for repairs and losses; learning how to use and maintain all the equipment Soldiers use; being among the first to operate new equipment; keeping up-to-date component lists; setting aside time for inventories; and knowing the readiness status of weapons, vehicles, and other equipment. It includes knowing where each Soldier is during duty hours, why the Soldier is going on sick call, where the Soldier lives, and his or her Family situation. It involves reducing accidental manpower and monetary losses by providing a safe and healthful environment; it includes creating a climate that encourages young Soldiers to learn and grow and reporting serious problems without fear of repercussions. Also refers to the rated Soldier accepting responsibility for his or her own actions and those of his or her subordinates.

**Reviewer**
For NCOERs, a third-line rating official who is an officer, CSM, or SGM in the direct line of supervision and senior in pay grade, grade of rank, or date of rank to the senior rater. Promotable MSGs may serve as reviewers provided they are serving in an authorized SGM or CSM position. Primary role is that of providing oversight in the evaluation reporting process. For OERs, the senior rater typically conducts the final review of the evaluation report and the reporting process. However, when there are no uniformed Army designated rating official for the rated Officer, “Relief for Cause” evaluation reports when the senior rater is the individual directing the relief, or if the relief has been directed by an individual other than the rating officials, an additional review is required by a Uniformed Army Advisor within the organization above the rating chain.

**Senior rater**
Normally, the second-line rating official who is in the direct line of supervision of the rated Soldier and senior to the rater by either pay grade or date of rank. Primary role is evaluating and focusing on the potential of the rated Soldier; responsible for providing a performance/potential assessment of the rated Soldier. Obtains the rated Soldier’s signature on the evaluation report or enters appropriate statement if rated Soldier refuses, is unable, or unavailable to sign. For OERs, performs the referral of reports with negative or derogatory comments to rated officers; the third-line supervisor when an intermediate rater exists in the chain of command or supervision.

**“Senior Rater Profile” report**
For OERs only, a documented rating history, compiled at HQDA; it displays the senior rater’s rating history by grade. Also known as the “DASH–2” report and accompanied by the “Senior Rater Evaluation Timeliness” report.

**“Senior Rater Profile” restart**
For OERs only, the deletion of an established rating history for all grades or a specific grade or grade grouping, if the senior rater meets all requirements for a restart. When accomplished, a new rating history (profile) is structured based on evaluation reports rendered following the restart.

**Suspension**
The temporary removal of the rated Soldier from his or her duty position pending a final decision on an adjudicated issue. The period of suspension will be shown as nonrated time on the evaluation report. The suspended Soldier cannot prepare or submit an evaluation report on his or her subordinates during the time he or she is suspended.

**THRU date**
The ending date of the period covered on an evaluation report; the due date for an “Annual” evaluation report; the date on which an event warranting a report to be rendered occurs; or the last day of supervision or last duty day before a Soldier’s or a rating official’s departure.
Training
Preparation of Soldiers, units, and combined arms teams to perform assigned duties; also teaching Soldiers skills and knowledge. Army leaders contribute to team training and are often responsible for unit training (squads, crews, sections), but individual Soldier training is the most important. Quality training bonds units; leads directly to good discipline; concentrates on wartime missions; is tough and demanding without being reckless; is performance oriented; sticks to Army doctrine to standardize what is taught to fight, survive, and win as small units. Good training means learning from mistakes and allowing plenty of room for professional growth. Sharing knowledge and experience is the greatest legacy one can leave subordinates.

Uniformed Army Advisor
An Army Officer, senior to the rated officer within a unit or organization, usually senior to the designated senior rater, who provides assistance and advice to rating officials (as required) pertaining to U.S. Army evaluations. This includes, but is not limited to, ensuring non-uniformed Army rating officials provide clear, concise, and effective written communication, focused on the rated officer’s career and professional development, which allows effective decision making by HQDA. Uniformed Army Advisors perform supplementary reviews (as required).

Unit
The actual military unit, organization, or agency to which the rated Soldier was assigned and performed duty during the rating period.

Values or Army Values
Army Values consist of the principles, standards, and qualities considered essential for successful Army leaders (Loyalty, Duty, Respect, Selfless service, Honor, Integrity, Personal courage). They are fundamental to helping Soldiers and Army Civilians make the right decision in any situation. Teaching values is an important leader responsibility by creating a common understanding of the Army Values and expected standards. The Army recognizes seven values that all Army members must develop.

Section III
