Policy Changes

The 38th CSA asked us to look at methods to combat pooling: Pooling is basically defined as “Elevating the rating chain beyond the senior rater’s ability to know the officer, in an attempt to provide ACOM protection for a specific group of officers or avoid small rating populations”

Pooling is counter to intent and spirit of the evaluation system, erodes confidence in the fairness and equity of the system and we know that properly designated rating officials are in the optimal position to provide the best evaluation of an officer’s performance and potential.

As a result, HRC will include language discouraging pooling via regulatory guidance . Thereby we will raise visibility of issue in a public forum which has not previously been done and still allow commanders and senior leaders to be responsible for designating rating schemes

Example: AR 623-3 Para 2-5:

AS READS: "The Rater **will normally** be the immediate supervisor of....."

WILL READ: "The Rater **will be** the immediate supervisor of..."

Para 2-7

AS READS: "The SR **will normally** be the immediate supervisor of....."

WILL READ: "The SR **will be** the immediate supervisor of the Rater..."

Will add "note" throughout regulation at applicable locations (i.e. Managing the Rating Chain, Roles and Responsibilities, etc.) that brings "Pooling" to light.
